Gunners from the Sky Paul Chrystal,David Chrystal,2023-10-30 This is the story of the 1st Air Landing Light Regiment RA and its role in the Italian campaign and at the Battle of Arnhem. It is also the story of one of its soldiers: 14283058 Gunner Eric Wright Chrystal, father of the authors. Eric joined the army in September 1942 and, after training, joined the newly formed glider-borne regiment the following year. He first saw action in Italy in

1943, where he was seriously wounded. On 17 September 1944, two years to the day since he enlisted, he and the regiment were landed by glider near to Arnhem in the Netherlands. The authors recount set their father's experiences in context by describing the formation of the unit and the many months of training in England. Their involvement in the Italian campaign, where Eric served with E Troop, 3 Battery, is then recounted, detailing their actions at Rionero, Foggia and Campobasso, where Eric was wounded. It then moves on to describe 1st Air Landing Light Regiment's preparation for and involvement in Operation Market (the Airborne half of Market Garden). This very detailed account of the fighting highlights the regiment's pivotal (but often neglected) role near Arnhem bridge. Here, after nine days of intense combat, Eric was among the many captured and held until the end of the war. The inclusion of Eric's own eyewitness testimony lends a very personal touch to this excellent account of the regiment's experience of combat and life in the PoW camps.

Bring That Beat Back Nate Patrin, 2020-06-09 How sampling remade hip-hop over forty years, from pioneering superstar Grandmaster Flash through crate-digging preservationist and innovator Madlib Sampling—incorporating found sound and manipulating it into another form entirely—has done more than any musical movement in the twentieth century to maintain a continuum of popular music as a living document and, in the process, has become one of the most successful (and commercial) strains of postmodern art. *Bring That Beat Back* traces the development of this transformative pop-cultural practice from its origins in the turntable-manning, record-spinning hip-hop DJs of 1970s New York through forty years of musical innovation and reinvention. Nate Patrin tells the story of how sampling built hip-hop through the lens of four pivotal artists: Grandmaster Flash as the popular face of the music's DJ-born beginnings; Prince Paul as an early champion of sampling's potential to elaborate on and rewrite music history; Dr. Dre as the superstar who personified the rise of a stylistically distinct regional sound while blurring the lines between sampling and composition; and Madlib as the underground experimentalist and record-collector antiquarian who constantly broke the rules of what the mainstream expected from hip-hop. From these four artists' histories, and the stories of the people who collaborated, competed, and evolved with them, Patrin crafts a deeply informed, eminently readable account of a facet of pop music as complex as it is commonly underestimated: the aesthetic and reconstructive power of one of the most revelatory forms of popular culture to emerge from postwar twentieth-century America. And you can nod your head to it.

Angels of tomorrow Maurice Hardy,

Is Hip Hop Dead? Mickey Hess, 2007-08-30 Hip hop is remarkably self-critical as a genre. In lyrics, rappers continue to debate the definition of hip hop and question where the line between underground artist and mainstream crossover is drawn, who owns the culture and who runs the industry, and most importantly, how to remain true to the culture's roots while also seeking fame and fortune. The tension between the desires to preserve hip hop's original culture and to create commercially successful music promotes a lyrical war of words between mainstream and underground artists that keeps hip hop very much alive today. In response to criticisms that hip hop has suffered or died in its transition to the mainstream, this book seeks to highlight and examine the ongoing

