iObamanos! Hendrik Hertzberg, 2009-10-29 Hertzberg has a novelist's control of metaphor and a comedian's gift for the one-liner. -The New York Times Book Review iObámanos! is powered by celebrated political essayist Hendrik Hertzberg's Comments for The New Yorker's The Talk of the Town and the personal blog he began keeping on the magazine's Web site fifteen months before the election. Hertzberg follows the players and the stars while examining the issues that emerged as critical during the debates such as health care, the Iraq war, and the economic crisis. Through his observation and analysis of the campaign's defining moments, we come to see the current political landscape in a new light. iObámanos!--the title inspired by a poster Hertzberg saw on a dusty road near Santa Fe--heralds the opening of a new era in American politics.

The Weaponization of Weather in the Phony Climate War Joe Bastardi, 2020-09-08 What if climate change is naturally occurring and cyclical? What if trillions of dollars will be spent to accomplish nothing? What if the real agenda is not about science, climate and weather, but simply uses this as a tool to disrupt and destroy the foundational concepts of one nation, under God, that have led to the greatest quality of life and liberty the world has ever known? At 65, Joe Bastardi is one of the most experienced meteorologists in the world today. His knowledge of past major events puts into perspective the extreme weather events seen today, that are nothing new, and in fact, not as severe as before. In this book, Bastardi goes in-depth to document naturally occurring climate and weather events to question those whose agenda it is to weaponize each weather event for the pursuit of a political and social aim. Of course, the climate is changing, and with the many natural influencers constantly in play, it always will. Thanks to an ever-fluctuating level of activity in the large natural drivers that have always controlled it, such as our Sun, the oceans, stochastic events and the very design of the system itself, climate change is natural. "A single attribution to man as the climate control knob in the face of this is questionable, if not a stretch. The reader should at least look at the ideas presented here," said Bastardi. Joe understands the fear today, given what has been nothing short of public indoctrination. His new book offers an environmentally friendly and inexpensive solution to alleviate those fears, that will not destroy the economic lifeline of this nation as the Green New Deal surely will. It begins with removing the fear that has been pushed to create what is becoming irrational panic, especially with our young. So, is this book important on multiple levels? You decide.

Obama on the Couch Justin A. Frank, 2012-05 Analyzes Barack Obama's behavior to explain the apparent disconnect between his campaign promises and presidential choices, drawing on factors from his past to illuminate the role of unconscious thoughts on the administration of his policies.

1984 Redux Andrew Curtiss, 2011 July, 2009; Andrew Curtiss received a Chain Mail in his E-Mail box. The Message was sent to him from a former colleague he served with in the US Army Special Forces at Fort Bragg North Carolina. The subject line of the message read Congratulations you made the terrorist watch list! The content suggested that the Department of Homeland Security had labled millions of Americans who are Constitutionalists, Pro Life, of Christian faith, voters for rightwing politics, are combat veterans and more; as potential domestic terrorists. After researching the matter Andrew found that the DHS did infact publish such a report that was meant to be confidential for

law enforcement only. The report was published April 7, 2009. It was during Andrew's research into the matter that he realized the Fundamental Transformation of America as promised by Barrack Obama was indeed transforming America into something much like Oceania in George Orwell's 1984. 1984 Redux digs deep into the issues facing Americans today as America Fundamentally Transforms. Curtiss draws the comparison of where Obama and his leftist handlers and drones want to take America as part of this transformation; to the extreme Socialist Oligarchy depicted in Orwell's 1984. Supported by scores of references and facts, one might be surprised to see how close to Orwell's nightmarish depiction America is headed. 1984 Redux is not only a wakeup call to America, but the world; as to what could be if the most influential nation in the world and last hope for freedom falls to the left.

