Out of Print George Brock,2013-09-03 News and journalism are in the midst of upheaval: shifts such as declining print subscriptions and rising website visitor numbers are forcing assumptions and practices to be rethought from first principles. The internet is not simply allowing faster, wider distribution of material: digital technology is demanding transformative change. Out of Print analyzes the role and influence of newspapers in the digital age and explains how current theory and practice have to change to fully exploit developing opportunities. In Out of Print George Brock guides readers through the history, present state and future of journalism, highlighting how and why journalism needs to be rethought on a global scale and remade to meet the demands and opportunities of new conditions. He provides a unique examination of every key issue, from the phone-hacking scandal and Leveson Inquiry to the impact of social media on news and expectations. He presents an incisive, authoritative analysis of the role and influence of journalism in the digital age. Online supporting resources for this book include downloadable lecture slides.

All the News That's Fit to Sell James T. Hamilton,2011-10-23 That market forces drive the news is not news. Whether a story appears in print, on television, or on the Internet depends on who is interested, its value to advertisers, the costs of assembling the

details, and competitors' products. But in *All the News That's Fit to Sell*, economist James Hamilton shows just how this happens. Furthermore, many complaints about journalism--media bias, soft news, and pundits as celebrities--arise from the impact of this economic logic on news judgments. This is the first book to develop an economic theory of news, analyze evidence across a wide range of media markets on how incentives affect news content, and offer policy conclusions. Media bias, for instance, was long a staple of the news. Hamilton's analysis of newspapers from 1870 to 1900 reveals how nonpartisan reporting became the norm. A hundred years later, some partisan elements reemerged as, for example, evening news broadcasts tried to retain young female viewers with stories aimed at their (Democratic) political interests. Examination of story selection on the network evening news programs from 1969 to 1998 shows how cable competition, deregulation, and ownership changes encouraged a shift from hard news about politics toward more soft news about entertainers. Hamilton concludes by calling for lower costs of access to government information, a greater role for nonprofits in funding journalism, the development of norms that stress hard news reporting, and the defining of digital and Internet property rights to encourage the flow of news. Ultimately, this book shows that by more fully understanding the economics behind the news, we will be better positioned to ensure that the news serves the public good.

News Deserts and Ghost Newspapers Penelope Muse Abernathy, 2020-08-15 This report is the fourth on the state of local news produced by the Hussman School of Journalism and Media at the University of North Carolina at Chapel Hill. It measures what has been lost, while also assessing what must be done if we are to nurture and revive a vibrant news landscape in the third decade of the 21st century. The first section of this report, *The News Landscape in 2020: Transformed and Diminished*, examines the loss of local news, from the end of 2004-

-when newspaper advertising, circulation and employment were at, or near, peak levels--to the end of 2019, providing a time-lapsed snapshot of the news landscape before the coronavirus seized control of the economy. It assesses not only the current state of local newspapers, but also that of local digital sites, ethnic news organizations and public broadcasting outlets. The second section, *The News Landscape of the Future: Transformed ... and Renewed?* establishes the need for a reimagining of journalistic, business, technological and policy solutions. Extensive research has established that the loss of local news has significant political, social and economic implications for our democracy and our society. Yet, according to the Pew Research Center, almost three-quarters of the general public remains unaware of the dire economic situation confronting local news organizations. By documenting the transformation of the local news landscape over the past 15 years, and exploring the challenges and potential solutions, we hope this report will raise awareness of the role that all of us can play in supporting the revival of local news. Accompanying this report, is an updated website, usnewsdeserts.com, with more than 350 interactive maps--allows readers to drill down to the county level to understand the state of local media in communities throughout the United States. You will find information on regional and community newspapers--as well as public broadcasting outlets, ethnic media and digital sites.

