**Wood-fired Ceramics** Coll Minogue, Robert Sanderson, 2000-03-08 This book describes the development of the main types of wood-fired kilns used by today's potters.

**Kintsugi** Bonnie Kemske, 2021-02-18 A broken pot is made whole again, and within its golden repair we see a world of meaning. Kintsugi is the art of embracing imperfection. In Western cultures, the aim of repair has been to make the broken item 'as good as new'. Kintsugi on the other hand, is a Japanese art that leaves an obvious repair – one that may appear fragile, but which actually makes the restored ceramic piece stronger, more beautiful, and more valuable than before. Leaving clear, bold, visible lines with the appearance of solid gold, it never hides the story of the object's damage. Kintsugi traces memory, bringing together the moment of destruction and the gold seams of repair through finely-honed skills and painstaking, time-consuming labour in the creation of a new pot from the old. There is a story to be told with every crack, every chip. This story inevitably leads to kintsugi's greatest strength. an intimate metaphoric narrative of loss and recovery, breakage and restoration, tragedy and the ability to overcome it. A kintsugi repair speaks of individuality and uniqueness, fortitude and resilience, and the beauty to be found in survival. Kintsugi leads us to a respectful and appreciative acceptance of hardship and ageing. Author Bonnie Kemske explores kintsugi's metaphorical power as well as exploring the technical and practical aspects of the art, meeting with artists and ceramists in Japan and the US to discuss their personal connection to this intricate technique. With the inclusion of diary entries, personal stories, and in-depth exploration of its origin and symbolism, this book shows kintsugi's metaphoric strength as well as its striking aesthetic, making it a unique and powerful art form that can touch our lives.

*About This Life* Barry López,2009-08-04 In *About This Life*. Barry Lopez takes us on a literal and figurative journey across the terrain of autobiography, assembling essays of wisdom and insight. Here is far flung travel (the beauty of remote Hokkaido Island, the over-explored Galapagos, enigmatic Bonaire); a

naturalist's contention (Why does our society inevitably strip political power from people with intimate knowledge of the land - small-scale farmers. Native Americans, Eskimos, cowboys?); and pure adventure (a dizzying series of around-the-world journeys with air freight - everything from penguins to pianos). And here, too, are seven exquisite memory pieces - hauntingly lyrical yet unsentimental recollections that represent Lopez's most personal work to date, and which will be read as classics of the personal essay for years to come.

*From Early Vedanta to Kashmir Shaivism* Natalia Isayeva,1995-07-01 This book deals with one of the most interesting periods in the development of Indian religious and philosophical traditions. Starting with the teaching of the proto-vedantist philosopher Gaudapada, and then analyzing the ideas of his famous contemporary, the grammarian Bhartrhari, the author suggests an entirely new approach to the whole history of vedanta. Gaudapada and Bhartrhari are presented as founders of an independent trend within Indian orthodox philosophy, a trend that culminates later in the theistic tenets of Kashmir Shaivism.

Isayeva shows that, in contrast to SAankara, early vedantist philosophers regarded the higher Brahman as a kind of continuous reverberation of a peculiar phonic energy that was ever producing the same constantly renewable structures and patterns of the universe. This idea found its continuation in the metaphysical and aesthetical concepts of Abhinavagupta, where the ultimate ontological reality is manifested through the rhythmical outbursts of God's creative power.

**Backyard Kilns** Steve Mills,2015-04-21 Backyard Kilns is a fully illustrated E-Book on Kiln Building. The Backyard Kiln, based on the brick kiln, has been tested in several locations, and has proved very efficient indeed, reaching very high temperatures, and capable of being fired both quickly and very slowly, and leaving a virtually ash-free firebox at the end! For the potter who likes to plough his or her own furrow, and who, although welcoming help from friends with firings, prefers not to have to rely on a team in order to get their work finished.