The Obama Nation Jerome R. Corsi, 2008-08-05 In this thoroughly researched and documented book, the #1 New York Times bestselling co-author of *Unfit for Command: Swift Boat Veterans Speak Out Against John Kerry* explains why the extreme leftism of an Obama presidency would leave the United States weakened, diminished and divided, why Obama must be defeated -- and how he can be. Barack Obama stepped onto the national political stage when the then-Illinois State senator addressed the 2004 Democratic National Convention. Soon after Obama was elected to the U.S. Senate, author Jerome Corsi began researching Obama's personal and political background. Scrupulously sourced with more than 600 footnotes, *The Obama Nation* is the result of that research. By tracing Obama's career and influences from his early years in Hawaii and Indonesia, the beginnings of his political career in Chicago, his voting record in the Illinois legislature, his religious training and his adoption of Christianity through to his recent involvement in Kenyan politics, his political advisors and fundraising associates and his meteoric campaign for president, Jerome Corsi shows that an Obama presidency would, in his words, be a repeat of the failed extremist politics that have characterized and plagued Democratic Party politics since the late 1960s. In this stunning and comprehensive new book, the reader will learn about: Obama's extensive connections with Islam and radical politics, from his father and step-father's Islamic backgrounds, to his Communist and socialist mentors in Hawaii and Chicago, to his long-term and close associations with former Weather Underground heroes William Ayers and Bernadette Dohrn -- associations much closer than heretofore revealed by the press. Barack and Michelle's 20-year-long religious affiliation with the black-liberation theology of former Trinity United Church of Christ Reverend Jeremiah Wright, whose sermons have always been steeped in a rage first expressed by Franz Fanon, Stokely Carmichael and Malcolm X, a rage that Corsi shows has deep meaning for Obama. Obama's continuing connections with Kenya, the homeland of his father, through his support for the candidacy of Raila Odinga, the radical socialist presidential contender who came to power amid Islamist violence and church burnings. Obama's involvement in the slum-landlord empire of the Chicago political fixer Tony Rezko, who helped to bankroll Obama's initial campaigns and to purchase of Barack and Michelle's dream-home property. The background and techniques of the Obama campaign's cult of personality, including the derivation of the words hope and change. Obama's far-left domestic policy, his controversial votes on abortion, his history of opposition to the Second Amendment, his determination to raise capital-gains taxes, his impractical plan to achieve universal health care, and his radical plan to tax Americans to fund a global-poverty-reduction program. Obama's naïve, anti-war, anti-nuclear foreign-policy, predicated on the reduction of the military, the eradication of nuclear weapons and an overconfidence in the power of his personality, as if belief in change alone could somehow transform international politics, achieve nuclear-weapons disarmament and withdrawal from Iraq without adverse consequences, for us, for the Iraqis or for Israel. Meticulously researched and documented, *The Obama Nation* is the definitive source for information on why and how Barack Obama

must be defeated -- not by invective and general attacks, but by detailed arguments that are well-researched and fact-based.

The Obama Hate Machine Bill Press, 2012-01-31 'Obama was born in Kenya'...'Obama is a Muslim and a terrorist sympathizer'...'Obama is a Communist who wants to institute death panels'...The extent to which these undying lies have taken hold in the American mindset shows just how ruthless, destructive, and all-powerful the right-wing machine--hijacked by extremists in the media and fueled by corporate coffers--has become in America. And no one has inspired such venom as our nation's current president, who has been targeted by Republicans for a uniquely insidious brand of character assassination. In his characteristic on-the-mark arguments sure to appeal to anyone on the Left or in the Center, talk show host and syndicated columnist Bill Press shows how the peculiar nature of Obama Hating subverts issue-driven debate and threatens not only the outcome of the 2012 election but the future of the American democratic system--

Deconstructing Obama Jack Cashill, 2011-02-15 Did Obama write his own books and is the story they tell true? "I've written two books," Barack Obama told a crowd of teachers in July of 2008. "I actually wrote them myself." The teachers exploded in laughter. They got the joke: lesser politicians were not bright enough to do the same. During the 2008 presidential campaign, Obama supporters pointed to the first of those two books, the 1995 memoir, *Dreams from My Father*, as proof of Obama's superior intellect. Time magazine called *Dreams* "the best-written memoir ever produced by an American politician." The Obama campaign machine traded on the candidate's literary reputation, encouraging volunteers to "get out the vote and keep talking to others about the genius of Barack Obama." There was just one small flaw, as writer and literary detective Jack Cashill discovered months before the November 2008 election: nothing in Obama's history suggested he was capable of writing either *Dreams* or his 2006 book, *The Audacity of Hope*. In fact, as Cashill continued his research, he came to the shocking conclusion that the real craftsman behind *Dreams* was terrorist emeritus Bill Ayers. "This was a charge," David Remnick admits in his definitive Obama biography, *The Bridge*, "that if ever proved true, or believed to be true among enough voters, could have been the end of the candidacy." *Deconstructing Obama* tells the story of what happens when a citizen journalist discovers a game-changing reality that the media refuse to acknowledge. Despite their rejection, Cashill expanded his research into Obama's literary canon. As he came to see, if *Dreams* serves as sacred text, the poem "Pop" is the Rosetta stone, the key to deciphering Obama's shrouded past, his fragile psyche, and his uniquely cryptic political life. In unlocking that past, Cashill discovered that the story that Obama has been telling all his life varies from the true story in ways big and small. In fact, much of Obama's life story appears to be a wholly constructed fabrication, one that Jack Cashill "deconstructs" to show the world just who Barack Obama really is.

