Heros von Borcke

Remote Pairing Joe Kutner,2013-12-02 You've heard about pair programming's benefits: fewer bugs, improved skills, and faster delivery. But what happens when you want to pair with someone in another city, country, or even hemisphere? With the right tools, you won't have to relocate to refactor. In this book, you'll learn techniques used by the most productive remote programmers in the industry to pair with anyone on the globe on any kind of project. You'll use collaborative editors, screen sharing, secure networking, and virtualization to create a remote pairing environment that feels as if your partner is sitting right next to you.

Essentials of Energy Technology Jochen Fricke,Walter L. Borst,2013-12-19 An in-depth understanding of energy technology, sources, conversion, storage, transport and conservation is crucial for developing a sustainable and economically viable energy infrastructure. This need, for example, is addressed in university courses with a special focus on the energy mix of renewable and depletable energy resources. Energy makes our lives comfortable, and the existence of amenities such as heaters, cars, warm water, household appliances and electrical light is characteristic for a developed economy. Supplying the industrial or individual energy consumer with energy 24 hours a day is a non-trivial challenge, especially in times where the energy is coming from very diverse resources such as oil, gas, nuclear fuels, wind, sun, or waves. This book gives physics, chemistry, engineering, and materials science students insights in the basics of energy and energy technology. It was developed along a successful course for advanced bachelor or graduate students and is written in a didactic style. The problems and solutions at the end of each chapter are ideal for exams and make self-study easy. Topics covered include energy from fossil and nuclear fuels, renewable sources, energy transport, storage, and conservation.

Memories of the Confederate War for Independence Heros von Borcke,2019-12-18 Memoirs of the Confederate War for Independence is one of the best accounts of the American Civil War written from the Confederate point of view. The book was written by Heros Von Borcke, a Prussian cavalry officer, who served in service in the cavalry of the army of Northern Virginia. He was a direct witness and a participant of many great battles of the American Civil War (Seven Pines, the Seven Days, Fredericksburg, Chancellorsville and Brandy Station). Borcke's participation in the war ended in the early part of the Gettysburg campaign, when he was wounded.
