**Curating Under Pressure** Janet Marstine,Svetlana Mintcheva,2020-07-14 Curating Under Pressure breaks the silence surrounding curatorial self-censorship and shows that it is both endemic to the practice and ubiquitous. Contributors map the diverse forms such self-censorship takes and offer creative strategies for negotiating curatorial integrity. This is the first book to look at pressures to self-censor and the curatorial responses to these pressures from a wide range of international perspectives. The book offers examples of the many creative strategies that curators deploy to negotiate pressures to self-censor and gives evidence of curators' political acumen, ethical sagacity and resilience over the long term. It also challenges the assumption that self-censorship is something to be avoided at all costs and suggests that a decision to self-censor may sometimes be politically and ethically imperative. Curating Under Pressure serves as a corrective to the assumption that censorship pressures render practitioners impotent. It demonstrates that curatorial practice under pressure offers inspiring models of agency, ingenuity and empowerment. Curating Under Pressure is a highly original and intellectually ambitious volume and as such will be of great interest to students and academics in the areas of museum studies, curatorial and gallery studies, art history, studio art and arts administration. The book will also be an essential tool for museum practitioners.

**Tutor at Your Side for the Canon EOS Digital Rebel XTi** John D. Miller,2007 The Tutor at Your Side manual addresses the user's needs at each stage of their development. The Startup section gives Camera Setup and Care. The next sections provide continuous guidance through 3 learning phases: 1. The Orientation section describes the control and menu features with illustrated locations and concise descriptions of function, settings, operation and references to detail descriptions. 2. The Operation section gives the user a choice of 4 complete and independent starting points: There are 2 Basic subsections, Quick and Detailed, for Point and Shoot operation and Creative subsections, Quick and Detailed, for the Complete Control mode of operation. Each Detailed subsection includes the corresponding Quick subsection to eliminate looking back. Each subsection is sequenced in Photo Session order: Displays, Session Prep/Field Setup, Photo Features (Shooting Mode, Composition, Focus, Drive, Exposure and Shutter), Evaluation, Correction and Session Finish. Each subsection includes reset reminders at the individual features and at the Session Finish. Custom Function setups are given just before the first possible use and usage reminders are given thereafter (Creative Detailed section only). The Effective Use section continues the user guidance beyond the mechanics and the Reference section covers Problems, Playback and Printing. The manual has laminated covers for durability and a coil binding so it will stay open.

**Sustainable Food Innovation** Luca Serventi,2023-03-16 This text offers a holistic approach to the two topics of the highest interest in the current and future food industry: sustainability and nutrition. The current knowledge is narrow and specific to individual topics focusing on either one nutrient or one discipline. Food is part of a wide circle of disciplines: nutrition, technology, sensory, environmental aspects, psychology, economy, culture and society. In the recent years, the sales of innovative foods such as meatless burgers, allergen-free products and personalized nutrition have skyrocketed. Sustainable Food Innovation presents the big picture on each nutrient: industrial and natural sources (ingredients, food products), consumer acceptability (price, sensory quality) and nutritional properties (quantity

and quality) with each chapter focusing on a specific essential nutrient. Further chapters illustrate the role of other elements of interest such as bioactive. In addition, experimental data is added to enrich the book. Online discussions on current food trends are analyzed and presented to the reader in the effort to understand consumers' psychology. This will be the first publication to combine literature review and research data and the first to offer a comprehensive discussion on sustainable food innovation. The ultimate goal is to educate consumers and experts, providing technical and socioeconomic knowledge in a multidisciplinary context. Ultimately, informed technologists will develop healthier, sustainable food products and informed consumers will make informed decisions on nutrition and food choices.

Moneyland Michael Botur, 2022-06-14 12 friends. 12 million bucks. 12 months. No food. No adults. No backing out. It's 2037, and humans worldwide are losing their jobs to artificial intelligence. Everyone needs money to survive, including Eden Shepherd, who agrees to spend a year inside a biodome experiment with 11 other kids from her high school to make money for her family. They are each paid one million dollars in cash to stay inside the dome for 365 days. The kids plan to party away the year in Lockdownland and it starts with a bang. The problem is that there's no supermarket, no electricity, and supplies are limited. There is no panic button they could use to escape. As the group becomes more and more divided, Eden must tap into her inner strength and sharp wit. But does she have what it takes to protect herself and survive?

