Collected Plays (OIP) Girish Karnad, 2020-09-10 The tale of a mythic king's aggression against his offspring, and his desperation to escape the curse of old age laid upon him in the prime of life. The anxieties that torment a middle-class family as their daughter awaits the arrival of the 'suitable boy' from abroad whom she has never met. The morphing of the city of Bangalore, whose founding myth celebrates its human ambience, into India's 'Silicon Valley' where strangers are thrown together, get entangled, and are violently pulled apart. This volume contains the very first play as well as two later ones by Girish Karnad, one of India's pre-eminent playwrights. The three-volume set of Karnad's *Collected Plays* brings together English versions of his important works. Each volume contains an extensive introduction by theatre scholar Aparna Bhargava Dharwadker, Professor of English and Interdisciplinary Theatre Studies, University of Wisconsin-Madison. The introductions trace the literary and theatrical evolution of Karnad's work over six decades and position it in the larger context of modern Indian drama. In addition, they comment on Karnad's place as author and translator in a multilingual performance culture and the relation of his playwriting to his work in the popular media. Each of these volumes serves as a collector's item, making Karnad's works accessible to theatre lovers worldwide.

Ancient Mesopotamia A. Leo Oppenheim, 2013-01-31 This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria.—Edward B. Garside, *New York Times Book Review* Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written.—Leonard Cottrell, *Book*

Week Leo Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research.—Samuel Noah Kramer, Archaeology A. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the Assyrian Dictionary of the Oriental Institute and John A. Wilson Professor of Oriental Studies at the University of Chicago.

Leopoldstadt Tom Stoppard, 2020-08-25 **Winner of the Tony Award for Best Play** Finally making its Broadway debut in a limited engagement run, Tom Stoppard's humane and heartbreaking Olivier Award-winning play of love, family, and endurance At the beginning of the twentieth century, Leopoldstadt was the old, crowded Jewish quarter of Vienna, a city humming with artistic and intellectual excitement. Stoppard's epic yet intimate drama centers on Hermann Merz, a manufacturer and baptized Jew married to Catholic Gretl, whose extended family convene at their fashionable apartment on Christmas Day in 1899. Yet by the time the play closes, Austria has passed through the convulsions of war, revolution, impoverishment, annexation by Nazi Germany, and the Holocaust, which stole the lives of 65,000 Austrian Jews alone. From one of today's most acclaimed playwrights, Leopoldstadt is a human and heartbreaking drama of literary brilliance, historical verisimilitude, and powerful emotion.

It gives wide international coverage of names, addresses and URLs of major libraries and other important organizations in the information sector, of professional associations, fellowships, networks, government bodies, projects and programmes, consortia and institutions, influential reports and other key publications. Entries are included on classification and file coding, on records management and archiving and on both the latest and the most enduring aspects of library and information skills.