Me and My Friend President Obama Peiman Ghasemi, 2014-06-20 My life is full of espionage and political memories. When I started my political activities and when I started to fight for freedom of people, I was only 14, one of the teenager Iranian boys. I got tortured extremely hard. Today (February 15) I'm in Turkey and I decided to write a book, a concise part about my cooperation with The White House and The Central Intelligence Agency and many years of cooperation with Human Rights Watch (HRW) and IFRC (International Federation of Red Cross and Red Crescent Societies); a few political leaders of England, France, agents of NSA (The National Security Agency, who didn't let me to submit any top secret information, before.) and CIA agents and Mossad and Shin Bet (Shabak) and USSS (The United States Secret Service) and Microsoft communicated with me about what am I started to write now? All around the hell, staying in Russia where your bones would sense it's very cold weather, inside of it's deep underground city where you ask your self How is it possible for some satellites with their warheads to track me here?.

During travel to Philippines with it's sexy girls inside of the bars and clubs. In middle east, years ago, in dark and fearful deserts in Esfahan-Tehran highways in Iran smelling cold weather in my lungs causes a different filling for me about this hard and cold situation, the Animal Farm nearby and me On The Run, it's about 2 AM and I am in my car, damn it's so dark, from the side of the highway I hear something like a scream but no problem its only a nightmare what the environmental situation caused, my secret documents here in my briefcase! Doing violated activities causes a shame on our country. While Israeli and also British intelligence agencies are up to date and act for the current situation. I remember, many month ago, I informed The US President about that I like to write a book but I wrote for him that its subject will be about the latest US presidential election, while because of some accidents, what happened after sending this messages and also because of I received a vast variety of new information, so only a very limited part of this book is about the election. I remember The Great Britain had decided that one of their spies who was sick (because of the amounts of tortures on him) dies but some agents of UK and America and somewhere else, use his Identities to keep them selves alive, before of his death I had some communications (through satellites) with SIS and I had some secret communications with some US agents, some US agents who was sentenced to death, in Iran. This book is a great monument for people who want to increase their knowledge about the secret history and about the spies who died but they could not talk with them. It's a pleasure that I included one of the notes what Bill Gates gave me before to submit it in my book. It's a pleasure that I could receive only a few words from Stephen Hawking from a dictionary and I added them to my book. I decided to write a non-fiction book and describe the realities to researchers who like to learn more about some parts of my life and also some parts of president Obama's life, for who like to gain more knowledge about me and about what happened recently in Iran, Turkey, Russia and England, the relations and the affections of the American's policy on their policy. A concise part of our private communications and what we did behind the closed doors to change the course of the world!

"Should Obama Be Impeached?" Thomas R. Meinders, 2011-05-06 Should Obama Be Impeached? The United States of America is currently in three wars. What the American people would like to know is why we engaged in any of them since the President of the United States doesnt make a commitment to winning them. The President has stated that we would start withdrawing troops from Afghanistan within a few months. If we are going to withdraw the troops in a few months without any hope of winning the war it makes more sense to withdraw them immediately. The Taliban is just waiting for the troops to withdraw. The Taliban already knows that they have won the war. The President needs to make the commitment to win the war or get out now. This is a huge waste of the resources of the United States with no hope for a positive outcome. If the President is going to have a plan to win the war then he needs to discuss it with the Generals in charge. The President does not know who we are fighting or why. When Obama was asked who the rebels are in Libya there was complete silence. Why are we there when no one knows who we are supporting? Then the President has made comments that Gadhafi must go. Then in the next sentence Obama states that we will not target Gadhafi with the air strikes. The President can not have it both ways. Either eliminate Gadhafi and his leaders or forget about winning this war. When you cut off the head of the dog, the rest of the dog is going to stop functioning. This does not seem like a very hard decision to make. Get serious about winning or get out of the game.

