Today, video games play a gigantic role in our culture and none of this would have been possible without people like Shigeru Miyamoto, the creative mastermind that turned a failed business venture into the game that eventually inspired him to build Donkey Kong and Mario Bros., or Donna Bailey, who created the arcade video game sensation Centipede. With full-color illustrations and lively text, and chock-full of interesting facts, Awesome Minds: Video Game Creators tells the stories of these amazing men and women who turned a small hobby into a multimillion-dollar industry that changed the way we play and interact, from our living rooms to the arcades, on our computers to our handheld devices. Awesome Minds: Video Game Creators is the perfect read for those with creative spirits, curious minds, and a love of technology and video games.

*Television Cartoon Shows* Hal Erickson,1995 In 1949 the first made-for-television cartoon series debuted on a major network. Tele-Comics embraced the popular cliffhanger serial genre, using nonmoving comic strip panels and a handful of radio actors to produce a show at a fraction of the cost accrued by a live show. Despite the success of Tele-Comics and a few other such shows, television cartoons languished until 1954 when Walt Disney produced Disneyland. From such pioneers as Tele-Comics and Crusader Rabbit to modern fare such as X-Men and Beavis and Butthead, this is the first reference book to detail animated cartoons made exclusively for television from 1949 through 1993. Each entry includes the shows title, network, studios and full production information when available. An essay blending plot description, critical commentary, and background information is also provided for each cartoon. A discussion of the voice artist concludes the work.
