Ohio. Secretary of State

Human Portage and Colonial State Formation in German East Africa, 1880s–1914 Andreas Greiner, 2022-11-07 This book explores the role of caravan transport and human portage in the colony of German East Africa (present-day mainland Tanzania, Rwanda, and Burundi). With caravan mobility being of pivotal importance to colonial rule during the late nineteenth and early twentieth centuries, the exploration of vernacular transport and its governance during this period sheds new light on the trajectories of colonial statehood. The author addresses key questions such as the African resilience to colonial interventions, the issue of labor recruitment, and the volatility of colonial infrastructure. This book unveils a fundamental contradiction in the way that German administrators dealt with precolonial modes of transport in East Africa. While colonizers championed for the abolishment of caravan transport, they strongly depended on porters in the absence of pack animals or railways. To bring this contradiction to the fore, the author studies the shifting role of caravans in East Africa during the era of 'high imperialism.' Uncovering the extent to which porters and caravan entrepreneurs challenged and shaped colonial policymaking, this book provides an insightful read for historians studying German Empire and African history, as well as those interested in the history of transport and infrastructure.

Mood Disorders and Substance Use Disorder: A Complex Comorbidity Susan B. Quello, 2008-05 Mood disorders (MD), including depression & bipolar disorders, are the most common psychiatric comorbidities among patients with substance abuse (SA) disorders. Treating patients; co-occurring MD may reduce their substance craving & enhance their overall outcomes. A staged screening &

assessment can ease the diagnostic challenge of distinguishing symptoms of affective MD from manifestations of SA intoxication & withdrawal. Treatment should maximize the use of psychotherapeutic interventions & give first consideration to medications proven effective in the context of co-occurring SA. Expanded commun. & collab. between SA & mental health providers is crucial to improving outcomes for patients with these difficult disorders. Illus
