The Lazy Genius Way Kendra Adachi,2021-08-17 NEW YORK TIMES BESTSELLER • Being a Lazy Genius isn't about doing more or doing less. It's about doing what matters to you. "I could not be more excited about this book."—Jenna Fischer, actor and cohost of the Office Ladies podcast The chorus of "shoulds" is loud. You should enjoy the moment, dream big, have it all, get up before the sun, track your water consumption, go on date nights, and be the best. Or maybe you should ignore what people think, live on dry shampoo, be a negligent PTA mom, have a dirty house, and claim your hot mess like a badge of honor. It's so easy to feel overwhelmed by the mixed messages of

what it means to live well. Kendra Adachi, the creator of the Lazy Genius movement, invites you to live well by your own definition and equips you to be a genius about what matters and lazy about what doesn't. Everything from your morning routine to napping without guilt falls into place with Kendra's thirteen Lazy Genius principles, including: • Decide once • Start small • Ask the Magic Question • Go in the right order • Schedule rest Discover a better way to approach your relationships, work, and piles of mail. Be who you are without the complication of everyone else's "shoulds." Do what matters, skip the rest, and be a person again.

Supporting Transfer Student Success Peggy L. Nuhn,Karen F. Kaufmann,2020-11-06 This research-based book with practical applications teaches academic librarians to support their transfer students effectively at both universities and community colleges, even when transfer students' information literacy needs differ from those of other students. Colleges and universities across the United States serve a large and growing population of transfer students. Current estimates suggest that more than one third of college students transfer from one institution of higher education to another at least once. At some institutions, transfer students compose up to fifty to sixty percent of the new incoming class. Academic librarians' understanding of the demographics and potential needs of transfer students is essential to supporting their success and mitigating transfer shock. Just as public libraries often bridge gaps between individuals and services, academic libraries can proactively support the often unique needs of transfer students by spearheading textbook

affordability initiatives, developing innovative programming, and making appropriate referrals to non-library student services. In this practical guide to supporting transfer students, authors Peggy L. Nuhn and Karen F. Kaufmann teach academic librarians how to optimize information literacy instruction, support research, help reduce stress, and connect the library to virtual students. They emphasize the importance of establishing partnerships with feeder institutions and other campus departments to best support transfer student success.

The SAGE Handbook of the History, Philosophy and Sociology of International Relations Andreas Gofas, Inanna Hamati-Ataya, Nicholas Onuf, 2018-07-19 The SAGE Handbook of the History, Philosophy and Sociology of International Relations offers a panoramic overview of the broad field of International Relations by integrating three distinct but interrelated foci. It retraces the historical development of International Relations (IR) as a professional field of study, explores the philosophical foundations of IR, and interrogates the sociological mechanisms through which scholarship is produced and the field is structured. Comprising 38 chapters from both established scholars and

an emerging generation of innovative meta-theorists and theoretically driven empiricists, the handbook fosters discussion of the field from the inside out, forcing us to come to grips with the widely held perception that IR is experiencing an existential crisis quite unlike anything else in its hundred-year history. This timely and innovative reference volume reflects on situated scholarly practices in a way that projects our collective thinking into the future. PART ONE: THE INWARD GAZE: INTRODUCTORY REFLECTIONS PART TWO: IMAGINING THE INTERNATIONAL, ACKNOWLEDGING THE GLOBAL PART THREE: THE SEARCH FOR (AN) IDENTITY PART FOUR: INTERNATIONAL RELATIONS AS A PROFESSION PART FIVE: LOOKING AHEAD: THE FUTURE OF META-ANALYSIS

Investing in E-Health: People, Knowledge and Technology for a Healthy Future H. Grain,F. Martin-Sanchez,L.K. Schaper,2014-08-14
As healthcare organisations and governments look to information technology to capitalise and enhance healthcare, the need for effective investment to update existing technology and provide cost-effective infrastructure for the future becomes clear. The issues of defining success and understanding opportunities are crucial to planning optimum investment and the best use of scarce resources. This book presents papers from the Australian Health Informatics Conference (HIC 2014), held in Melbourne, Australia, in August 2014. With the theme of investing in e-health: people, knowledge and technology for a healthy future, the papers delivered at the conference and included here address the issues of building a future-focused, scalable and adaptable infrastructure and of training the healthcare workforce necessary to support it. Subjects covered include: user participation in ICT development for older adults; interactive patient websites;

application areas of multi-user virtual environments in the healthcare context; as well as governance, training and assessing the quality of data in public health information systems. The book will be of interest to all those policy makers and practitioners involved in the planning and implementation of information technology projects as part of the healthcare system.
