The Sheer Curtain Maria Elena Garza, 2016-06-17 This short novel is dedicated to my wonderful family: my children, Cathy, Fernando, Phillip; my grandchildren Jozette, Alaena, Phoenix; and my husband, Max. The novel is especially written for an audience of young readers or adults who choose to have a child's imagination. It was such fun for me to develop the characters and scenes of this mystery. It all starts with a woman's silhouette that appears on the third-floor window of this old Victorian mansion. No one in the town of Sneila has ever seen her except when she stands behind the sheer curtain. The children of the town look forward to Halloween every year. The children together walk down the dirt road to the mansion that sits at the edge of town behind enormously tall trees and a black iron fence. Every Halloween, the children know that, in front of the mansion outside the gate, there will be a mysterious white cauldron filled with magic candies for each child. The candies are in baggies with each child's name written on the front of the baggie. How does she know every child's name? Where does this candy come from? The children agree that the candy is very different, like it's out of this world. These are only two of the mysteries that exist in the town of Sneila. Much mystery lives in the town of Sneila. The number of people in this town never changes. When one person dies, another is born. People who die are not buried. The number 8 appears throughout the town. Sometimes you have to add two digits to find the 8. The infinity symbol appears throughout the novel. Magic turtles surface and communicate with the two main characters, Samantha and Victoria. Flickering lights, hidden doors, basement, baskets, spaceships, magic turtles, mysterious bubbles, candles, and fairies create a magical kingdom. Wrinkles and gray hair are witnesses to times past. The surprise ending is sure to give you goose bumps! Other books from the author include the following: Sleepy Tears Laughing Tears Sleepy Tears Miss You Tears Gods Love is Real (poetry book) Friends and Angels (poetry book) The Secret Meeting of the Sorcerers

Brodsky Translating Brodsky: Poetry in Self-Translation Alexandra Berlina, 2014-04-24 Winner of the Anna Balakian Prize 2016 Is poetry lost in translation, or is it perhaps the other way around? Is it found? Gained? Won? What happens when a poet decides to give his favorite Russian poems a new life in English? Are the new texts shadows, twins or doppelgangers of their originals-or are they something completely different? Does the poet resurrect himself from the death of the author by reinterpreting his own work in another language, or does he turn into a monster: a bilingual, bicultural centaur? Alexandra Berlina, herself a poetry translator and a 2012 Barnstone Translation Prize laureate, addresses these questions in this new study of Joseph Brodsky, whose Nobel-prize-winning work has never yet been

discussed from this perspective.

Sea Sick Alanna Mitchell, 2011-05-18 All life — whether on land or in the sea — depends on the oceans for two things: • Oxygen. Most of Earth's oxygen is produced by phytoplankton in the sea. These humble, one-celled organisms, rather than the spectacular rain forests, are the true lungs of the planet. • Climate control. Our climate is regulated by the ocean's currents, winds, and water-cycle activity. *Sea Sick* is the first book to examine the current state of the world's oceans — the great unexamined ecological crisis of the planet — and the fact that we are altering everything about them; temperature, salinity, acidity, ice cover, volume, circulation, and, of course, the life within them. Alanna Mitchell joins the crews of leading scientists in nine of the global ocean's hotspots to see firsthand what is really happening around the world. Whether it's the impact of coral reef bleaching, the puzzle of the oxygen-less dead zones such as the one in the Gulf of Mexico, or the shocking implications of the changing Ph balance of the sea, Mitchell explains the science behind the story to create an engaging, accessible yet authoritative account.

Popular Science, 1966-05 *Popular Science* gives our readers the information and tools to improve their technology and their world. The core belief that *Popular Science* and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Bering Sea Strong Laura Hartema, 2018-03-13 Full of unusual characters, mischief, camaraderie, and testosterone-fueled man gossip. *Bering Sea Strong* is a tale of adventure and self-discovery. The story portrays a young woman on a solo journey, pushed to the edge of the earth and further from the weight of family—marked by divorce, death, disability, and depression—and a life she desires on land. Locked at sea for ninety days as the lone female trying to tuck in tight alongside twenty-five rough-and-tumble commercial fishermen in Alaska, Laura Hartema offers a rare glimpse into the intertwining worlds of a fisheries observer and the crew she works beside. She graphically illustrates the challenges of daily life and relationships in a way few have seen before. Her story provides an unprecedented portrait of the bizarre and entertaining human dynamics aboard an at-sea catcher-processor vessel, where men battle dangerous working conditions, loneliness, and boredom while rivaling for the attention of the only woman. Between trough and crest, Laura ponders the trauma and tragedies of her Midwest childhood as her capabilities and resilience are regularly tested. She is often left deciding when to “blow it off” and when to “blow a gasket.” In the end, the tumultuous Bering Sea is where she finds the strength to overcome the wounds of her past, embrace life's uncertainty, and steam ahead into the uncharted waters of her future. *Bering Sea Strong* demonstrates one woman's determination to overcome obstacles in pursuit of a satisfying career and a better life.
