MATLAB® Essentials William Bober,2017-09-11 All disciplines of science and engineering use numerical methods for complex problem analysis, due to the highly mathematical nature of the field. Analytical methods alone are unable to solve many complex problems engineering students and professionals confront. Introduction to MATLAB® Programming for Engineers and Scientists examines the basic elements of code writing, and describes MATLAB® methods for solving common engineering problems and applications across the range of engineering disciplines. The text uses a class-tested learning approach and accessible two-color page design to guide students from basic programming to the skills needed for future coursework and engineering practice.

Older Brother Mahir Guven, 2019-10-08 Prix Goncourt Winner: A “superb” novel of a Syrian immigrant in France and his two sons (The New York Times Book Review). Older Brother is the poignant story of a Franco-Syrian family whose father and two sons try to integrate themselves into a society that doesn’t offer them many opportunities. The father, an atheist communist who moved from Syria to France for his studies and stayed for love, has worked for decades driving a taxi to support his family. The eldest son is a driver for an app-based car service, which comically puts him at odds with his father, whose very livelihood is threatened by this new generation of disruptors. The younger son, shy and serious, works as a nurse in a French hospital. Jaded by the regular rejections he encounters in French society, he decides to join a Muslim humanitarian organization to help wounded civilians in the war in Syria. But when he stops sending news home, the silence begins to eat away at his father and brother, who wonder what his

real motivations were. And when the younger brother returns home, he has changed . . . "A masterpiece of a first novel." –The Guardian "A striking debut that reveals the breadth of emotional disconnection that prejudice can stoke within a family." –Kirkus Reviews

We Pierce Andrew Huebner, 2010-05-11 We Pierce is the story of two brothers: one brother, Smith, goes to war. A true believer, he leads a tank company into battle in Iraq during the Gulf War. There he learns about the true nature of patriotism, camaraderie, modern warfare and, finally, the soldiers' secret that some things learned over there are better not brought back home. Meanwhile Sam, an aspiring writer, as much a rebel as his older brother is a natural leader, is busy protesting against the war in Times Square in New York and on the Capitol steps in Washington, D.C. But he questions the strength of his own beliefs, while losing his own battle with alcohol and narcotics. Both brothers are haunted by the depth of the sacrifice at home incurred by their family's commitment to honor and duty on battlefields abroad. As he did with his first novel, American by Blood, acclaimed novelist Andrew Huebner draws on his family's long experience with violence and military service and renders a haunting novel of war. From the desert of Iraq to the Lower East Side of New York, We Pierce is about fighting for what you believe in, no matter what the cost to yourself or your brother.

The Bathwater Brigade Jefferson J Shupe, 2020-12-05 A Texas college town erupts with

racial accusations following the police shooting of an unarmed black man. Wanting the officer to get a fair trial, Jace Kartchner and a handful of friends secretly work to thwart the violent group, Zero Supremacy, from controlling public opinion. Deep in his fight against the Zeroes, Jace also discovers the Bathwater Brigade, a student club aimed at teaching new ways to think and to effectively interact with anyone about big ideas. A campus tradition for generations, the Brigade is now hanging on by a thread as college administration looks for any excuse to shut it down for good. Jace is challenged as never before as he questions his beliefs and behavior, struggles to keep his old and new friends, and finds that he has accidentally given college administration the excuse it has been waiting for.

Shantaram Gregory David Roberts, 2004-10-13 Based on his own extraordinary life, Gregory David Roberts' *Shantaram* is a mesmerizing novel about a man on the run who becomes entangled within the underworld of contemporary Bombay—the basis for the Apple + TV series starring Charlie Hunnam. "It took me a long time and most of the world to learn what I know about love and fate and the choices we make, but the heart of it came to me in an instant, while I was chained to a wall and being tortured." An escaped convict with a false passport, Lin flees maximum security prison in Australia for the teeming streets of Bombay, where he can disappear. Accompanied by his guide and faithful friend, Prabaker, the two enter the city's hidden society of beggars and gangsters, prostitutes and holy men, soldiers and actors, and

Indians and exiles from other countries, who seek in this remarkable place what they cannot find elsewhere. As a hunted man without a home, family, or identity, Lin searches for love and meaning while running a clinic in one of the city's poorest slums, and serving his apprenticeship in the dark arts of the Bombay mafia. The search leads him to war, prison torture, murder, and a series of enigmatic and bloody betrayals. The keys to unlock the mysteries and intrigues that bind Lin are held by two people. The first is Khader Khan: mafia godfather, criminal-philosopher-saint, and mentor to Lin in the underworld of the Golden City. The second is Karla: elusive, dangerous, and beautiful, whose passions are driven by secrets that torment her and yet give her a terrible power. Burning slums and five-star hotels, romantic love and prison agonies, criminal wars and Bollywood films, spiritual gurus and mujaheddin guerrillas—this huge novel has the world of human experience in its reach, and a passionate love for India at its heart.

