**Orange County** Gustavo Arellano, 2008-09-16 Bestselling author of *iAsk a Mexican!* Gustavo Arellano returns with *Orange County*, a seamlessly woven history of California's Orange County with Gustavo's personal narrative of growing up within its neighborhoods. The story began in 1918, when Gustavo Arellano's great-grandfather and grandfather arrived in the United States, only to be met with flying potatoes. They ran, and hid, and then went to work in Orange County's citrus groves, where, eventually, thousands of fellow Mexican villagers joined them. Gustavo was born sixty years later, the son of a tomato canner who dropped out of school in the ninth grade and an illegal immigrant who snuck into this country in the trunk of a Chevy. Meanwhile, Orange County changed radically, from a bucolic paradise of orange groves to the land where good Republicans go to die, American Christianity blossoms, and way too many bad television shows are green-lit. Part personal narrative, part cultural history, *Orange County* is the outrageous and true story of the man behind the wildly popular and controversial column *iAsk a Mexican!* and the locale that spawned him. It is a tale of growing up in an immigrant enclave in a crime-ridden neighborhood, but also in a promised land, a place that has nourished America's soul and Gustavo's family, both in this country and back in Mexico, for a century. Nationally bestselling author, syndicated columnist, and the spiciest voice of the Mexican-American community, Gustavo Arellano delivers the hilarious and poignant follow-up to *iAsk a Mexican!*, his critically acclaimed debut. *Orange County* not only weaves Gustavo's family story with the history of Orange County and the modern Mexican-immigrant experience but also offers sharp, caliente insights into a wide range of political, cultural, and social issues.

**A People's Guide to Orange County** Elaine Lewinnek, Gustavo Arellano, Thuy Vo Dang, 2022-01-25 At first encounter, Orange County can resemble the incoherent sprawl that geographer James Howard Kunstler named *The Geography of Nowhere*: a car-dependent, seemingly bland space designed most of all for efficient capitalist consumption. But it is somewhere, too, and learning its stories helps it become more than its boosters' slogans. Writers Lisa Alvarez and Andrew Tonkovich, residents of Orange County's remote Modjeska Canyon, describe this whole county as a much-constructed and -contrived locale, a pestered and paved landscape built and borne upon stories of human development... of destruction as well as, happily, of enduring wild places. In a similar vein, essayist D. J. Waldie, chronicler of the bordering suburb of Lakewood, asserts that becoming Californian ... means locating yourself in habitats of memory that connect ordinary, local areas with broader themes. Moving beyond sentimentality, nostalgia, and so many sales pitches that omit far too much, Waldie echoes Michel de Certeau's call to awaken the stories that sleep in the streets. That is the goal of this book. Inspired by Laura Pulido, Laura Barraclough, and Wendy Cheng's *A People's Guide to Los Angeles* (University of California Press, 2012), as well as the *People's Guides* to Boston and San Francisco that have followed it, we offer this guidebook for locals, tourists, students, and everyone who wants to understand where they really are. This book is organized with regional chapters, sorted roughly north to south by community. Within each city, sites are listed alphabetically. After the group of entries for each city, we recommend nearby restaurants as well as other sites of interest for visitors. Readers may explore this book geographically or use the thematic tours in the appendix to

consider environmental politics, Cold War legacies, the politics of housing, LGBTQ spaces, or Orange County's carceral state. The appendix also contains suggestions for teachers using this book, engaging students in cognitive mapping, close reading, popular-culture analysis, and creating additional entries of people's history. While many local histories tend to focus on a few white settlers, this book places attention on the people, especially the subaltern ones who are hierarchically under others, including workers, people of color, youth, and LGBTQ individuals. No single book can represent an entire county, so we have chosen to concentrate on the lesser-known power struggles that have happened here and influenced the landscape that we all share. We could not include everyone, of course. We are mindful that other groups are currently creating more people's history on this landscape that we hope our readers will continue to explore. In Orange County, excavating the diverse past can be frowned upon or actively repressed by those invested in selling Orange County in the style of its booster Anglo settlers from 150 years ago. This book tells the diverse political history beyond the bucolic imagery of orange-crate labels. We hope it will inspire readers to further explore Orange County and reflect on even more sites that could be included in the ordinary, extraordinary landscape here--

