Personal Connections in the Digital Age Nancy K. Baym,2015-08-04 The internet and the mobile phone have disrupted many of our conventional understandings of ourselves and our relationships, raising anxieties and hopes about their effects on our lives. In this second edition of her timely and vibrant book, Nancy Baym provides frameworks for thinking critically about the roles of digital media in personal relationships. Rather than providing exuberant accounts or cautionary tales, it offers a data-grounded primer on how to make sense of these important changes in relational life Fully updated to reflect new developments in technology and digital scholarship, the book identifies the core relational issues these media disturb and shows how our talk about them echoes historical discussions about earlier communication technologies. Chapters explore how we use mediated language and nonverbal behavior to develop and maintain communities, social networks, and new relationships, and to maintain existing relationships in our everyday lives. The book combines research findings with lively examples to address questions such as: Can mediated interaction be warm and personal? Are people honest about themselves online? Can relationships that start online work? Do digital media damage the other relationships in our lives? Throughout, the book argues that these questions must be answered with firm understandings of media qualities and the social and personal contexts in which they are developed and used. This new edition of *Personal Connections in the Digital Age* will be required reading for all students and scholars of media, communication studies, and sociology, as well as all those who want a richer understanding of digital media and everyday life.

What Does the Bible Say? Mary Ann Beavis,HyeRan Kim-Cragg,2017-04-25 This book is a collaboration between a biblical scholar (Mary Ann

Beavis) and a practical theologian (HyeRan Kim-Cragg) who are concerned with the way that the Bible is portrayed and interpreted in popular culture, including but not limited to the movies. This concern points to a need for a conversation, examining what the Bible actually says, in order to uncover transformations and distortions of the biblical stories in the wider culture—including Christian culture. Our conversation is counter-cultural, not in an oppositional way, but taking an alternative posture that aims to provide different insights by drawing from and closely looking at the Bible. The chapters take a Christian canonical approach, articulating what the Bible says (and doesn't say) with regard to culturally pervasive themes such as sin and salvation, Christ and Antichrist, heaven and hell, in contrast to popular understandings as disseminated in (primarily) film, advertising, television, etc. We hope that together we will open up fertile academic, ecclesial, and secular space for disclosing loaded cultural and ideological views towards offering positive and intriguing insights embedded in the Bible.
