**Online Poker - Winning Strategies Revealed** Alex Master, 2019-03-19 It's becoming almost as big as baseball, football, hockey, and other sporting events. Television has increased its popularity. With the Internet, it's coming into our homes at a lightning fast rate. The rage that's sweeping the nation – poker! Although the game has been around for years played in family recreation rooms, smoky bars, casinos, and even retirement homes, these days, poker has become the game of choice for hundreds of thousands of people. Family game night used to mean getting out the Monopoly board and battling over Park Place and Broadway. Now, family game night is more likely to be characterized by breaking out the poker chips and battling each other for the best hands. More and more people are talking about their bad beats, their great hands, and their prowess for play. Popular on college campuses, fraternal clubs, and even retirement homes, poker has become our new game of chance, and our new game of choice. What has led to the rise of this game? Most likely, it has been television and the media. On any given evening, the average person can flip on the TV set and find a poker game being aired. The World Series of Poker, Celebrity Poker Showdown, and Ultimate Poker Showdown are rising in the ratings as we tune in to see professionals battle it out and compare our play to theirs. Nearly every home these days has at least one computer. The Internet has become our lifeline, in ways, for information, contact with the outside world, and – yes – our portal to the world of poker

beyond our kitchen table. Now ordinary people can log on and play poker with people other than our parents, kids, and friends. Many professional players sponsor online website where they are required to play allowing Average Joe to match his poker skills with the likes of Howard Lederer and Chris Ferguson. Perhaps the biggest rise in poker popularity – specifically online poker – stems from one man’s \$40 online buy-in leading to the Cinderella story of the industry. Chris Moneymaker qualified for The World Series of Poker main event through a small buy-in satellite event at Poker Stars. At the Series, he outlasted a field of 839 entrants – the largest in World Series of Poker history at the time. He pitted heads against some of the most well-known poker professionals in the world – and won! Moneymaker’s first-place finish netted him \$2.5 million dollars, which wasn’t bad considering it was his first live tournament. Many people looked at Moneymaker’s win as monumental. After all, he was just an average guy. He could be anyone’s next door neighbor or co-worker, and he went up against the pros and won. Chris Moneymaker opened the door for everyday people to dream about being the next professional poker player. In fact, the 2004 World Series featured triple the number of players over the 2003 turnout. At least four players in the WSOP final table won their entry through an online card room. Like Moneymaker, 2004 winner Greg “Fossil man” Raymer also won his entry at the Poker Stars online card room. There are a myriad of tips and tricks for playing the game of poker. Everyone seems to have an opinion on the best way to play the game.

True, poker is a game of chance, and many would argue that there really is no secret to winning the game. However, there is a best way to play. As Kenny Rogers sang in "The Gambler", you've got to know when to hold 'em and know when to fold 'em. Know when to walk away, and know when to run. There are many variations on the game of poker, but the one most popular today has got to be Texas Hold 'Em. It's a relatively simple game, but like all poker, it can change with the deal of every card. In this book, we'll explore different ways to play the game online to maximize on your buy-in. We'll touch on tournaments as well. Online poker can be fun and even profitable when you play smart and follow the advice of those in the know. Whether you're playing for fun or for money, the game can easily become an obsession, so we've also given you information about getting help with a gambling problem. We won't make you a professional – that's up to you! But we will try to give you some food for thought when the cards are dealt and it's time to bet. So, let's talk poker!

They usually blame bad luck for their failures whereas in reality, they are simply not skilled enough at poker. The secret to mastering poker is not in memorizing hand ranking charts or following a predetermined system. You must learn to think for yourself while at the table in order to adjust your strategy based on your specific opponents. *Strategies for Beating Small Stakes Poker Tournaments* will explain how. In this guide, two-time World Poker Tour champion Jonathan Little explains numerous strategies he uses that will allow you to crush your opponents, giving you the opportunity to progress to the middle and high stakes.

The biggest poker games in the world have nothing to do with the green felt and David Apostolico has managed to translate his intimate knowledge of poker into a valuable roadmap to more effective

business practices and strategies. STEVEN LIPSCOMB Founder, President, and CEO of the World Poker Tour The principles to win at poker are the same for succeeding at business and this book hits them all. ANTONIO ESFANDIARI World Poker Tour winner and World Series of Poker bracelet winner Ever since poker proliferated along the Mississippi in the early 1800s, it has been the quintessential American game. Poker, if played correctly, embodies all of the qualities cherished in our free society including ingenuity, hard work, and perseverance. The ability to read and outwit your opponents, which is so essential to success at the poker table, is equally important in forging ahead in a capitalist society. Of course, luck is prevalent in all aspects of our lives, and anyone who has spent time in a poker room can attest to the large and random role that luck plays. How one deals with it can go a long way in determining success. In this book, experienced poker player, tournament champion, attorney, and businessman David Apostolico takes core poker philosophies and applies them to various business situations. Readers learn how to develop a poker mindset to help them in all aspects of their business lives. Apostolico, who has matched wits with the world's top professionals on the invitation only Professional Poker Tour and negotiated mergers and acquisitions on Wall Street, says there are no hard and fast rules to either poker or business success, yet the skills involved in both are extremely similar. Reading the opposition, adapting to changing circumstances, being innovative, and thinking like a winner are necessary to making a living on

the felt or in the board room. Whether you are negotiating a deal, managing your finances, marketing products, running a business, or trying to climb the corporate ladder, a solid poker strategy can prove invaluable. Before you make a move in any of these areas, you should read this insightful book to learn how to play your hand for maximum strength. David Apostolico (West Chester, PA), the winner of numerous poker tournaments in Las Vegas, Atlantic City, and the burgeoning online casino scene, is the author of *Tournament Poker and the Art of War*, *Lessons from the Pro Poker Tour*, *Machiavellian Poker Strategy*, and three other books on poker.
