

Opus Magnum Sacred Sound

David Elkington

Sacred Sound Guy L. Beck, 2006-07-17 This innovative book explores religion through music - the source of spiritual elation, social cohesion, and empowerment in cultures around the world.--BOOK JACKET.

Sacred Sound Joyce L. Irwin, 1983 Whether music's appeal to the senses detracts from or contributes to devotion is an important question for all religious traditions. This interdisciplinary, cross-cultural collection is intended as a first step towards a phenomenology of religious music. Topics range from the mystical strain in Jewish liturgical music to music in the Theravada Buddhist heritage. Contributors include Lois Ibsen al Faruqi, Bruce B. Lawrence, John Ross Carter, and Donna Marie Wulff.

Sacred Space, Sacred Sound Susan Elizabeth Hale, 2007-01-01 Visionary singer Susan Hale believes that early peoples deliberately built their structures to enhance natural vibrations. She takes us around the globe-from Stonehenge and New Grange to Gothic cathedrals and Tibetan stupas in New Mexico-to explore the acoustics of sacred places. But, she says, you don't have to go to the Taj Mahal: The sacred is all around us, and we are all sound chambers resonating with the One Song.

Nothing but Love in God's Water Robert Darden, 2014-10-14 The first of two volumes chronicling the history and role of music in the African American experience, *Nothing but Love in God's Water* explores how songs and singers helped African Americans challenge and overcome slavery, subjugation, and suppression. From the spirituals of southern fields and the ringing chords of black gospel to the protest songs that changed the landscape of labor and the cadences sung before dogs and water cannons in Birmingham, sacred song has stood center stage in the African American drama. Myriad interviews, one-of-a-kind sources, and rare or lost recordings are used to examine this enormously persuasive facet of the movement. *Nothing but Love in God's Water* explains the historical significance of song and helps us understand how music enabled the civil rights movement to challenge the most powerful nation on the planet.

Arvo Pärt Peter C. Bouteneff, Jeffers Engelhardt, Robert Saler, 2020-12-01 Scholarly writing on the music of Arvo Pärt is situated primarily in the fields of musicology, cultural and media studies, and, more recently, in terms of theology/spirituality. *Arvo Pärt: Sounding the Sacred* focuses on the representational dimensions of Pärt's music (including the trope of silence), writing and listening past the fact that its storied effects and affects are carried first and foremost as vibrations through air, impressing themselves on the human body. In response, this ambitiously interdisciplinary volume asks: What of sound and materiality as embodiments of the sacred, as historically specific artifacts, and as elements of creation deeply linked to the human sensorium in Pärt studies? In taking up these questions, the book "de-Platonizes" Pärt studies by demystifying the notion of a single "Pärt sound." It offers innovative, critical analyses of the historical contexts of Pärt's experimentation, medievalism, and diverse creative work; it re-sounds the acoustic, theological, and representational grounds of silence in Pärt's music; it listens with critical openness to the intersections of theology, sacred texts, and spirituality in Pärt's music; and it positions sensing, performing bodies at the center of musical experience. Building on the conventional score-, biography-, and media-based approaches, this volume reframes Pärt studies around the materiality of sound, its sacredness, and its embodied resonances within secular spaces.

The Ancient Language of Sacred Sound David Elkington, 2021-04-06 • Details how sacred sites resonate at the same frequencies as both the Earth and the alpha waves of the human brain • Shows how human writing in its original hieroglyphic form was a direct response to the divine sound patterns of sacred sites • Explains how ancient hero myths from around the world relate to divine acoustic science and formed the source of religion The Earth resonates at an extremely low frequency. Known as "the Schumann Resonance," this natural rhythm of the Earth precisely corresponds with the human brain's alpha wave frequencies--the frequency at which we enter into and come out of sleep as well as the frequency of deep

