John Moore John Moore,2009 Industrial landscape paintings by John Moore executed over the last three decades focus on sites from Conneaut, Ohio, to Waterville, Maine, including Coatesville, Pennsylvania, a locale that has inspired such American Modernists as Charles Demuth and Ralston Crawford. Moore has revisited places in Coatesville and throughout the rustbelt that he painted twenty years ago, and his most recent paintings depict changes that have occurred there since. One of his subjects, Paradise, Pennsylvania, 13 miles west of Coatesville, is Amish farmland, a place that is the rural antithesis of industrial life in America. Moore is often described as one of the one of the leading realist painters of his generation, and many of his paintings resemble places where he grew up. While the images appear immediately recognizable, the paintings are, in fact, partial composites, based on specific sites but also incorporating formal concerns and oral history as told by individuals with ties to the regions. The Thirteen Miles from Paradise catalogue is drawn from the exhibition of the same name at the Arthur Ross Gallery of the University of Pennsylvania, where Moore has been Gutman Professor of Fine Arts and chair of the Department of Fine Arts since 1999. The catalogue includes contributions by Alexi Worth, a senior critic in the Department of Fine Arts at the University of Pennsylvania; and by Debra Bricker Balken, an independent curator and writer.

John La Farge in Paradise James L. Yarnall,1995

The Believer Ralph Blumenthal,2021 The Believer is the weird and chilling true story of Dr. John Mack. This eminent Harvard psychiatrist and Pulitzer Prize-winning biographer risked his career to investigate the phenomenon of human encounters with aliens and to give credibility to the stupefying tales shared by people who were utterly convinced they had happened. Nothing in Mack's four decades of psychiatry had prepared him for the otherworldly accounts of a cross section of humanity including young children who reported being taken against their wills by alien beings. Over the course of his career his interest in alien abduction grew from curiosity to wonder, ultimately developing into a limitless, unwavering passion. Based on exclusive access to Mack's archives, journals, and psychiatric notes and interviews with his family and closest associates, The Believer reveals the life and work of a man who explored the deepest of scientific conundrums and further leads us to the hidden dimensions and alternate realities that captivated Mack until the end of his life.

Helmet for My Pillow Robert Leckie,2003-08-13 To be a Marine is to subscribe to the idea that nothing in war is impossible—including the writing of books. Now, after years have passed and the jungle has reclaimed the scenes, comes this engaging story of a young man's personal adventures with the vast and ultimately overwhelming forces that defeated him. This is an old story, but it is told in a fresh and lovely voice. Robert Leckie writes with charm, with personal humility, with humor, with a rare gift for capturing all that is human in the most inhuman of man's activities. He makes no bones about it—the war is what happened to him. The point of view is not the grand strategy of victory, but the immediate tactic of personal survival. By turns a boot, a machine gunner on Guadalcanal, a liberty hound in Australia, an intelligence scout on Peleliu—briefly a self-styled brig rat subsisting on bread and water and finally a casualty—Private Leckie fought the enlisted man's battle. *Helmet for My Pillow* is the sort of book a man might write for his children, saying, in effect: This is the way I remember it. The time I killed three Japs while on patrol. The day I went AWOL. The way it is for a man to die. And these are the men I knew—Captain Dreadnought, Lieutenant Commando, Pvt. Chuckler, Major Major-Share, Filthy Fred—some of them heroes, some cowards, some living, some dead but all inexorably part of my life. For Mr. Leckie writes of his companions as though they might be characters in a morality play—as, indeed, they were. Like most Marines, he both loved and hated the Corps—loved it for the arrogance with which it relegated to itself the tough assignments; hated it for the sacrificial demands that were made on the individual soldier. There is no sentimentalism here, no gratuitous brutality; in the end, of course, it is a success story, for the irony of war is that injustice is not incompatible with victory. And how do you know when you've won? Mr. Leckie's answer deserves quoting: An officer's mess is one of the surest barometers of military success. So long as the officers continue to pig it with the men, there is danger of defeat. But once the officer's mess appears—raised almost on the bodies of the foe, contrived of sticks or pieces of canvas or perhaps only an imaginary line like a taboo—once this appears, and caste is restored, we know that victory is ours. —THE NEW YORK TIMES

The Left Hand of Darkness Ursula K. Le Guin,1987-03-15 50TH ANNIVERSARY EDITION—WITH A NEW INTRODUCTION BY DAVID MITCHELL AND A NEW AFTERWORD BY CHARLIE JANE ANDERS Ursula K. Le Guin's groundbreaking work of science fiction—winner of the Hugo and Nebula Awards. A lone human ambassador is sent to the icebound planet of Winter, a world without sexual prejudice, where the inhabitants' gender is fluid. His goal is to facilitate Winter's inclusion in a growing intergalactic civilization. But to do so he must bridge the gulf between his own views and those of the strange, intriguing culture he encounters... Embracing the aspects of psychology, society, and human emotion on an alien world, *The Left Hand of Darkness* stands as a landmark achievement in the annals of intellectual science fiction.

Dark Ecology Timothy Morton,2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in *Blade Runner* (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature,

ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

Unexpected Journeys Janet A. Kaplan, Remedios Varo, 1988 The adventures that fill the strange and wonderful paintings by Remedios Varo (1908-1963) reflect the physical and psychological journeys of her own tumultuous life. Raised in a strict Spanish family and rigorously trained in academic art, Varo first found escape in Barcelona's bohemian avant-garde. After fleeing the Spanish Civil War with the poet Benjamin Péret, later her husband, she entered the inner circle of the Surrealists in Paris. Forced to flee again by the Nazis, she and Péret faced a year of mounting danger in Marseilles before securing passage to Mexico. Finding welcome refuge in Mexico City, where she remained until her death, Varo produced the extraordinary paintings for which she gained renown. Janet A. Kaplan's vivid chronicle, the first on the subject in English, weaves Varo's life with the artist's exquisite work. Painted with a jewellike palette and old-master precision, Varo's intimate tableaux, rich with details of women's experience, tell fantasy tales of alchem, science, mysticism, and magic. Fifty color reproductions capture the wit and beauty of her major paintings; numerous black-and-white illustrations document other works and portray the compelling artist with her circle of lifelong friends and admirers. The book is further enlivened by her own voice, conveyed in hilarious letters and surreal stories, published here for the first time. An instant celebrity in Mexico--where her retrospectives have drawn record crowds--Varo has recently found enthusiastic audiences in Europe and the Americas. A woman of intense magnetism and powerful imagination, Varo has been little known outside Mexico. The fascinating story of her life and dazzling intricacy of her art will prove a revelation.--Front flap of book jacket.