Politics and the Press Pippa Norris, 1997 Contains 12 contributions, including some original research, by scholars, journalists, and media executives at Harvard's Joan Shorenstein Center. Contributions focus on the influence of the press on the policy apparatus of government and the impact of economics and changes in communications technology on news reporting. The volume also includes perspectives on minorities and women as members of the news industry. Annotation copyrighted by Book News, Inc., Portland, OR

EBOOK: News Culture Stuart Allan, 2010-03-16 *News Culture* offers a timely examination of the forms, practices, institutions and audiences of journalism. Having highlighted a range of pressing issues confronting the global news industry today, it proceeds to provide a historical consideration of the rise of 'objective' reporting in newspaper, radio and television news. It explores the way news is produced, its textual conventions, and its negotiation by the reader, listener or viewer as part of everyday life. Stuart Allan also explores topics such as the cultural dynamics of sexism and racism as they shape news coverage, as well as the rise of online news, citizen journalism, war reporting and celebrity-driven infotainment. Building on the success of the bestselling previous editions, this new edition addresses the concerns of the news media age, featuring: An expanded chapter on news, power and the public sphere A chapter-length discussion of war journalism, tracing key factors shaping reportage from the battlefields of Vietnam to the current war in Iraq A chapter on citizen journalism in times of crisis, including a number of examples where ordinary individuals have performed the role of a journalist to bear witness to tragic events This book is essential reading for students of journalism, cultural and media studies, sociology and politics.

Foreign News in American Morning Newspapers Julian

The Expanding News Desert Penelope Muse

Abernathy,2018-11-15 This report delves into the implications for communities at risk of losing their primary source of credible news. By documenting the shifting news landscape and evaluating the threat of media deserts, this report seeks to raise awareness of the role interested parties can play in addressing the challenges confronting local news and democracy. The Expanding News Desert documents the continuing loss of papers and readers, the consolidation in the industry, and the social, political and economic consequences for thousands of communities throughout the country. It also provides an update on the strategies of the seven large investment firms--hedge and pension funds, as well as private and publicly traded equity groups--that swooped in to purchase hundreds of newspapers in recent years and explores the indelible mark they have left on the newspaper industry during a time of immense disruption.

What is News? Gerald White Johnson,1926

Practical Newspaper Reporting David Spark,Geoffrey

Harris,2010-11-15 Now in its fourth edition, this classic textbook has grown up alongside the newspaper industry. Today, as ever, it provides students of newspaper journalism with a toolkit for gathering news and filling ever-increasing space with first-rate copy for print and online. Detailed and down-to-earth, this book delivers: • Guidance on news gathering, from government and business to sport and religion • Guidance on news writing, drawing on over 300 examples that have appeared in print, discussing why they work or how they could have been better • Guidance on feature writing, including profiles, comment, leading articles, obituaries and reviews • Specific chapters on ethical reporting and the possibilities and pitfalls of investigative journalism • A review of the new financial realities that the internet is imposing on the media. Informed by over half a century's professional experience

and fully revised to give a nuanced account of the skills required in an online environment, this book is an essential companion for your journalism degree and beyond.

Cultural Meanings of News Daniel A. Berkowitz, 2010-03-30

What is news? What does news tell us about the culture and the society that produces and consumes it? This book provides a fresh examination of news production from a cultural perspective, moving beyond what was once called sociology of news and toward the globally-broader, culturally-based concept of journalism studies. Key Features Twenty-three original and contemporary articles—encompassing the intrinsic cultures of print, broadcast, and online media—are grouped in six thematically cohesive sets. The articles are presented chronologically to allow the reader to follow the exchange of ideas between authors over time. Berkowitz looks at news globally, helping the student look beyond his or her own cultural context to that of many other societies. A comprehensive framework helps to thoughtfully present this cultural study of news. Berkowitz opens and closes the text with a cultural perspective on news and hints on applying this perspective to emerging news situations; each section also contains an introduction that highlight connections between the articles.

Misunderstanding News Audiences Eiri Elvestad, Angela

Phillips, 2018-04-09 Misunderstanding News Audiences

interrogates the prevailing myths around the impact of the Internet and social media on news consumption and democracy. The book draws on a broad range of comparative research into audience engagement with news, across different geographic regions, to provide insight into the experience of news audiences in the twenty-first century. From its inception, it was imagined that the Internet would benignly transform the nature of news media and its consumers. There were predictions that it would, for example, break up news oligarchies, improve plurality and diversity through news personalisation, create genuine social

solidarity online, and increase political awareness and participation among citizens. However, this book finds that, while mainstream news media is still the major source of news, the new media environment appears to lead to greater polarisation between news junkies and news avoiders, and to greater political polarisation. The authors also argue that the dominant role of the USA in the field of news audience research has created myths about a global news audience, which obscures the importance of national context as a major explanation for news exposure differences. *Misunderstanding News Audiences* presents an important analysis of findings from recent audience studies and, in doing so, encourages readers to re-evaluate popular beliefs about the influence of the Internet on news consumption and democracy in the West.
