Oliver Decker

Notes on the Occupation Éric Hazan,2007 Almost 40 years after the Israeli military occupation of Palestine, scenes from the West Bank remain rare and fragmented. Despite its prominence in the world news, suprisingly little is known about daily life in this troubled land. Here is a rare portrait of a population living with the reality of war and the dream of peace.

A Bitter Living Sheilagh C. Ogilvie,2003 Women were key to the changes in the European economy between 1600 and 1800 that led the way to industrialization. But we still know little about this female 'shadow economy' - and nothing quantitative or systematic. This text aims to illuminate women's contribution to the pre-industrial economy.

Commodified Bodies Oliver Decker,2014-04-24 Commodified Bodies examines the social practice of organ transplantation and trafficking and scrutinises the increasingly neoliberal tendencies in the medical system. It analyses phenomena such as the denomination of human body parts as raw materials and commodities, or the arguments used by the proponents for a free market solution. Moreover, it argues that modern medicine is still linked with its religious roots. The commodification of body parts is seen not as an imperialistic act of the market, but as the end of a historical process as the notion of fetishism links the market with the body. Marx's concept of commodity fetishism and Sigmund Freud's theory of the perverted use of objects are modified and adapted to the reconstruction of the joint beginnings of market and medicine.
