Michael Quinn Patton, 2002 In *Unstable and Brittle Diabetes*, Geoff Gill brings together research on the management of brittle diabetes (or erratic glucose control), which is a controversial area in terms of definition and management and one that creates much debate among diabetologists. This monograph aims to help the diabetologist understand this troublesome condition.

The Bloodworth Orphans Leon Forrest, 2001-12 Leon Forrest, acclaimed author of *Divine Days*, uses a remarkable verbal intensity to evoke human tragedy,

injustice, and spirituality in his writing. As Toni Morrison has said, All of Forrest's novels explore the complex legacy of Afro-Americans. Like an insistent tide this history . . . swells and recalls America's past. . . . Brooding, hilarious, acerbic and profoundly valued life has no more astute observer than Leon Forrest. All of that is on display here in a novel that give readers a breathtaking view of the human experience, filled with humor and pathos.

Urban Neighborhoods in a New Era Clarence N. Stone,Robert P. Stoker,John Betancur,Susan E.

Clarke, Marilyn Dantico, Martin Horak, Karen Mossberger, Juliet Musso, Jefferey M. Sellers, Ellen Shiau, Harold Wolman, Donn Worgs, 2015-09-18 For decades, North American cities racked by deindustrialization and population loss have followed one primary path in their attempts at revitalization: a focus on economic growth in downtown and business areas. Neighborhoods, meanwhile, have often been left severely underserved. There are, however, signs of change. This collection of studies by a distinguished group of political scientists and urban planning scholars offers a rich analysis of the scope, potential, and ramifications of a shift still in progress. Focusing on neighborhoods in six cities—Baltimore, Chicago, Denver, Los Angeles, Phoenix, and Toronto—the authors show how key players, including politicians and philanthropic organizations, are beginning to see economic growth and neighborhood improvement as complementary goals. The heads of universities and hospitals in central locations also find themselves facing newly defined realities, adding to the fluidity of a new political landscape even as structural inequalities exert a continuing influence. While not denying the hurdles that community revitalization still faces, the contributors ultimately put forth a strong case that a more hospitable local milieu can be created for making neighborhood policy. In examining the course of experiences from an earlier period of redevelopment to the present postindustrial city, this book opens a window on a complex process of political change and possibility for reform.