**Latino City** Erualdo R. Gonzalez, 2017-02-03 American cities are increasingly turning to revitalization strategies that embrace the ideas of new urbanism and the so-called creative class in an attempt to boost economic growth and prosperity to downtown areas. These efforts stir controversy over residential and commercial gentrification of working class, ethnic areas. Spanning forty years, *Latino City* provides an in-depth case study of the new urbanism, creative class, and transit-oriented models of planning and their implementation in Santa Ana, California, one of the United States' most Mexican communities. It provides an intimate analysis of how revitalization plans re-imagine and alienate a place, and how community-based participation approaches address the needs and aspirations of lower-income Latino urban areas undergoing revitalization. The book provides a critical introduction to the main theoretical debates and key thinkers related to the new urbanism, transit-oriented, and creative class models of urban revitalization. It is the first book to examine contemporary models of choice for revitalization of US cities from the point of view of a Latina/o-majority central city, and thus initiates new lines of analysis and critique of models for Latino inner city neighborhood and downtown revitalization in the current period of socio-economic and cultural change. *Latino City* will appeal to students and scholars in urban planning, urban studies, urban history, urban policy, neighborhood and community development, central city development, urban politics, urban sociology, geography, and ethnic/Latino Studies, as well as practitioners, community organizations, and grassroots leaders immersed in these fields.

Doing Democracy Nancy S. Love, Mark Mattern, 2013-12-01 Demonstrates how activists and others use art and popular culture to strive for a more democratic future. *Doing Democracy* examines the potential of the arts and popular culture to extend and deepen the experience of democracy. Its contributors address the use of photography, cartooning, memorials, monuments, poetry, literature, music, theater, festivals, and parades to open political spaces, awaken critical consciousness, engage marginalized groups in political activism, and create new, more democratic societies. This volume

demonstrates how ordinary people use the creative and visionary capacity of the arts and popular culture to shape alternative futures. It is unique in its insistence that democratic theorists and activists should acknowledge and employ affective as well as rational faculties in the ongoing struggle for democracy. □ Nancy S. Love and Mark Mattern have collected a first-rate set of studies that illuminate the intersection between art and politics in the contemporary era. The text demonstrates how activist art and cultural politics can promote democratic politics and how democracy is enriched and enlivened by activist art projects. This book should interest everyone concerned with the fate of art and democracy in the contemporary era and how they can help nourish each other. □ □ Douglas Kellner, author of *Media Spectacle and Insurrection*, 2011: From the Arab Uprisings to Occupy Everywhere

Ask a Mexican Gustavo Arellano, 2008-04-22 DEAR MEXICAN: WHAT IS ASK A MEXICAN ? Questions and answers about our spiciest Americans. I explore the clichés of lowriders, busboys, and housekeepers; drunks and scoundrels; heroes and celebrities; and most important, millions upon millions of law-abiding, patriotic American citizens and their illegal-immigrant cousins who represent some \$600 billion in economic power. WHY SHOULD I READ ASK A MEXICAN ? At 37 million strong (or 13 percent of the U.S. population), Latinos have become America's largest minority -- and beaners make up some two-thirds of that number. I confront the bogeymen of racism, xenophobia, and ignorance prompted by such demographic changes through answering questions put to me by readers of my Ask a Mexican column in California's OC Weekly. I challenge you to find a more entertaining way to immerse yourself in Mexican culture that doesn't involve a taco-and-enchilada combo. OKAY, WHY DO MEXICANS PARK THEIR CARS ON THE FRONT LAWN? Where do you want us to park them? The garage we rent out to a family of five? The backyard where we put up our recently immigrated cousins in tool-shack-cum-homes? The street with the red curbs recently approved by city planners? The driveway covered with construction materials for the latest expansion of la casa? The nearby school parking lot frequented by cholos on the prowl for a new radio? The lawn is the only spot Mexicans can park their cars without fear of break-ins, drunken crashes, or an unfortunate keying. Besides, what do you think protects us from drive-bys? The cops?

**Vietnamese in Orange County** Thuy Vo Dang, Linda Trinh Vo, Tram Le, 2015-03-09 Vietnamese Americans have transformed the social, cultural, economic, and political life of Orange County, California. Previously, there were Vietnamese international students, international or war brides, or military personnel living in the United States, but the majority arrived as refugees and immigrants after the end of the Vietnam War in 1975. Although they are lumped together as refugees, Vietnamese Americans are diverse in terms of their class, ethnic, regional, religious, linguistic, and ideological backgrounds. Their migration path varied, and they often struggled with resettling in a new homeland and rebuilding their lives. They are dispersed throughout the country, but many are concentrated in central Orange County, where three cities--Westminster, Garden Grove, and Santa Ana--have Welcome to Little Saigon signs. They constitute the largest population of Vietnamese outside of Vietnam and have created flourishing residential neighborhoods and bustling commercial centers and contribute to the political and cultural life of the region. This book captures snapshots of Vietnamese life in Orange

County over the span of 40 years and shows a dynamic, vibrant community that is revitalizing the region.