Ivor Prickett: End of the Caliphate Ivor Prickett, 2019-03 This book is the result of over a year's work in 2016 and 2017 photographing the military campaign to reclaim Iraq's second largest city, Mosul, from ISIS. Working exclusively for the New York Times, Irish-born photographer Ivor Prickett (born 1983) was often embedded within Iraqi special forces troops as he documented both the fighting and its toll on the civilian population and urban landscape. The operation lasted nearly nine months, resulted in thousands of civilian deaths and ruined vast tracts of the

city. Involving some of the most brutal urban combat since World War II, the fall of Mosul was key to the downfall of the Islamic State: soon after, the remains of the so-called Caliphate quickly collapsed. Prickett focuses on the human struggles of conflict. Taken on the frontline, his pictures legitimately and compellingly record the experience of being caught in the crossfire, whether as a soldier or noncombatant. He furthermore captures postwar reality while attempting to reconstruct the final weeks of combat: the devastated city, including abandoned corpses of ISIS fighters, and, months later, families searching for missing loved ones and civilians returning to reclaim their homes and lives.

How to Do Nothing Jenny Odell, 2020-12-29 ** A New York Times Bestseller ** NAMED ONE OF THE BEST BOOKS OF THE YEAR BY: Time • The New Yorker • NPR • GQ • Elle • Vulture • Fortune • Boing Boing • The Irish Times • The New York Public Library • The Brooklyn Public Library A complex, smart and ambitious book that at first reads like a self-help manual, then blossoms into a wide-ranging political manifesto.—Jonah Engel Bromwich, *The New York Times Book Review* One of President Barack Obama's Favorite Books of 2019 Porchlight's Personal Development & Human Behavior Book of the Year In a world where addictive technology is designed to buy and sell our attention, and our value is determined by our 24/7 data productivity, it can seem impossible to escape. But in this inspiring field guide to dropping out of the attention economy, artist and critic Jenny Odell shows us how we can still win back our lives. Odell sees our attention as the most precious—and

overdrawn—resource we have. And we must actively and continuously choose how we use it. We might not spend it on things that capitalism has deemed important ... but once we can start paying a new kind of attention, she writes, we can undertake bolder forms of political action, reimagine humankind's role in the environment, and arrive at more meaningful understandings of happiness and progress. Far from the simple anti-technology screed, or the back-to-nature meditation we read so often, *How to do Nothing* is an action plan for thinking outside of capitalist narratives of efficiency and techno-determinism. Provocative, timely, and utterly persuasive, this book will change how you see your place in our world.

New Worlds, Old Ways Karen Lord, 2016-11-15 The Caribbean has a powerful, modern tradition of fantastic literature that's on full display in this anthology of original fiction by writers from Barbados, Trinidad and Tobago, and Bermuda...None of these writers is likely to be familiar to American audiences, but all are worth getting to know. Readers who love the writing of Nalo Hopkinson, Tobias S. Buckell, and Lord herself will savor this volume. --Publishers Weekly, Starred review *New Worlds, Old Ways* fulfills its promise of arriving at a recognizable genre of Caribbean speculative fiction. Prior to this collection we have not had any reader-friendly approaches that have directly addressed the genre of Caribbean speculative fiction. Lord, and the various writers in this collection, have given readers access to a hitherto unexplored genre, one that differentiates as well as connects to the

treasure trove of Caribbean literature. The collection is a boon for scholars and reading aficionados of the Speculative Fiction genre. And as the editor states, true to its world, *New Worlds, Old Ways* offers both depth and delight without disappointment. It suggests that if one looks closely enough, they will find that Caribbean fiction has always been speculative. -- SX Salon Do not be misled by the speculative in the title. Although there may be robots and fantastical creatures, these common symbols are tools to frame the familiar from fresh perspectives. Here you will find the recent past and ongoing present of government and society with curfews, crime, and corruption; the universal themes of family, growth and death, love and hate; the struggle to thrive when power is capricious and revenge too bittersweet. Here too is the passage of everything—old ways, places, peoples, and ourselves—leaving nothing behind but memories, histories, and stories. This anthology speaks to the fragility of our Caribbean home, but reminds the reader that although home may be vulnerable, it is also beautifully resilient. The voice of our literature declares that in spite of disasters, this people and this place shall not be wholly destroyed. Read for delight, then read for depth, and you will not be disappointed. Brand-new stories by: Tammi Browne-Bannister, Summer Edward, Portia Subran, Brandon O'Brien, Kevin Jared Hosein, Richard B. Lynch, Elizabeth J. Jones, Damion Wilson, Brian Franklin, Ararimeh Aiyejina, and H.K. Williams. *New Worlds, Old Ways* is the third publication of Peekash Press, an imprint of

