Electronic Invoicing in Latin America Alberto Daniel Barreix, Raul Zambrano, Marcelo Pablo Costa, Álvaro Antônio da Silva Bahia, Eudaldo Almeida de Jesus, Vinícius Pimentel de Freitas, Fernando Barraza, Nicolás Oliva, Mauro Andino, Alejandro Rasteletti, Carlos Drago, Gisella Cuentas, Maribel Paredes, Javier Pazos, Luis Canales, Rosana Campo, Leticia Castiñeira, Gustavo González, Juan Francisco Redondo, Aloisio Flávio Ferreira de Almeida, Karla Hernández, Juan Robalino, José Ramírez, João Pedro Anjos Andrade, Noémia Rodrigues Gonçalves, Servicio de Administración Tributaria, 2018-03-21 The electronic invoicing (EI) of taxes is one of Latin America's contributions to international taxation in support of the fight against evasion, global efforts towards tax transparency, and the digitization of tax administrations (TAs). Initially, EI was conceived as an instrument of documentary control over the invoicing process, so as to avert both the omission of sales and the inclusion of false purchases. The original idea was extended to other areas of tax control, such as payroll, goods in transit, and new services such as factoring. To some extent, EI can be regarded as the start of the process of digitizing the TAs in the broad sense. This publication addresses the pioneering experience of EI in Latin America, from its implementation to its extensions and impact on tax collection.

Digitalization and Tax Compliance Spillovers: Evidence from a VAT E-Invoicing Reform in Peru Mr. Matthieu Bellon, Jillie Chang, Ms. Era Dabla-Norris, Salma Khalid, Juan Carlos Paliza, Pilar Villena, 2022-03-18 Our study uses administrative data on firm-to-firm transactions and quasi-experimental variation in the rollout of electronic invoicing reforms in Peru to study the diffusion of e-invoicing through firm networks and its effect on tax compliance. We find that voluntary e-invoicing adoption is higher amongst firms with partners who are mandated to adopt e-invoicing,

implying positive technology adoption spillovers. Spillovers are stronger from downstream partners and from export-oriented firms. Firms are less likely to continue transacting with a partner who has been mandated into e-invoicing, with the effect only partially reversed if both firms adopt e-invoicing, suggesting that network segmentation may occur. Smaller firms who transact with partners mandated into e-invoicing report 11 percent more sales and pay 17 more VAT in the year that their partner is mandated to adopt e-invoicing, suggesting positive spillovers in tax compliance behavior for this subset of firms.

Digitalization to Improve Tax Compliance: Evidence from VAT e-Invoicing in Peru

Mr. Matthieu Bellon, Jillie Chang, Ms. Era Dabla-Norris, Salma Khalid, Frederico Lima, Enrique Rojas, Pilar Villena, 2019-11-01 This paper examines the impact of e-invoicing on firm tax compliance and performance using administrative tax data and quasi-experimental variation in the rollout of VAT electronic invoicing in Peru. We find that e-invoicing increases reported firm sales, purchases and value-added by over 5 percent in the first year after adoption. The impact is concentrated among smaller firms and sectors with higher rates of non-compliance, suggesting that e-invoicing enhances compliance by lowering compliance costs and strengthening deterrence. The reform's positive effects on tax collection are hindered by shortcomings in the VAT refund mechanism in Peru, suggesting that digital tools such as e-invoicing should be complemented by other reforms to improve revenue mobilization.

e-Invoice the Encyclopedia for Indian GST CMA Bhogavalli Mallikarjuna Gupta, 2020-11-20 e-Invoicing is new to Indian Tax Payers, but it is implemented in 100+ countries across the globe and has still not matured. e-Invoicing is implemented in all the countries in a phased manner, and India is also following the same. Tax Law and Digitalization: The New Frontier for Government and Business Jeffrey Owens, Robert Risse, 2021-09-15 New technologies are changing the way that tax administrations, taxpayers and their advisers interact, leading to a reduction in the compliance cost for taxpayers, a level playing field for large and small businesses, and fewer opportunities to engage in aggressive tax practices. Although entering a new world where processes are supported by machines inevitably disrupts traditional ways of working, the contributors to this indispensable book reveal the enormous potential of 'tax technology' to positively transform tax compliance, clearly showing both government and business how to manage the transition from the old to the new. With detailed treatment of the technology available in the tax field, the authors describe how to secure its benefits in such ways as the following: electronic balance sheets and invoices; automated transmission to tax authorities; innovative analytics applications; blockchain in tax law processes; process mining in VAT; real-time reporting with cryptography; and meeting the challenges to taxpayers' rights to privacy and personal data protection. The contributions draw on an international conference held under the auspices of the Digital Economy Taxation Network at the Vienna University of Economics and Business in December 2020. The perspective throughout focuses on how to achieve better tax compliance at a lower cost. For this reason, this full-scale, practical guide on how to adapt tax law to new technologies and how to apply tax tech processes in practice will be welcomed by tax practitioners, tax administrations, and academics across the entire tax community.

Joint Public Procurement and Innovation Gabriella Margherita Racca, Christopher Yukins, 2020-02-12 Innovation in public procurement is essential for sustainable and inclusive growth in an increasingly globalized economy. To achieve that potential, both the promises and the perils of innovation must be investigated, including the risks and opportunities of joint procurement across borders in the European Union and the United States. This in-depth research investigates innovation in public procurement from three different perspectives. First, leading academics and practitioners assess the purchase of innovation, with a particular focus on urban public contracting in smart cities involving meta-infrastructures, public-private partnership arrangements and smart contracts. A second line of inquiry looks for ways to encourage innovative suppliers. Here, the collected authors draw on emerging lessons from the US and Europe, to explore both the costs and the benefits of spurring innovation through procurement. A third perspective looks to various innovations in the procurement process itself, with a focus on the effects of joint and cross-border procurement in the EU and US landscapes. The chapters review new technologies and platforms, the increasingly automated means of selecting suppliers, and the related efficiencies that “big data” can bring to public procurement. Expanding on research in the editors’ prior volume, *Integrity and*

Efficiency in Sustainable Public Contracts: Balancing Corruption Concerns in Public Procurement Internationally (Bruylant 2014), this volume builds on a series of academic conferences and exchanges to address these issues from sophisticated academic, institutional and practical perspectives, and to point the way to future research on the contractual models that are emerging from new procurement technologies.