**Eating NAFTA** Alyshia Gálvez, 2018-09-18 Mexican cuisine has emerged as a paradox of globalization. Food enthusiasts throughout the world celebrate the humble taco at the same time that Mexicans are eating fewer tortillas and more processed food. Today Mexico is experiencing an epidemic of diet-related chronic illness. The precipitous rise of obesity and diabetes—attributed to changes in the Mexican diet—has resulted in a public health emergency. In her gripping new book, Alyshia Gálvez exposes how changes in policy following NAFTA have fundamentally altered one of the most basic elements of life in Mexico—sustenance. Mexicans are faced with a food system that favors food security over subsistence agriculture, development over sustainability, market participation over social welfare, and ideologies of self-care over public health. Trade agreements negotiated to improve lives have resulted in unintended consequences for people's everyday lives.

**Eating Asian America** Robert Ji-Song Ku, Martin F Manalansan, Anita Mannur, 2013-09-23 Examines the ways our conceptions of Asian American food have been shaped Chop suey. Sushi. Curry. Adobo. Kimchi. The deep associations Asians in the United States have with food have become ingrained in the American popular imagination. So much so that contentious notions of ethnic authenticity and authority are marked by and argued around images and ideas of food. *Eating Asian America: A Food Studies Reader* collects burgeoning new scholarship in Asian American Studies that centers the study of foodways and culinary practices in our understanding of the racialized underpinnings of Asian Americanness. It does so by bringing together twenty scholars from across the disciplinary spectrum to inaugurate a new turn in food studies: the refusal to yield to a superficial multiculturalism that naively celebrates difference and reconciliation through the pleasures of food and eating. By focusing on multi-sited struggles across various spaces and times, the contributors to this anthology bring into focus the potent forces of class, racial, ethnic, sexual and gender inequalities that pervade and persist in the production of Asian American culinary and alimentary practices, ideas, and images. This is the first collection to consider the fraught itineraries of Asian American immigrant histories and how they are inscribed in the production and dissemination of ideas about Asian American foodways.

America's Changing Neighborhoods [3 volumes] Reed Ueda, 2017-09-21 A unique panoramic survey of ethnic groups throughout the United States that explores the diverse communities in every region, state, and big city. Race, ethnicity, and immigrants' lives and identity: these are all key topics that Americans need to study in order to fully understand U.S. culture, society, politics, economics, and history. Learning about place through our own historical and contemporary neighborhoods is an ideal way to better grasp the important role of race and ethnicity in the United States. This reference work comprehensively covers both historical and contemporary ethnic and immigrant neighborhoods through A–Z entries that explore the places and people in every major U.S. region and neighborhood. *America's Changing Neighborhoods: An Exploration of Diversity* uniquely combines the history of

ethnic groups with the history of communities, offering an interdisciplinary examination of the nation's makeup. It gives readers perspective and insight into ethnicity and race based on the geography of enclaves across the nation, in regions and in specific cities or localized areas within a city. Among the entries are nearly 200 neighborhood biographies that provide histories of local communities and their ethnic groups. Images, sidebars, cross-references at the end of each entry, and cross-indexing of entries serve readers conducting preliminary as well as in-depth research. The book's state-by-state entries also offer population data, and an appendix of ancestry statistics from the U.S. Census Bureau details ethnic and racial diversity.

**Mexican American Baseball in Orange County** Richard A. Santillan, Susan C. Luévano, Luis F. Fernandez, Angelina F. Veyna, 2013-04-08 Images of Baseball: Mexican American Baseball in Orange County celebrates the once-vibrant culture of baseball and softball teams from Placentia, Anaheim, Santa Ana, Westminster, San Juan Capistrano, and nearby towns. Baseball allowed men and women to showcase their athletic and leadership skills, engaged family members, and enabled community members to develop social and political networks. Players from the barrios and colonias of La Fábrica, Campo Colorado, La Jolla, Logan, Cypress Street, El Modena, and La Colonia Independencia, among others, affirmed their Mexican and American identities through their sport. Such legendary teams as the Placentia Merchants, the Juveniles of La Habra, the Lionettes de Orange, the Toreros of Westminster, and the Road Kings of Colonia 17th made weekends memorable. Players and their families helped create the economic backbone and wealth evident in Orange County today. This book sheds light on powerful images and stories of the Mexican American community.