dialogue among rap artists whose work describes their own careers. Proclamations of hip hop's death have flooded the airwaves. The issue may have reached its boiling point in Nas's 2006 album *Hip Hop is Dead*. Nas's album is driven by nostalgia for a mythically pure moment in hip hop's history, when the music was motivated by artistic passion, instead of base commercialism. In the course of this same album, however, Nas himself brags about making money for his particular record label. These and similar contradictions are emblematic of the complex forces underlying the dialogue that keeps hip hop a vital element of our culture. *Is Hip Hop Dead?* seeks to illuminate the origins of hip hop nostalgia and examine how artists maintain control of their music and culture in the face of corporate record companies, government censorship, and the standardization of the rap image. Many hip hop artists, both mainstream and underground, use their lyrics to engage in a complex dialogue about rhyme skills versus record sales, and commercialism versus culture. This ongoing dialogue invigorates hip hop and provides a common ground upon which we can reconsider many of the developments in the industry over the past 20 years. Building from black traditions that value knowledge gained from personal experience, rappers emphasize the importance of street knowledge and its role in forging a career in the music business. Lyrics adopt models of the self-made man narrative, yet reject the trajectories of white Americans like Benjamin Franklin who espoused values of prudence, diligence, and delayed gratification. Hip hop's narratives instead promote a more immediately viable gratification through crime and extend this criminal mentality to their work in the music business. Through the lens of hip hop, and the threats to hip hop culture, author Mickey Hess is able to confront a range of important issues, including race, class, criminality, authenticity, the media, and personal identity.

Stirlings in Action with the Airborne Forces Dennis Williams, 2008-07-15 This is the history of two RAF squadrons who shared many tasks during WWII. Although there was a healthy rivalry between personnel serving on 190 and 620 Squadrons, there was also a deep sense of camaraderie that forged bonds between them.

In Media Res James Braxton Peterson, 2014-12-18 *In Media Res* is a manifold collection that reflects the intersectional qualities of university programming in the twenty-first century. Taking race, gender, and popular culture as its central thematic subjects, the volume collects academic essays, speeches, poems, and creative works that critically engage a wide range of issues, including American imperialism, racial and gender discrimination, the globalization of culture, and the limitations of our new multimedia world. This diverse assortment of works by scholars, activists, and artists models the complex ways that we must engage university students, faculty, staff,

and administration in a moment where so many of us are confounded by the “in medias res” nature of our interface with the world in the current moment. Featuring contributions from Imani Perry, Michael Eric Dyson, Suheir Hammad, John Jennings, and Adam Mansbach, In Media Res is a primer for academic inquiry into popular culture; American studies; critical media literacy; women, gender, and sexuality studies; and Africana studies.

The Last Heroes Gary Bridson-Daley,2017-11-01 The Second World War is famed for being the conflict that changed the face of warfare, and it is the last that changed the face of the world. In addition to remembering those that passed away in those dark days of war, a sincere debt of gratitude is owed to all those now in their twilight years who gave all that they had for King and Country. Here Gary Bridson-Daley presents forty-two of over a hundred interviews he conducted with veterans over recent years, adding to the history books the words and the original poetry of those that fought and supported the war effort to ensure freedom, peace and prosperity for generations to come. From each corner of the British Isles and every armed service, from Dam Buster George 'Johnny' Johnson through to riveter Susan Jones: heroes, all.

All the Countries Stuart Laycock,2012-02-29 Out of 193 countries that are currently UN member states, we've invaded or fought conflicts in the territory of 171. That's not far off a massive, jaw-dropping 90 per cent. Not too many Britons know that we invaded Iran in the Second World War with the Soviets. You can be fairly sure a lot more Iranians do.Or what about the time we arrived with elephants to invade Ethiopia?Every summer, hordes of British tourists now occupy Corfu and the other Ionian islands. Find out how we first invaded them armed with cannon instead of camera and set up the United States of the Ionian Islands. Think the Philippines have always been outside our zone of influence? Think again. Read the surprising story of our eighteenth-century occupation of Manila and how we demanded a ransom of millions of dollars for the city. This book takes a look at some of the truly awe-inspiring ways our country has been a force, for good and for bad, right across the world. A lot of people are vaguely aware that a quarter of the globe was once pink, but that's not even half the story. We're a stropky, dynamic, irrepressible nation and this is how we changed the world, often when it didn't ask to be changed!
