**You're Doing it Wrong!** Bethany L. Johnson, Margaret M. Quinlan, 2019-04-19 New mothers face a barrage of confounding decisions during the life-cycle of early motherhood which includes... Should they change their diet or mindset to conceive? Exercise while pregnant? Should they opt for a home birth or head for a hospital? Whatever they “choose,” they will be sure to find plenty of medical expertise from health practitioners to social media “influencers” telling them that they’re making a series of mistakes. As intersectional feminists with two small children each, Bethany L. Johnson and Margaret M. Quinlan draw from their own experiences as well as stories from a range of caretakers throughout. *You’re Doing it Wrong!* investigates the storied history of mothering advice in the media, from the newspapers, magazines, doctors’ records and personal papers of the nineteenth-century to today’s websites, Facebook groups, and Instagram feeds. Johnson and Quinlan find surprising parallels between today’s mothering experts and their Victorian counterparts, but they also explore how social media has placed unprecedented pressures on new mothers, even while it may function as social support for some. They further examine the contentious construction of prenatal and baby care expertise itself, as individuals such as everyone from medical professionals to experienced moms have competed to have their expertise acknowledged in the public sphere. Exploring potential health crises from infertility treatments to “better babies” milestones, *You’re Doing it Wrong!* provides a provocative look at historical and contemporary medical expertise during conception, pregnancy, childbirth, postpartum, and infant care stages.

**Self-Tracking, Health and Medicine** Deborah Lupton, 2017-10-02 Self-tracking practices are part of many health and medical domains. The introduction of digital technologies such as smartphones, tablet computers, apps, social media platforms, dedicated patient support sites and wireless devices for medical monitoring has contributed to the expansion of opportunities for people to engage in self-tracking of their bodies and health and illness states. The contributors to this book cover a range of self-tracking techniques, contexts and geographical locations: fitness tracking using the wearable Fitbit device in the UK; English adolescent girls’ use of health and fitness apps; stress and recovery monitoring software and devices in a group of healthy Finns; self-monitoring by young Australian illicit drug users; an Italian diabetes self-care program using an app and web-based software; and ‘show-and-tell’ videos uploaded to the Quantified Self website about people’s experiences of self-tracking. Major themes running across the collection include the emphasis on self-responsibility and self-management on which self-tracking rationales and devices tend to rely; the biopedagogical function of self-tracking (teaching people about how to be both healthy and productive biocitizens); and the reproduction of social norms and moral meanings concerning health states and embodiment (good health can be achieved through self-tracking, while illness can be avoided or better managed). This book was originally published as a special issue of the *Health Sociology Review*.

**Taking Charge of Your Fertility** Toni Weschler, 2015-07-14 This new edition for the twentieth anniversary of the groundbreaking national bestseller provides all the information you need to monitor your menstrual cycle—along with updated information on the latest reproductive technologies Are you unhappy with your current method of birth control? **The Hormone Diaries** Hannah Witton, 2019-06-11 When Hannah Witton started documenting her journey coming off the pill and re-getting her period, she wasn't anticipating the reaction, from people of all ages, that talking about it would bring. It exposed a glaring gap - the resources and the spaces to talk honestly about periods just aren't there. And with more and more research showing that your period and your hormones can affect literally every area of your life, this is a problem. *The Hormone Diaries* draws on both Hannah's own experiences and, through crowdsourcing on her social media platform, those of her fans too. It looks at the cultural differences in how periods are treated around the world and includes space for readers to write about their own experiences, creating the definitive period self-help book 50% of the world has been waiting for.

**Psychology and the Challenges of Life** Spencer A. Rathus, Jeffrey S. Nevid, 2019-09-18 In the 14th edition of this market leading title, *Psychology and the Challenges of Life: Adjustment and Growth*, authors Spencer Rathus and Jeffrey Nevid continue to reflect on the many ways in which psychology relates to the lives we live and the important roles that psychology can play in helping us adjust to the many challenges we face in our daily lives. Throughout the text, the authors explore applications of psychological concepts and principles in meeting life challenges such as managing time, developing self-identity, building and maintaining relationships, adopting healthier lifestyles, coping with stress, and dealing with emotional problems and psychological disorders. The new edition has been thoroughly updated to meet the needs and concerns of a new generation of students. It provides additional information on psychology in the digital age, social media, the current Opioid crisis, as well as offering greater coverage of matters concerning sexuality and gender, and sexual orientation.