Extreme Weather, Health, and Communities Sheila Lakshmi Steinberg, William A. Sprigg, 2016-04-20 This volume presents a unique interdisciplinary approach, drawing on expertise in both the natural and social sciences. A primary goal is to present a scientific and socially integrated perspective on place-based community engagement, extreme weather, and health. Each year extreme weather is leading to natural disasters around the

world and exerting huge social and health costs. The International Monetary Fund (2012) estimates that since 2010, 700 worldwide natural disasters have affected more than 450 million people around the globe. The best coping strategy for extreme weather and environmental change is a strong offense. Communities armed with a spatial understanding of their resources, risks, strengths, weaknesses, community capabilities, and social networks will have the best chance of reducing losses and achieving a better outcome when extreme weather and disaster strikes.

Summary & Rebuttal for Becoming by Michelle Obama SCOTT CAMPBELL, 2021-01-03 Thanks to mass marketing from deep pocketed progressives into 28 languages from a parent publishing firm from Germany, called Bertelsmann, which own's Crown, Michelle Obama's book, *Becoming*, is likely to enjoy the status and influence of the best selling memoir of all time--unless Barack's *A Promised Land*, can beat it. Bertelsmann, which initially became rich from publishing for Hitler through exploiting Jewish slave labor, influences most of the Western world as a serpent which molted into the world's biggest publishing company. Bertelsmann soon earned a reputation for meddling in global politics, accepted routine visits from heads of state, and made Barack and Michelle rich. Barack's first lucrative contract came just before he entered office, making it perfectly legal, albeit unethical. The biggest contracts came after they left the White House. We can assume they got something in return for Germany and the EU other than book profits--like a deal to publish Common Core or an Obama push for the Paris Climate Agreement. It just doesn't seem right to make all of that money off of public office, especially when you profess concern for income inequality and the plight of the poor. According to *The Atlantic*, Barack Obama leaked that Michelle's publisher employed a ghostwriter for her life chronicles, and, of course, claimed that he will not. This becomes obvious with professional-level passages filled with clever use of verbs, adjectives, and descriptions more fitting for a practiced novelist than an attorney or hospital outreach director. It is not uncommon for celebrities to employ ghostwriters, but when the memoir is hyped as "in her own words," then it becomes unsettling, even disgusting. This summary book is a most unusual and valuable book for understanding Michelle Obama, her origins, and her participation in a partisan plot, including an arranged marriage, with Barack Obama and his leftist, activist, and big-business backers, to capture the White House for profit and global influence. This book presents a summary of *Becoming* as published, but then continuously counters with a rebuttal which is expanded after the summary. So you get Bertelsmann's version of her story, and then the real and truthful version, simultaneously, and with cited references from reputable sources. IMPOSTOR SYNDROME Imposter Syndrome, or "fraud syndrome," is not uncommon among celebrities as a psychological affliction in which a person not only questions their abilities, intelligence, and accomplishments, but harbors a nagging and constant fear of being revealed as a fraud. According to the BBC, on December 3, 2018, Michelle Obama interviewed in London with Nigerian author Chimamanda Ngozi Adichie, and, when asked how she felt about her perception as a symbol of hope, told the world that she has Impostor Syndrome, and she finds it hard to believe that people listen to her at all, and that people should not take her seriously. Michelle summed it up by saying she sometimes feels like a fraud. Could it be that not only is she a fraud, but, along with Barack Obama, an integral part of the perhaps the biggest, most serious, most damaging fraud in world history, responsible for the pilfering of trillions of dollars, economic stagnation, the abandonment of morality, killing hundreds of thousands, and further dividing a nation by race and gender? If true, Michelle and Barack's fraud may have provided the funding and

leadership, and access by foreign governments, to finally destroy the values and fabric of the United States forever in favor of leftist and communist agendas. Fraud, or fraud and treason?

