As winter approaches, the three must quickly find common ground and come to an understanding—before the tide goes out. This drama hums with dark humor and powerful emotion.

Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." *Warhol-isms* separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.

What if There's Nothing Wrong? Alison J. Kay, PhD, 2012-11-27 Have you been feeling like life has become less reliable and stable? Are you looking for more hope, health and calm in your life? You're not alone. There are external factors causing these feelings. You will be completely unable to remain the same as this book weaves you through the world as we have known it, into a world where anything is possible! No stone is left unturned through this thoroughly researched exploration of mostly unexamined factors inherent to Western society that set us up to feel more uncomfortable at this time in the West, particularly in the U.S., as we undergo a macroshift globally. Written at the tail end of her ten years living and working in Asia to understand why it seems now that we're less equipped to create vibrantly healthy, happy lives in the West, Alison J. Kay, PhD, documents an eye-opening, sometimes humorous, sometimes raw contrast of modern, globalized, Western culture with Asian. Feel the freedom as she gently guides you to more ease!

New Girl Law Anne Elizabeth Moore, 2014-11-29 The Cambodian Chbap Srei is a 17th-century book that intended to establish a code of conduct for young women. Staunchly traditional, but repressive and frustrating, the first

large group of young women in Cambodia decide to rewrite it with Moore. The year-long process culminates in a grand discussion of human rights and gender equity, and a hand-bound book for all participants. Tragically, the completed book was banned and censored in both Cambodia and the U.S. But what these bold young women learn next about when they are allowed to speak, and to whom, is chilling.

100 Words To Make You Sound Smart American Heritage Dictionaries, 2006-10-04 Find the right words to make a point, seal the deal, or just keep folks listening! Chosen by the editors of the American Heritage Dictionaries, these words can help anyone who wants to be a more compelling communicator—as a worker, consumer, advocate, friend, dinner companion, or even romantic prospect. The book includes a colorful variety of words, including handy words of just one syllable (such as glib) and words derived from the names of famous people (such as Freudian slip and Machiavellian). There are expressions from popular culture (Catch-22) and words that date back to classical civilization (spartan and stoic). Each word is clearly defined and shown in context with quotations from magazines, newspapers, broadcast media, movies, and television. For many words, quotations from distinguished authors and speakers are also given and word histories are explained. *100 Words to Make You Sound Smart* provides an enjoyable way to communicate more effectively, distinctively, and articulately.

Tracking Wonder Jeffrey Davis, 2021-11-16 Discover how the lost art of wonder can help you cultivate greater creativity, resilience, meaning, and joy as you bring your greatest contributions to life. Beyond grit, focus, and 10,000 hours lies a surprising advantage that all creatives have—wonder. Far from child's play, wonder is the one radical quality that has led exemplary people from all walks of life to move toward the fruition of their deepest dreams and wildest endeavors—and it can do so for you, too. “Wonder is a quiet disruptor of unseen biases,” writes Jeffrey Davis. “It dissolves our habitual ways of seeing and thinking so that we may glimpse anew the beauty of what is real, true, and possible.” Rich with wisdom, inspiring stories, and practical tools, *Tracking Wonder* invites us to explore how the lost art of wonder can inspire a life of greater joy, possibility, and purpose. You'll discover: The six facets of wonder—key qualities to help you cultivate the art of wonder in your work, relationships, and life How wonder can help us fertilize creativity, sustain the motivation to pursue big ideas, navigate uncertainty and crises, deepen our relationships, and more The biases against wonder—moving beyond societal and internalized resistance to our inherent gifts Why experiencing wonder isn't really about achieving goals—though that happens—but about how we live each day Inspiring stories of people whose experiences of wonder helped them move through the unthinkable to create extraordinary lives Practical exercises, tools, and reflections to help you begin your own practice of tracking wonder A refreshing counter-voice to the exhausting narrative hyper-productivity, *Tracking Wonder* is a welcome guide for experiencing more meaning and joy in the present moment as you bring your greatest contributions to life.

From Exclusion to Embrace World Vision International, 2016-05-16

The Return of the Mother Andrew Harvey, 2013-08-20 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, *The Return of the Mother* is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. *The Return of the Mother* offers a radical new

perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. The Return of the Mother is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.

Best of Enemies Rainier George Weiner, 2015-05-07 Suppose fate placed you on an inflatable life-raft in the middle of the freezing Atlantic Ocean along with your most bitter enemy contrivable? Would the emotions of hatred, revenge and love of country trump the desire to survive, if killing that enemy ensured your own demise? Captain Mat Richardson, USN, and Emil Gluckler, a German submarine commander, experience that option during the 2nd World War. Mat, captain of a small destroyer, and Emil, commander of an attacking submarine, become stranded on a life-raft after each of the combatant crafts sink each other during a fierce naval engagement. They subsequently experience 38 harrowing days striving for survival. If nothing else, this required the ultimate in mutual cooperation. If the two survived, would the events have a lasting effect on their relationship? Or, if one had the opportunity to kill the other at a later date in a new war-time circumstance, would he do so, or not?