**Sweetening the Pill** Holy Grigg-Spall, 2013-10-07 Millions of healthy women take a powerful medication every day from their mid-teens to menopause - the Pill - but few know how this drug works or the potential side effects. Contrary to cultural myth, the birth-control pill impacts on every organ and function of the body, and yet most women do not even think of it as a drug. Depression, anxiety, paranoia, rage, panic attacks - just a few of the effects of the Pill on half of the over 80% of women who pop these tablets during their lifetimes. When the Pill was released, it was thought that women would not submit to taking a medication each day when they were not sick. Now the Pill is making women sick. However, there are a growing number of women looking for non-hormonal alternatives for preventing pregnancy. In a bid to spark the backlash against hormonal contraceptives, this book asks: Why can't we criticize the Pill? ,

**Your Fertile Years** Joyce Harper, 2021-04-29 'Essential reading' Professor Kypros Nicolaides 'Fills an important gap in understanding' Professor Robert Winston How well do you really know your body? How easy do you think it will be for you to get pregnant - or NOT to get pregnant? You've probably never really been educated about your reproductive years - perhaps you learnt everything you know from friends, or from the media, or online. You might be ready for a baby now; or, like so many other women, you might want to delay the birth of your first child while you establish your career. Perhaps you're thinking about freezing your eggs.

Professor Joyce Harper is an internationally recognized expert on female fertility and fertility education, and in 12 chapters she covers the full scope of your reproductive years, from your first period to menopausal symptoms. Her straightforward, scientifically based advice will give you all the information you need to make informed decisions about your reproductive choices. Only when you really understand your menstrual cycle works can you optimise your lifestyle to get pregnant successfully - while being properly aware of how and when your fertility will decline. Your Fertile Years answers all your questions about things like egg freezing and IVF, and debunks not only the myths surrounding fertility treatment, but also the misinformation and scare stories that surround conception and pregnancy, including the bottom line on supplements, diet and holistic therapies. A shining beacon in the murky fertility landscape, this book will accompany you through your fertile years, giving you the guidance you need to make decisions that work for you, your family, your career and your body.

**Exploring Health Psychology** Spencer A. Rathus, Jeffrey S. Nevid, 2021-03-09 Exploring Health Psychology provides comprehensive yet student-friendly coverage of both traditional topics in the field and important contemporary issues relating to reproductive, sexual, and psychological health. Using an informal, sometimes humorous narrative, the authors engage students of all interest levels, abilities, and learning styles by emphasizing the application of health and wellbeing psychology in their daily lives. Balancing depth and accessibility, each chapter describes the body systems relevant to a particular topic, incorporates up-to-date information and research, and contains relatable examples, real-world applications, compelling discussion and review questions, personal stories and vignettes, a running glossary, and more. Broad in scope, Exploring Health Psychology examines the interactions between biological, psychological, and sociocultural factors in psychological disorders and discusses their psychological and medical treatment. Critical psychological health issues such as anxiety and depression, the health of sexual and gender minorities, and the psychological dangers and pitfalls of the digital age are addressed to meet the needs of today's students. An array of active learning features based on the SQ4R pedagogy—Survey, Question, Read, Recite, Reflect, and Review—enables students to take an active role in the learning process, develop effective study habits, strengthen critical and scientific thinking, and comprehend, retain, and apply the material.

**Menstruation Matters** Bridget J. Crawford, Emily Gold Waldman, 2022-06-21 Explores the burgeoning menstrual advocacy movement and analyzes how law should evolve to take menstruation into account. Approximately half the population menstruates for a large portion of their lives, but the law is mostly silent about the topic. Until recently, most people would have said that periods are private matters not to be discussed in public. But the last few years have seen a new willingness among advocates and allies of all ages to speak openly about periods. Slowly around the globe, people are recognizing the basic fundamental human right to address menstruation in a safe and affordable way, free of stigma, shame, or barriers to access. Menstruation Matters explores the role of law in this movement. It asks what the law currently says about menstruation (spoiler alert: not much) and provides a roadmap for legal reform that can move society closer to a world where no one is held back or disadvantaged by menstruation. Bridget J. Crawford and Emily Gold Waldman examine these issues in a wide range of contexts, from schools to workplaces to prisons to tax policies and more. Ultimately, they seek to transform both law and society so that menstruation is no longer an obstacle to full participation in all aspects of public and private life.