Akashic Books and Peepal Tree Press committed to supporting the emergence of new Caribbean writing, and as part of the CaribLit project.

Five Feet Apart Rachael Lippincott, 2019-02-05
Now a major motion picture starring Cole Sprouse and Haley Lu Richardson! Goodreads Choice Winner, Best Young Adult Fiction of 2019 In this #1 New York Times bestselling novel that's perfect for fans of John Green's *The Fault in Our Stars*, two teens fall in love with just one minor complication—they can't get within a few feet of each other without risking their lives. Can you love someone you can never touch? Stella Grant likes to be in control—even though her totally out of control lungs have sent her in and out of the hospital most of her life. At this point, what Stella needs to control most is keeping herself away from anyone or anything that might pass along an infection and jeopardize the possibility of a lung transplant. Six feet apart. No exceptions. The only thing Will Newman wants to be in control of is getting out of this hospital. He couldn't care less about his treatments, or a fancy new clinical drug trial. Soon, he'll turn eighteen and then he'll be able to unplug all these machines and actually go see the world, not just its hospitals. Will's exactly what Stella needs to stay away from. If he so much as breathes on Stella she could lose her spot on the transplant list. Either one of them could die. The only way to stay alive is to stay apart. But suddenly six feet doesn't feel like safety. It feels like punishment. What if they could steal back just a little bit of the space their broken lungs have

stolen from them? Would five feet apart really be so dangerous if it stops their hearts from breaking too?

Daisy Buchanan's Daughter Tom Carson, 2011 She was born during the Jazz Age and grew up in Paris and the American Midwest after her father's death on the polo field and her mother's later suicide. As a young war reporter, she waded ashore on Omaha Beach and witnessed the liberation of Dachau. She spent the 1950s hobnobbing in Hollywood with Marlene Dietrich and Gene Kelly. She went to West Africa as an ambassador's wife as the New Frontier dawned. She comforted a distraught Lyndon Baines Johnson in Washington, DC, as the Vietnam war turned into a quagmire. And today? Today, it's June 6, 2006: Pamela Buchanan Murphy Gerson Cadwallier's 86th birthday. With some asperity, she's waiting for a congratulatory phone call from the president of the United States. Brother, is he ever going to get a piece of her mind--Publisher description.

Siriously Delicious Daly, Siri, 2018-04-17 Popular food blogger and TODAY food contributor Siri Daly shares her collection of cooking triumphs and mistakes, and delicious recipes for people who love food. Like many of us trying to feed our families, Siri Daly is a very busy cook. As a mother of three under the age of 10, TODAY food contributor, and wife of a bicoastal traveling man, Carson Daly (The Voice host and TODAY show co-host), Siri often doesn't know which end is up. Siri is not a serious cook, but she is serious about her food—and what she serves her family, friends and loved ones. Siriously

Delicious is organized by how a busy mom gets through her day—breakfast, lunch, happy hour (her favorite!), dinner with sides, and dessert. Siri's recipes are created with three goals in mind: to create food that is delicious and satisfying for both kids and adults, to prepare dishes packed with traditionally comforting flavors and ingredients (think cheese, avocado, chocolate!), and to make each recipe approachable for even a novice cook—no trips to specialty food stores are required. Whether you're looking for easy-to-cook recipes your kids will devour, such as mouth-watering Bacon Pizzadillas, or you're dying to relax with a Spicy Grapefruit Cocktail when the days feel too long, this cookbook has a recipe for every occasion. Siri also includes extra tips to make your time in the kitchen easier: Siriously Simple offers a hack or time-saving tip, Siriously Sinful details how to make something even more indulgent, Siriously Nutritious explains how to make something healthier, and Siriously Mini advises how to satisfy the kiddos. Filled with Siri's often hilarious anecdotes, Siriously Delicious will not only feed your family's bellies but hopefully deliver a belly laugh along the way.