meditation, inspiration, and problem solving. Sound experiments reveal that sacred sites and structures like stupas, pyramids, and cathedrals also resonate at these special frequencies when activated by chanting and singing. Did our ancestors build their sacred sites according to the rhythms of the Earth? Exploring the acoustic connections between the Earth, the human brain, and sacred spaces, David Elkington shows how humanity maintained a direct line of communication with Mother Earth and the Divine through the construction of sacred sites, such as Stonehenge, Newgrange, Machu Picchu, Chartres Cathedral, and the pyramids of both Egypt and Mexico. He reveals how human writing in its original hieroglyphic form was a direct response to the divine sound patterns of sacred sites, showing how, for example, recognizable hieroglyphs appear in sand patterns when the sacred frequencies of the Great Pyramid are activated. Looking at ancient hero legends--those about the bringers of important knowledge or language--Elkington explains how these myths form the source of ancient religion and have a unique mythological resonance, as do the sites associated with them. The author then reveals how religion, including Christianity, is an ancient language of acoustic science given expression by the world's sacred sites and shows that power places played a profound role in the development of human civilization.

Rivers of Sacred Sound Solveig McIntosh, 2019 The text of this book, preceded by an introduction, is presented in seven chapters and covers a period of approximately five thousand years. In an aural culture what was the role of gesture and what is its role now? There are many doors to open in pursuing these and other questions. This book opens some of them.

The A to Z of Sacred Music Joseph P. Swain, 2010 Nearly all religious traditions have reserved a special place for sacred music. Whether it is music accompanying a ritual or purely for devotional purposes, music composed for entire congregations or for the trained soloist, or music set to holy words or purely instrumental, in some form or another, music is present. In fact, in some traditions the relation between the music and the ritual is so intimate that to distinguish between them would be inaccurate. The A to Z of Sacred Music covers the most important aspects of the sacred music of Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, and other smaller religious groups. It provides useful information on all the significant traditions of this music through the use of a chronology, an introductory essay, a bibliography, appendixes, and hundreds of cross-referenced dictionary entries on major types of music, composers, key religious figures, specialized positions, genres of composition, technical terms, instruments, fundamental documents and sources, significant places, and important musical compositions.

Sonic Theology Guy L. Beck, 1995

Resounding Transcendence Jeffers Engelhardt, Philip V. Bohlman, 2016 The chapters in 'Resounding Transcendence' are unified by a common concern for the ways sacred music effects cultural, political, and religious transitions in the contemporary world. Together, the contributors describe the ways musical transition sounds belief and action together in forms of transcendence immanent in religious practice and ritual, particularly in the texts and contexts of sacred music.

The Sound of Beauty Michael Kurek,2019-10-01 Music remains something of a mystery to many people—ephemeral sounds floating invisibly through the air—here, and then gone. This book begins with the basic question of what music actually is, scientifically, employing simple, clear explanations of wave theory and the acoustics of sound as part of God's natural creation. It presents accessible and fascinating explanations of some theories of the psychology of perception of music, how music speaks to the mind, emotions, and spirit. Some of these concepts have rarely been addressed outside the ivory tower and even more rarely been seen through the lens of Catholic theology. Moving from music and the individual to music in the culture and the Church, the author addresses numerous issues in the context of Catholic thought, including: immanence and transcendence in music the Real Presence and music Moral Theology, Natural Law and music ordered and disordered understandings of music as it relates to the emotions understanding the authentic meanings of beauty and creativity the real function of music in Catholic liturgy the role of music in evangelization This is a kind of layman's handbook, a comprehensive theology of all things music, which anyone can understand, written by an internationally respected classical composer and music professor at a top secular university who is also a faithful Catholic. It sheds light on the mysteries of music and furthers the spiritual formation regarding music for Catholics of many ages and walks of life. It is groundbreaking in its comprehensive and holistic treatment of music from a Catholic perspective, and particularly timely in advocating for the renewal of the norms for music in liturgy found in the documents of Vatican II. It also presents one of the most penetrating critical examinations to be found of contemporary classical music, from an insider.

