Al Qaeda's Global Crisis V. G. Julie Rajan, 2015-01-30 This book focuses on the crises facing Al Qaeda and how the mass killing of Muslims is challenging its credibility as a leader among Islamist jihadist organizations. The book argues that these crises are directly related to Al Qaeda's affiliation with the extreme violence employed against Muslims in Iraq, Syria, Afghanistan and Pakistan in the decade since 9/11. Al Qaeda's public and private responses to this violence differ greatly. While in public Al Qaeda has justified those attacks declaring that, for the establishment of a state of 'true believers', they are a necessary evil, in private Al Qaeda has been advising its local affiliates to refrain from killing Muslims. To better understand the crises facing Al Qaeda, the book explores the development of Central Al Qaeda's complex relationship with radical (mis)appropriations and manifestations of takfir, which allows one Muslim to declare another an unbeliever, and its unique relationship with each of its affiliates in Iraq, Syria, Afghanistan and Pakistan. The author then goes on to consider how the prominence of takfir is contributing to the deteriorating security in those countries and how this is affecting Al Qaeda's credibility as an Islamist terror organization. The book concludes by considering the long-term viability of Al Qaeda and how its demise could allow the rise of the even more radical, violent Islamic State and the implications this has for the future security of the Middle East, North Africa and Central/South Asia. This book will be of much interest to students of political violence and terrorism, Islamism, global security and IR.

Global Security Watch-Pakistan Syed Farooq Hasnat, 2011-05-26 This book details the domestic security concerns of Pakistan, encompassing the dangers of insurgencies, the effects of religious extremism and terrorism, and the malfunction of its political institutions. In recent years Pakistan has emerged as a major security concern for the United States. The acts of terrorism that originate in Pakistan and its culture of extremism cause serious apprehension for the international community as well. Pakistan's ability to combat extremism within its borders and its policy towards Afghanistan will also play a large role in determining the success of U.S. military actions in Afghanistan. This volume will be the first to deal with a variety of emerging security issues of the country and their regional and international implications. This volume examines the issues of utmost importance for Pakistan's stability and strategic balance, and explains their significance from the global perspective. Each chapter in this book addresses specific security challenges of Pakistan, both domestic and international.

Pakistan in Regional and Global Politics Rajshree Jetly, 2012-04-27 Pakistan is at currently at the centre of regional and global geo-strategic issues as a frontline state in the global war on terrorism. It is seeking to project itself as a modern Islamic state that can engage both the Islamic bloc and the western world in the post 9/11 era. This book addresses some questions under the broad rubric of International Relations and Security. It focuses on four themes: Pakistan and global security; Pakistan's international relations; politics and identity in Pakistan; and economic development of Pakistan. Leading international experts have contributed articles within the framework of these themes.

Crossover Stars in the Hindi Film Industry Dina Khdair, 2020-05-11 This book explores the cultural politics of Pakistani crossover stardom in the Hindi film industry as a process of both assimilation and "Otherness". Analysing the career profiles of three crossover performers – Ali Zafar, Fawad Khan, and Mahira Khan – as a relevant case study, it unites critical globalization studies with soft power theory in exploring the potential of popular culture in conflict resolution. The book studies the representation and reception of these celebrities, while discussing themes such as the meaning of being a Pakistani star in India, and the consequent identity politics that come into play. As the first comprehensive study of Pakistani crossover stardom, it captures intersections between political economy, cultural representation, and nationalist discourse, at the same time reflecting on larger questions of identity and belonging in an age of globalization. *Crossover Stars in the Hindi Film Industry* will be indispensable to researchers of film studies, media and cultural studies, popular culture and performance, peace and area studies, and South Asian studies. It will also be of interest to enthusiasts of Indian cinematic history.

Pakistan's National Security Approach and Post-Cold War Security Arshad Ali, 2021-03-31 This book analyzes the paradox that despite being a national security state, Pakistan has become even more insecure in the post-Cold War era. It provides an in-depth analysis of Pakistan's foreign and security policies and their implications for the overall state and society. The book identifies the immediate security challenges to Pakistan and charts the distinctive evolution of Pakistan's national security state in which the military elite became the dominant actor in the political sphere of government during and after the Cold War period. By examining the national security state, militarization, democracy and security, proxy wars and the hyper-military-industrial complex, the author illustrates how the vanguard role of the military created considerable structural, sociopolitical, economic, and security problems in Pakistan. Furthermore, the author argues that the mismatch between Pakistan's national security stance and the transformed security environment has been facilitated and sustained by the embedded interests of the country's military-industrial complex. A critical evaluation of the role of the military in the political affairs of the government and how it has created structural problems for Pakistan, this book will be of interest to academics in the field of South Asian Politics and Security, South Asian Foreign and Security Policy, International Relations, Asian Security, and Cold War Studies.