**The Return of the Moguls** Dan Kennedy, 2018-03-06 The Return of the Moguls chronicles an important story in the making, one that will affect more than just the newspaper business—it has the power to change democracy as we know it. Over the course of a generation, the story of the daily newspaper has been an unchecked slide from record profitability and readership to plummeting profits, increasing irrelevance, and inevitable obsolescence. The forces killing major dailies, alternative weeklies, and small-town shoppers are well understood—or seem obvious in hindsight, at least—and the catalog of publications that have gone under reads like a who's who of American journalism. During the past half-century, old-style press barons gave way to a cabal of corporate interests unable or unwilling to invest in the future

even as technological change was destroying their core business. The Taylor family sold the Boston Globe to the New York Times Company in 1993 for a cool \$1.1 billion. Twenty years later, the Times Company resold it for just \$70 million. The unexpected twist to the story, however, is not what they sold it for but who they sold it to: John Henry, the principal owner of the Boston Red Sox. A billionaire who made his money in the world of high finance, Henry inspired optimism in Boston because of his track record as a public-spirited business executive—and because his deep pockets seemed to ensure that the shrunken newspaper would not be subjected to further downsizing. In just a few days, the sale of the Globe was overtaken by much bigger news: Jeff Bezos, the founder of Amazon and one of the world's richest people, had reached a deal to buy the Washington Post for \$250 million. Henry's ascension at the Globe sparked hope. Bezos's purchase seemed to inspire nothing short of ecstasy, as numerous observers expressed the belief that his lofty status as one of our leading digital visionaries could help him solve the daunting financial problems facing the newspaper business. Though Bezos and Henry are the two most prominent individuals to enter the newspaper business, a third preceded them. Aaron Kushner, a greeting-card executive, acquired California's Orange County Register in July 2012 and then pursued an audacious agenda, expanding coverage and hiring journalists in an era when nearly all other newspaper owners were trying to avoid cutting both. The newspaper business is at a perilous crossroads. This essential book explains why, and how today's new crop of media moguls might help it to survive.

**'Home-grown' Jihad: Understanding Islamist Terrorism In The Us And Uk** Samuel John Mullins, 2015-11-09 Based on seven years of original research, this book contains one of the most detailed and comprehensive assessments of 'home-grown' Islamist terrorism (HGIT) in the US and UK to date. Beginning with an examination of the development of militant networks during the 1980s and 1990s, it traces the origins of HGIT and highlights the significance of these early experiences in different countries for shaping the future trajectory of the threat. The book also examines the range of motivations for violent jihad in the West, suggesting a composite theoretical model that specifies three 'necessary' conditions for involvement and challenges popular explanations for differential rates of terrorism which emphasize socioeconomic factors. The book analyzes the background and operational activities of nearly 800 American and British jihadis who mobilized between 1980 and September 11th 2013, including factors such as mental health, education, processes of radicalization, leadership, use of the Internet, sources of funding and links to foreign terrorist organizations. This

analysis is then complemented with an examination of how these individuals have been dealt with by the respective security services. From the first proponents of 'global jihad' to the recent wave of volunteers inspired by events in the Middle East, this book provides an extensive yet lucid analysis of one of the greatest security concerns facing America and Great Britain today. 'Home-Grown' Jihad challenges existing studies on a number of key issues and expands our understanding of HGIT. It will be invaluable to academics, practitioners and policymakers alike.

Race and Retail Mia Bay, Ann Fabian, 2015-08-04 Race has long shaped shopping experiences for many Americans. Retail exchanges and establishments have made headlines as flashpoints for conflict not only between blacks and whites, but also between whites, Mexicans, Asian Americans, and a wide variety of other ethnic groups, who have at times found themselves unwelcome at white-owned businesses. Race and Retail documents the extent to which retail establishments, both past and present, have often catered to specific ethnic and racial groups. Using an interdisciplinary approach, the original essays collected here explore selling and buying practices of nonwhite populations around the world and the barriers that shape these habits, such as racial discrimination, food deserts, and gentrification. The contributors highlight more contemporary issues by raising questions about how race informs business owners' ideas about consumer demand, resulting in substandard quality and higher prices for minorities than in predominantly white neighborhoods. In a wide-ranging exploration of the subject, they also address revitalization and gentrification in South Korean and Latino neighborhoods in California, Arab and Turkish coffeehouses and hookah lounges in South Paterson, New Jersey, and tourist capoeira consumption in Brazil. Race and Retail illuminates the complex play of forces at work in racialized retail markets and the everyday impact of those forces on minority consumers. The essays demonstrate how past practice remains in force in subtle and not-so-subtle ways.
