**Nope, Nothing Wrong Here: The Making of Cujo** Lee Gambin, “It’s Not A Monster...It’s Just A Doggy...” Based on the bestselling novel by prolific author Stephen King, Lewis Teague’s masterfully conceived, created and performed film adaptation of Cujo hit theatres in 1983 – a year that became a benchmark for King adaptations with both The Dead Zone and Christine also terrifying audiences around the same time. Cujo would impress critics and fans alike, and would be regarded as one of the most successful of King’s stories brought to the screen during the eighties. The film would also showcase a phenomenal performance from star Dee Wallace, who throws herself into the rich and complicated part of alienated adulteress Donna Trenton, making it a true tour de force role for a woman. Along with Wallace’s poignant and dedicated control of the protagonist, this horror classic would feature some of the most thrilling and exhilarating animal action ever put to screen. Lead by dog trainer Karl Lewis Miller, the multiple St. Bernards used to portray the titular rabid canine would terrify hardened horror devotees with brilliantly orchestrated attack sequences during the film’s climactic siege sequence that would see Dee Wallace trapped inside a dead Ford Pinto with child actor Danny Pintauro along for the harrowing ride. With it’s sophistication and deep subversive intelligence, Cujo is a biting critique on the breakdown of the American family, an electric take on the “woman in the storm” story trope, a personal and introspective ecologically themed horror film (a subgenre usually socially and politically motivated) and a perfectly realised example of the power of circumstance. It also thoroughly scrutinizes fear – both real and imagined – in a sharp and magnetic manner. Lee Gambin’s book analyses the entire film scene by scene - and along with the academic input there is exhaustive coverage of the production. This is the ultimate in “making of” books, where no stone has been left unturned. From the film’s problematic early days with originally assigned director Peter Medak being fired, to detailed insight into screenwriter Barbara Turner’s take on the source material, to Lewis Teague being brought in to take over as director along with cinematographer Jan de Bont and beyond, this definitive tome features over thirty candid interviews with cast and crew such as stars Dee Wallace, Daniel Hugh Kelly and Danny Pintauro, director Lewis Teague, composer Charles Bernstein, as well as stunt man Gary Morgan who played Cujo in many scenes (care of a St Bernard costume). There are many more additional voices who were on set represented in the book such as Danny Pintauro’s parents as well as some highly deserving and loving insight about the late great animal trainer Karl Lewis Miller, from his daughter Teresa Ann Miller. With over 200 pictures (most of which have never been seen), this is the perfect tribute to a modern classic – a pure celebration of eighties horror, Stephen King, dogs in film, powerhouse performances from women and much more. The bottom line here is this...everything you have ever wanted to know about Cujo is in this book!

**Cartography and Art** William Cartwright,Georg Gartner,Antje Lehn,2009-02-26 This book is the fruition of work from contributors to the Art and Cartography: Cartography and Art symposium held in Vienna in February 2008. This meeting brought together cartographers who were interested in the design and aesthetics elements of cartography and artists who use maps as the basis for their art or who incorporate place and space in their expressions. The outcome of bringing together these like

minds culminated in a wonderful event, spanning three evenings and two days in the Austrian capital. Papers, exhibitions and installations provided a forum for appreciating the endeavors of artists and cartographers and their representations of geography. As well as indulging in an expansive and expressive occasion attendees were able to reflect on their own work and discuss similar elements in each other's work. It also allowed cartographers and artists to discuss the potential for collaboration in future research and development. To recognise the significance of this event, paper authors were invited to further develop their work and contribute chapters to this book. We believe that this book marks both a significant occasion in Vienna and a starting point for future collaborative efforts between artists and cartographers. The editors would like to acknowledge the work of Manuela Schmidt and Felix Ortag, who undertook the task of the design and layout of the chapters.

**Prose Works 1892** Walt Whitman, 2007-06 General Series Editors: Gay Wilson Allen and Sculley Bradley Originally published between 1961 and 1984, and now available in paperback for the first time, the critically acclaimed Collected Writings of Walt Whitman captures every facet of one of America's most important poets. The two-volume set of Prose Works 1892 proves that Whitman's prose has a quality no less original and distinctive than his poetry. Originally written and published as newspaper dispatches, Specimen Days is a collection of Whitman's on-the-spot notes of his experiences as a volunteer nurse in the hospitals in and around Washington during the Civil War. It contains, too, his nature studies, jotted down at the Stafford Farm near Camden during the years of convalescence after his paralysis in 1873. In these records of his observations, Whitman's love and devoted care of the individual soldiers overshadow his concern for the course of the war itself and his interest in its major personalities. He sees, above all else, the wounded men in front of him, and these he describes in the simple, direct language that unmistakably marks his poetry as well.