The Cambridge Companion to Duke Ellington Edward Green,Evan Spring,2014 This comprehensive and accessible Companion is the first collection of essays to provide an in-depth overview of Ellington's career.

The Cambridge History of Sixteenth-Century Music Iain Fenlon,Richard Wistreich,2018-12-31 Part of the seminal Cambridge History of Music series, this volume departs from standard histories of early modern Western music in two important ways. First, it considers music as something primarily experienced by people in their daily lives, whether as musicians or listeners, and as something that happened in particular locations, and different intellectual and ideological contexts, rather than as a story of genres, individual counties, and composers and their works. Second, by constraining discussion within the limits of a 100-year timespan, the music culture of the sixteenth century is freed from its conventional (and tenuous) absorption within the abstraction of 'the Renaissance', and is understood in terms of recent developments in the broader narrative of this turbulent period of European history. Both an original take on a well-known period in early music and a key work of reference for scholars, this volume makes an important contribution to the history of music.

Mantra Meditation Thomas Ashley-Farrand,2010-07-01 “Through mantra practice, positive karma flows freely into our lives ... desires are fulfilled ... spiritual abilities manifest ... and we have moved another step forward toward moksha—complete spiritual freedom.” —Thomas Ashley-Farrand Karma: the consequence of all of your actions, decisions, thoughts, and emotions. According to Thomas Ashley-Farrand, karmic patterns from the past are always with you, affecting everything you do—for better or for worse. With Mantra Meditation, you will learn how to use genuine Sanskrit mantras to balance your chakras (your body's seven spinning energy-centers) to dissolve negative karma. “When you begin to chant these ancient formulas,” teaches Ashley-Farrand, “the petals on your chakras begin to resonate, and they pull in spiritual energy.” With Mantra Meditation—designed as a 40-day practice or a lifelong tool—your spiritual energy grows, your karma disperses, and your path clears to bring you everything you desire through the fusing of your own efforts and the infinite generosity of the universe. Includes 15 guided mantra meditations and instructions for Sanskrit pronunciation.

The Harvard Concise Dictionary of Music and Musicians Don Michael Randel, 2002-10-30 This new compact guide to the history and performance of music is both authoritative and a pleasure to use. With entries drawn and condensed from the widely acclaimed The New Harvard Dictionary of Music and its companion The Harvard Biographical Dictionary of Music, it is a dependable reference for home and classroom and for professional and amateur musicians. This concise dictionary offers definitions of musical terms; succinct characterizations of the various forms of musical composition; entries that identify individual operas, oratorios, symphonic poems, and other works; illustrated descriptions of instruments; and capsule summaries of the lives and careers of composers, performers, and theorists. Like its distinguished parent volumes, The Harvard Concise Dictionary of Music and Musicians provides information on all periods in music history, with particularly comprehensive coverage of the twentieth century. Clearly written and based on vast expertise, The Harvard Concise Dictionary of Music and Musicians is an invaluable handbook for everyone who cares about music.

Music in Black American Life, 1600-1945, 2022-08-23 This first volume of Music in Black American Life collects research and analysis that originally appeared in the journals American Music and the Black Music Research Journal, and in the University of Illinois Press's acclaimed book series Music in American Life. In these selections, experts from a cross-section of disciplines engage with fundamental issues in ways that changed our perceptions of Black music. The topics includes the culturally and musically complex Black music-making of colonial America; string bands and other lesser-known genres practiced by Black artists; the jubilee industry and its audiences; and innovators in jazz, blues, and Black gospel. Eclectic and essential, Music in Black American Life, 1600-1945 offers specialists and students alike a gateway to the history and impact of Black music in the United States. Contributors: R. Reid Badger, Rae Linda Brown, Samuel A. Floyd Jr., Sandra Jean Graham, Jeffrey Magee, Robert M. Marovich, Harriet Ottenheimer, Eileen Southern, Katrina Dyonne Thompson, Stephen Wade, and Charles Wolfe