Global India Chris Ogden, 2023-01-06 India's anticipated rise to prominence in what has been termed the 'Asian 21st century' will have a significant impact upon geopolitics in the coming decades. As India's stature continues to increase across Asia and the world, appreciating which interests and principles structure the country's international interaction has never been more important. Central to these dynamics is how India's identity – and the longstanding values, principles and practices underpinning it – acts as the paramount factor that deeply structures the conduct of its international affairs. Acknowledging this centrality, this edited volume uses this factor as its foremost theme of analysis through which to understand and analyse India's most important regional, great power and diplomatic interactions. Not only providing a mechanism better to appreciate the historical foundations of these relationships, the focus on identity is also necessary to appreciate how the Hindu nationalism of the ruling Bharatiya Janata Party (BJP) under the leadership of Narendra Modi is now permeating Indian diplomacy. For the BJP, the pursuit – and attainment – of global influence and heightened status is the driving imperative of the BJP with regard to India's contemporary international affairs. The Warrior State T. V. Paul, 2015 Outlines revisionist approaches to understanding instability in Pakistan and the unintended consequences of foreign aid, evaluating the troubled country's nuclear arsenal and terrorist occupancy while profiling unexpected sources of its poor economy and corrupt political system.

The Future of Pakistan Stephen P. Cohen, 2011 With each passing day, Pakistan becomes an even more crucial player in world affairs. Home of the world's second-largest Muslim population, epicenter of the global jihad, location of perhaps the planet's most dangerous borderlands, and armed with nuclear weapons, this South Asian nation will go a long way toward determining what the world looks like ten years from now. The Future of Pakistan presents and evaluates several scenarios for how the country will develop, evolve, and act in the near future, as well as the geopolitical implications of each. Led by renowned South Asia expert Stephen P. Cohen, a team of authoritative contributors looks at several pieces of the Pakistan puzzle. The book begins with Cohen's broad yet detailed overview of Pakistan, placing it within the context of current-day geopolitics and international economics. Cohen's piece is then followed by a number of shorter, more tightly focused essays addressing more specific issues of concern. Cohen's fellow contributors hail from America, Europe, India, and Pakistan itself, giving the book a uniquely international and comparative perspective. They address critical factors such as the role and impact of radical groups and militants, developments in specific key regions such as Punjab and the rugged frontier with Afghanistan, and the influence of and interactions with India, Pakistan's archrival since birth. The book also breaks down relations with other international powers such as China and the United States. The all-important military and internal security apparatus come under scrutiny, as do rapidly morphing social and gender issues. Political and party developments are examined along with the often amorphous division of power between Islamabad and the nation's regions and local powers. Uncertainty about Pakistan's trajectory persists. The Future of Pakistan helps us understand the current circumstances, the relevant actors and their motivation, the critical issues at hand, the different outcomes they might produce, and what it all means for Pakistanis, Indians, the United States, and the entire world. Praise for the work of Stephen P. Cohen The Idea of Pakistan: The intellectual power and rare insight with which Cohen breaks through the complexity of the subject rivals that of classics that have explained other societies posing a comparable challenge to understanding. Middle East Journal India: Emerging Power: In light of the events of September 11, 2001, Cohen's perceptive, insightful, and balanced account of emergent India will be essential reading for U.S. foreign policymakers, scholars, and informed citizens. In Their Own Words C. Christine Fair, 2018-12-15 This path-breaking volume reveals a little-known aspect of how Lashkar-e-Tayyaba, a jihadist terrorist group, functions in Pakistan and beyond by translating and commenting upon a range of publications produced and disseminated by Dar-ul-Andlus, the publishing wing of LeT. Only a fraction of LeT's cadres ever see battle: most of them are despatched on nation-wide prozelytising (dawa) missions to convert Pakistanis to their particular interpretation of Islam, in support of which LeT has developed a sophisticated propagandist literature. This canon of Islamist texts is the most popular and potent weapon in LeT's arsenal, and its scrutiny affords insights into how and who the group recruits; LeT's justification for jihad; its vision of itself in global and regional politics; the enemies LeT identifies and the allies it cultivates; and how and where it conducts its operations. Particular attention is paid to the role that LeT assigns to women by examining those writings which heap extravagant praise upon the mothers of aspirant jihadis, who bless their operations and martyrdom. It is only by understanding LeT's domestic functions as set out in these texts that one can begin to appreciate why Pakistan so fiercely supports it, despite mounting international pressure to disband the group.