Summary & Rebuttal: A Promised Land: Barack Obama Scott

Campbell,2021-01-14 Warning! This is a summary, intended to rebut, with over 700 total pages, A Promised Land, the top-selling non-fiction book in 2020. This book is not to replace Obama's memoir, but to bury it. Obama's time in prep school showed more passion for his jump-shot and partying than studying. We experience his college years under the admitted influence of Marxism, and into Harvard Law and the alleged arrangement to become the President of the Law Review-- which would launch his political career via The NY Times. We sample his rapid rise to the Senate, and then the Presidency, under the tutelage of Chicago's Deep State professionals like David Axelrod and Valerie Jarrett. Favored candidates, even incumbents, step aside or hand him their campaign, and dirt leaked from sealed court documents buries his opponents. His path to the Presidency miraculously cleared, he finds the keynote tossed at his feet by John Kerry at the DNC to make him famous. John Kerry's staff infuses his campaign. John McCain ensures Obama's success. Obama spends more than all other previous Presidents combined, and harms America in doing so. Obama reveals compromising situations and connections, arousing more suspicion. Brief and interspersed negative comments, clearly marked in Section One, catalyze a full-throttle rebuttal in Section Two. Obama not only left out key facts, like that his family had strong communist ties, or that he governed under the influence of Zbigniew Brzezinski, Iranian Islamist Valerie Jarrett, and Jesse Jackson. Obama, according to Pulitzer-prize-winning author Seymore Hersh, lied about his alleged killing of Osama bin Laden for a boost in the polls. The Rebuttal proves itself to be well-documented and bulletproof. Obama, and his arranged mate and children, proved not to be what they seem.

Economic Benefits of Increasing Electric Grid Resilience to Weather Outages

Jason Furman,2013-09-30 In June 2011, President Obama released A Policy Framework for the 21st Century Grid which set out a strategy for modernizing the electric grid. The initiative directed billions of dollars toward investments in 21st century smart grid technologies focused at increasing the grid's efficiency, reliability, and resilience, and making it less vulnerable to weather-related outages and reducing the time it takes to restore power after an outage occurs. Grid resilience is increasingly important as climate change increases the frequency and intensity of severe weather, which is the leading cause of power outages in the U.S. Between 2003 and 2012, an estimated 679 widespread power outages occurred due to severe weather. This report estimates the annual cost of power outages caused by severe weather between 2003 and 2012 and describes various strategies for modernizing the grid and increasing grid resilience. Over this period, weather-related outages are estimated to have cost the U.S. economy an inflation-adjusted annual average of \$18 billion to \$33 billion. Continued investment in grid modernization and resilience will mitigate these costs over time. Figures. This is a print on demand report.

American Weather Stories Patrick Hughes,1976 Weather has shaped United States' culture, national character and folklore; at times it has changed the course of history. The seven accounts compiled in this publication highlight some of the nation's weather experiences from the hurricanes that threatened Christopher Columbus to the peculiar run of bad weather that has plagued American presidents on Inauguration Day. Also presented are meteorological phenomena encountered by people who documented weather and climate during the Revolutionary and Civil Wars and those who suffered through the year without a summer, the Blizzard of '88, and the dustbowl drought of the 1930's. Numerous historical photographs illustrate the entries. (Author/WB).

"This incisive work" examining Obama's speeches and the theories of W.E.B. DuBois "illuminates the influences of words and ideas" (Choice). The racial history of US citizenship is vital to our understanding of both citizenship and race. Robert E. Terrill argues that, to invent a robust manner of addressing one another as citizens, Americans must draw on the indignities of racial exclusion that have stained citizenship since its inception. In *Double-Consciousness and the Rhetoric of Barack Obama*, Terrill demonstrates how President Barack Obama's public address models such a discourse. Terrill contends that Obama's most effective oratory invites his audiences to experience a form of "double-consciousness," famously described by W. E. B. Du Bois as a feeling of "two-ness" resulting from the African American experience of "always looking at one's self through the eyes of others." An effect of cruel alienation, this double-consciousness can also offer valuable perspectives on society. When addressing fellow citizens, Obama asks each to share in the "peculiar sensation" that Du Bois described. Through close analyses of selected speeches from Obama's 2008 campaign and first presidential term, this book argues that Obama does not present double-consciousness merely as a point of view but as an idiom with which we might speak to one another. Of course, as Du Bois's work reminds us, double-consciousness results from imposition and encumbrance, so that Obama's oratory presents a mode of address that emphasizes the burdens of citizenship together with the benefits, the price as well as the promise.

Obama's Challenge Robert Kuttner,2008 Invoking America's greatest leaders, Robert Kuttner explains how Obama must be a transformative president--or a failed one--a president who must succeed in fundamentally changing our economy, society, and democracy for the better.