**How To Choose The Sex Of Your Baby** Landrum Shettles, D. Rorvik, 2013-02-01 thousands have asked the question. His answer is an unhesitating 'Yes!' In this completely updated and revised edition of the international best-seller, Dr Shettles shows you how to raise the chances of having a child of the sex you want from 50 per cent - if you do nothing at all - to at least 75 per cent if you follow his methods. Some researchers have reported success rates, using Dr Shettles' techniques of approximately 90 per cent. The revised edition includes new commentary on previous editions, a new introductory chapter with summary update on results and on new competition in the field, and a commentary on other 'high tech' sex-selection methodologies including flow cytometry and PGD (pre-implantation genetic diagnosis used in conjunction with IVF). Also includes new testimonials and letters from the many thousands of people who have used the Shettles method - with an 80 per cent reporting success. If you are one of the many couples who are worried about whether their next child will be a boy or a girl, here is what you need to know to be sure the odds are in your favour.

**The Routledge Handbook of Religion, Medicine, and Health** Dorothea Lüddeckens, Philipp Hetmanczyk, Pamela E. Klassen, Justin B. Stein, 2021-11-24 The relationships between religion, spirituality, health, biomedical institutions, complementary, and alternative healing systems are widely discussed today. While many of these debates revolve around the biomedical legitimacy of religious modes of healing, the market for them continues to grow. The Routledge Handbook of Religion, Medicine, and Health is an outstanding reference source to the key topics, problems, and debates in this exciting subject and is the first collection of its kind. Comprising over thirty-five chapters by a team of international contributors, the Handbook is divided into five parts: Healing practices with religious roots and frames Religious actors in and around the medical field Organizing infrastructures of religion and medicine: pluralism and competition Boundary-making between religion and medicine Religion and epidemics Within these sections, central issues, debates and problems are examined, including health and healing, religiosity, spirituality, biomedicine, medicalization, complementary medicine, medical therapy, efficacy, agency, and the nexus of body, mind, and spirit. The Routledge Handbook of Religion, Medicine, and Health is essential reading for students and researchers in religious studies. The Handbook will also be very useful for those in related fields, such as sociology, anthropology, and medicine.

**What Will I Do with My Love Today?** Kristin Chenoweth, 2022-03-08 Broadway and screen star Kristin Chenoweth's whimsical adventure about adoption reminds kids they have an abundance of love and kindness to share, whether adopting a pet or expanding their family. What Will I Do with My Love Today? is a sweet adventure picture book by celebrity Kristin Chenoweth, known for her role in Broadway's Wicked and her Emmy Award-winning performance in the ABC hit series Pushing Daisies. Join young Kristi Dawn as she joyfully walks around New York City, sharing her love through acts of generosity—from singing in the church choir to helping a neighbor weed her garden. When she meets a lonely dog looking for a home, Kristi shows that adoption is one of the most loving and life-changing gifts of all. Through delightful rhyme and examples of child-friendly (and pup-friendly!) acts of generosity and kindness, Chenoweth shares the powerful message that the more love you give, the more love you get back! This read-aloud picture book is perfect for kids ages 4 to 8, tells a meaningful story alongside playful illustrations from Maine Diaz, is a great gift for baby showers,

adoption parties, soon-to-be older siblings, and dog-loving kids, is a meaningful way to celebrate Random Acts of Kindness Day, National Dog Day, and National Adopt a Shelter Pet Day, and is a fun gift for fans of Kristin Chenoweth. Inspired by Chenoweth's inspiring, love-filled message, your kids will jump out of bed every morning and say, What will I do with my love today?

**Self-Tracking** Gina Neff,Dawn Nafus,2016-06-24 What happens when people turn their everyday experience into data: an introduction to the essential ideas and key challenges of self-tracking. People keep track. In the eighteenth century, Benjamin Franklin kept charts of time spent and virtues lived up to. Today, people use technology to self-track: hours slept, steps taken, calories consumed, medications administered. Ninety million wearable sensors were shipped in 2014 to help us gather data about our lives. This book examines how people record, analyze, and reflect on this data, looking at the tools they use and the communities they become part of. Gina Neff and Dawn Nafus describe what happens when people turn their everyday experience—in particular, health and wellness-related experience—into data, and offer an introduction to the essential ideas and key challenges of using these technologies. They consider self-tracking as a social and cultural phenomenon, describing not only the use of data as a kind of mirror of the self but also how this enables people to connect to, and learn from, others. Neff and Nafus consider what's at stake: who wants our data and why; the practices of serious self-tracking enthusiasts; the design of commercial self-tracking technology; and how self-tracking can fill gaps in the healthcare system. Today, no one can lead an entirely untracked life. Neff and Nafus show us how to use data in a way that empowers and educates.