**A Sea in Flames** Carl Safina, 2011-04-19 Carl Safina has been hailed as one of the top 100 conservations of the 20th century (Audubon Magazine) and A Sea in Flames is his blistering account of the months-long manmade disaster that tormented a region and mesmerized the nation. Traveling across the Gulf to make sense of an ever-changing story and its often-nonsensical twists, Safina expertly deconstructs the series of calamitous misjudgments that caused the Deepwater Horizon blowout, zeroes in on BP's misstatements, evasions, and denials, reassesses his own reaction to the government's crisis handling, and reviews the consequences of the leak—and what he considers the real problems, which the press largely overlooked. Safina takes us deep inside the faulty thinking that caused the lethal explosion. We join him on aerial surveys across an oil-coated sea. We confront pelicans and other wildlife whose blue universe fades to black. Safina skewers the excuses and the silly jargon—like “junk shot” and “top kill”—that made the tragedy feel like a comedy of horrors—and highlighted Big Oil's appalling lack of preparedness for an event that was inevitable. Based on extensive research and interviews with fishermen, coastal residents, biologists, and government officials, A Sea In Flames has some surprising answers on whether it was “Obama's Katrina,” whether the Coast Guard was as inept in its response as BP was misleading, and whether this worst unintended release of oil in history was really America's worst ecological disaster. Impassioned, moving, and even sharply funny, A Sea in Flames is ultimately an indictment of America's main addiction. Safina writes: “In the end, this is a chronicle of a summer of pain—and hope. Hope that the full potential of this catastrophe would not materialize, hope that the harm done would heal faster than feared, and hope that even if we didn't suffer the absolutely worst—we'd still learn the big lesson here. We may have gotten two out of three. That's not good enough. Because: there'll be a next time.”

THE AUTHORS OF THE BESTSELLING A DINNER A DAY SHOW YOU HOW TO PREPARE DELICIOUS, FAMILY-PERFECTED MEALS EVERY MONDAY THROUGH FRIDAY FOR AN ENTIRE YEAR. If you're the cook in your household and crave comfort food that will bring your family back to the table, you need The Accidental Gourmet: Weeknights. Written by a gourmet and an I-hate-to-cook, this must-have volume translates Grandmother's cooking into today's lifestyle and gives new meaning to the term fast food, as it brings variety, great taste, and fun back to home-cooked meals. In a unique approach to taking control of the kitchen, Sally Sondheim and Suzannah Sloan have created 260 brand-new menus -- including entrées, side dishes, and desserts -- that will allow time-pressed cooks to put together readily available ingredients with style and speed. There's no guesswork involved: Each menu is presented to you complete on two facing pages. The recipes are accompanied by organized shopping lists that make once-a-week marketing a snap, a rundown of necessary cooking equipment, and an indispensable preparation schedule that gets everything to the table on time. Each menu feeds an average family of four, but can easily be expanded or reduced to fit your needs, and the dishes highlight the freshest foods of the season, judiciously augmented by timesaving convenience foods. Now your family can enjoy such mouthwatering combinations as hearty chicken soup with carrots, beans, potatoes, and spinach, served with maple syrup muffins and strawberry-topped sherbet over melon; or a sausage, egg, and vegetable bake, served with spiced peaches, rosemary buns, and angel food cake with blueberry sauce. How about pork chops simmered with lemon, brown sugar, and honey, served with egg noodles tossed with butter and poppy seeds, sautéed snow peas and asparagus, and a butterscotch pudding layered with shortbread cookies? All the thinking, all the planning, all the organization, has been done for you. All that's left for you to do is to take the credit! Whether you're a single parent, the cooking half of a two-career family, or an overscheduled stay-at-home mom, The Accidental Gourmet: Weeknights is the one book you'll want to use every day.

The Glassmakers, Revisited Jack K. Paquette,2010-05-17 Its corporate name is hardly a household word, yet Owens-Illinois, Inc., located near a small town in northwestern Ohio, is the world's largest manufacturer of the glass bottles and jars used to provide food, beverages and medicines every day to millions of people around the globe. Unlike most corporate histories, The Glassmakers, Revisited, is a page turner....a book filled with illuminating facts and interesting anecdotes about the company that became a global giant due to the mechanical genius of Michael J. Owens, who, in 1903, invented a machine to blow bottles, automatically, and Edward D. Libbey, the astute glassmaker who bankrolled him.