Media Imperialism in India and Pakistan Farooq Sulehria, 2018-01-02 Examining anew the notions of media imperialism and globalization of media, this book disrupts the generalised consensus in media scholarship that globalization of media has put an end to media imperialism. One elemental aspect of media imperialism is the structural dependency of television systems in the global South on the imperial North. Taking India and Pakistan as its case studies, this book views globalization of media as the unleashing of processes that have translated into the liberalization of air waves and privatization of television systems whereby commercialization of television is privileged over public interest television. Additionally, it argues that the globalization of media has contributed to corruption, tabloidization, and marginalization of subaltern classes in the Indian and Pakistani media.

China and the Islamic World Robert R. Bianchi, 2019-02-01 China is building a New Silk Road that runs through the heartland of the Muslim world, promising it will create integrated economies and stronger ties across Eurasia and Africa. Robert R. Bianchi argues that while China has the financial and technical resources to accomplish its infrastructure goals, it is woefully unprepared to deal with the social and political demands of its partner countries' citizens. China and the Islamic World explores how China's leaders and citizens are learning-through their relationships with Pakistan, Turkey, Indonesia, Iran, Nigeria and Egypt-that they have to respect and adjust to the aspirations of ordinary people throughout the Islamic world, not just cater to the narrow band of government and business elites. Bianchi demonstrates that turbulent countries along the New Silk Road are likely to transform Chinese society at least as much as China changes them. This realization will be deeply unsettling for China's authoritarian rulers, who desperately want to monopolize power domestically. The party and state bosses have responded to challenges with a contradictory blend of flexibility abroad and rigidity at home, compromising with popular demands in one country after another while refusing to negotiate many of the same issues with their own citizens. This book shows how China faces a growing struggle to maintain their double-sided statecraft as it becomes apparent that the New Silk Road is not a one way street.

The United States and China in the Era of Global Transformations Salvador Santino F. Regilme Jr, 2023-11-23 Over the last two decades, China has emerged as one of the most powerful state actors in the post-Cold War international system. This book provides a multifaceted and spatially oriented analysis of how China's re-emergence as a global power impacts the dominance of the United States as well as domestic state and non-state actors in various world-regions, including the Asia-Pacific, Africa, South America and the Caribbean, the Middle East, Europe and the Arctic. Chapters reflect on how and under which conditions competition (and cooperation) between the United States and China vary across these regions and what such variations mean for the prospects of war and peace, universal human dignity and global cooperation.

CBMs In India-Pakistan Relations Surender Singh,2021-08-09 About the Book India and Pakistan, the two important countries of the South Asian Sub-continent, have had a far from cordial relationship. It was in sum a love-hate relationship in which one is compelled to unwillingly coexist with the other and retain a constant but correct relationship on account of geography and historical circumstances. This state of affairs between the two countries could be traced to the very beginning of the birth of the two nations in 1947. The problems that existed in the initial years of their independence have survived in the seventh decade with no signs yet of any enduring solution. This study deals with India-Pakistan relations from 2003 to the present time. This period has been chosen because it signifies the culmination of certain trends in the relationship between the two nations after the start of the process of Confidence Building Measures (CBMs). This book provides a theoretical understanding of the South Asian region in general and India-Pakistan relations in particular. It analyses not only India's interests and policy options towards Pakistan but also evaluates the real nature of their bilateral relations. It has discussed not only the key issues between them, such as Kashmir, Terrorism, Siachen, Sir Creek, Drug Trafficking but also provides their likely solutions to these problems. Besides this, the process of CBMs and the steps taken by both nations are also discussed in it. Hence this book presents an overview of the contemporary nature of India-Pakistan relations after the start of the process of CBMs. The book may be beneficial for students, teachers, policymakers, diplomats, as well as, common readers engaged in understandings the current discourses on India-Pakistan relations in this changed international milieu.

Regional and Global Regulation of International Trade Francis Snyder,2002-07-05 The processes of legal and economic integration at a regional and global scale have created powerful legal and economic dilemmas. They challenge the paradigms of constitutionalism,including the State's monopoly of constitutionalism, the autonomy of national political communities and the traditional forms of participation and representation. The phenomena of globalisation and regional forms of governance have promoted the inter-dependence of national political communities and destroyed the artificial boundaries upon which national constitutional democracies are found and from which they derive their legitimacy. Furthermore, it is inevitable that the development of international trade and economic integration will raise claims for some form of global distributive justice to complement the wealth maximisation arising from free trade. This will come from the gradual development of global forms of political discourse and law-making, challenging State constitutionalism and requiring some of the instruments and theories of constitutionalism. The essays in this collection, written by leading scholars in international trade law, argue the pros and cons of greater regional and global regulation. They conclude that whatever the final framework for international trade, the critical decisions about institutional form and content will be decided in an emerging global political arena. They help to identify this political arena, who governs it, and according to which rules, and identify the different institutional alternatives in that global political arena.

Diplomacy and the Future of World Order Chester A. Crocker,Fen Osler Hampson,Pamela Aall,2021 Diplomacy in pursuit of peace and security faces severe challenges not seen in decades. Obstacles to diplomacy are coming from the re-emergence of strong states, discord in the UN Security Council, destabilizing transnational non-state actors, closing space for civil society within states, and the weakening of the international liberal order. Diplomacy and the Future of World Order develops three visions of the future in which states and other key actors in the international system respond by deciding to go it alone, return to a liberal order, or collaborate on a case-by-case basis to address common threats and problems. The central focus of this book is peace and conflict diplomacy, defined as the effort to manage others' conflicts, cope with great power competition, or deal with threats to the state system itself. The distinguished international group of experts writing in this volume analyze the different scenarios' impact on peace and conflict diplomacy from the perspective of key actors and regions. It also explores the prospects for discord or collaboration around four major security issues-peacekeeping, nuclear nonproliferation, cyber competition, and terrorism. Chester A. Crocker, Fen Osler Hampson, and Pamela Aall conclude by identifying emerging types of diplomacy that can provide the foundation for global peacemaking and conflict management in an uncertain future--

The Global Green Agenda - Second Edition Barry Napier,2009-09-01 In this second edition, The Global Green Agenda adds several new sections and illustrations, plus a Foreword by Dr Tim Ball, a leading opposer of the green movement. He recognises that the author has given a sound basis for looking at the environmental movement and its Marxist-Fascist roots, essential to understand what is really going on today. The aim of the movement is simply to use green language to create a one-world government. All the marks are there - oppression, loss of freedom, loss of choice, anti-Christianity, bad science, genocide, heavy taxation, etc. The UN is making its bid to control all use of resources, with military backing. Ignore the signs at your peril! There is NO ECOLOGICAL CRISIS! It is all a myth... no warming, no climate change other than usual, and CO2 is not a pollutant. The IPCC is lying. Simple as that. And this book proves it.

Race, Ethnicity and Religion in Conflict Across Asia Kunal Mukherjee,2021-02-28 This book looks at conflict zones in the Asia Pacific with a special focus on secessionist groups/movements in the Indian Northeast, Tibet, Chinese Xinjiang, the Burmese borderlands, Kashmir in South Asia, CHT in Bangladesh, South Thailand, and Aceh in Indonesia. These conflict zones are predominantly ethnic minority provinces, which by and large do not share a sense of one-ness with the country that they are currently a part of; most of these insurgencies have had strong linkages with separatist nationalist groups in the region. Methodologically, the author uses extensive fieldwork, interview data, and participant observation from these conflict zones to take a bottom-up approach, giving importance to the voices of ordinary people and/or the residents of these conflict zones whose voices have generally been ignored. Although the book looks at both the historical background and contemporary dimensions of these conflicts, the author focuses on exploring how the role of race, ethnicity and religion in these conflicts can be both direct and indirect. This book will be of great interest to students and scholars of conflict and security in contemporary Asia with a background in politics, history, IR, security studies, religion, and sociology.

Security, Culture and Human Rights in the Middle East and South Asia Christoph Bluth,2019-08-22 European countries are dealing with an increasing number of refugees seeking asylum. Country evidence is critical in the assessment of any asylum claim. The purpose of this study is to review some of the common issues which frequently

are the focus of asylum appeal cases in relation to applicants from South Asia and the Middle East. The focus is on Pakistan, Iraq and Iran and it covers a range of issues that give rise to asylum claims, such as the general security situation, the risk from terrorism and other forms of political violence, the risk to political opponents of governments, the risks in blood feuds and from the perceived violation of family honour, religious persecution and the risks faced by ethnic minorities. It is a very useful resource to volunteers and professionals involved in supporting asylum seekers.
