### **The Ahmadis and the Politics of Religious Exclusion in Pakistan** Ali Usman

Qasmi,2014-05-15 This path-breaking work traces the history of the political exclusion of the Ahmadiyya religious minority in Pakistan by drawing on revealing new sources. This volume is the first-ever scholarly study of the declassified material of the court of inquiry that produced the Munir-Kiyani report of 1954, and the proceedings of the national assembly that declared the Ahmadis as non-Muslims through the second constitutional amendment in 1974. The book chronicles the details of anti-Ahmadi violence and the legal and administrative measures adopted against them, and also addresses wider issues of politics of Islam in postcolonial Muslim nation-states and their disputative engagements with the ideas of modernity and citizenship.

**A History of Pakistan and Its Origins** Christophe Jaffrelot,2004 A History of Pakistan and its Origins is a comprehensive, detailed and fully up-to-date study of one of the most diverse, volatile and strategically significant countries in the world today. Born in turmoil barely half a century ago, Pakistan seems to be in an interminable pursuit of its own identity and at the same time finds itself a pivotal player in world politics. Its short existence has witnessed much: four coups d' tat; the rise of Islam as a power; tensions between ethnic, religious and separatist movements; the Kashmir conflict and the near-constant war footing with India. This text charts half a century of nation-building in Pakistan, while at the same time placing the country within the context of its relations with the outside world.

Rethinking Pakistan Bilal Zahoor,Raza Rumi,2020-09-23 Rethinking Pakistan is a wide-ranging analytical dissection of the Pakistani polity and offers a well-meaning, progressive prescription for present-day Pakistan, stitched together by an eclectic list of experts spanning diverse backgrounds

and subjects. From energy self-sufficiency and scientific development to freedom of the press and the essential question of the dominance of the military over civilian affairs, this compendium offers a suitable guide for anyone who seeks to understand the striking mix of contemporary and historic challenges faced by Pakistan in the twenty-first century. The book deals with Pakistan's contemporary realities and future prospects.

**Aboard the Democracy Train** Nafisa Hoodbhoy, 2011-04 'Aboard the Democracy Train' is a gripping front-line account of Pakistan's decade of turbulent democracy (1988-1999), as told through the eyes of the only woman reporter working during the Zia era for the nation's leading English language newspaper.

**Inside the Pakistan Army** Carey Schofield, 2011 Schofield spent five years with the Pakistan army, accompanying them on maneuvers and getting to know key figures from junior soldiers to Kayani himself. For five years, she travelled everywhere with them. They even had a uniform made for her. Inside the Pakistan Army is the truth about the army's vital role as an ally in the war.

**The Military and Denied Development in the Pakistani Punjab** Shahrukh Rafi Khan, Aasim Sajjad Akhtar, 2014-11-01 This book focuses on the retrogressive agrarian interventions by the Pakistani military in rural Punjab and explores the social resentment and resistance it triggered, potentially undermining the consensus on a security state in Pakistan. Set against the overbearing and socially unjust role of the military in Pakistan's economy, this book documents a breakdown in the accepted function of the military beyond its constitutionally mandated role of defence. Accompanying earlier work on military involvement in industry, commerce, finance and real estate, the authors' research contributes to a wider understanding of military intervention, revealing its hand in various sectors of the economy and, consequently, its gains in power and economic

autonomy.

**Encyclopedia of National Anthems** Xing Hang, 2015-03-17 From Afghanistan to Zimbabwe, this book presents an up-to-date collection of national anthems from the 200 sovereign countries in the world, providing music sheets arranged for piano, lyrics in the original language, and an English translation.

**Qaum, Mulk, Sultanat** Ali Usman Qasmi, 2023-12-12 After the trauma of mass violence and massive population movements around the partition of India and Pakistan in 1947, both new nation states faced the enormous challenge of creating new national narratives, symbols, and histories, as well as a new framework for their political life. While leadership in India claimed the anti-colonial movement, Gandhi, and a civilizational legacy in the subcontinent, the new political elite in Pakistan were faced with a more complex task: to carve out a separate and distinct Muslim history and political tradition from a millennium long history of cultural and religious interaction, mixing, and coexistence. Drawing on a rich archive of diverse sources, Ali Qasmi traces the complex development of ideas of citizenship and national belonging in the postcolonial Muslim state, offering a nuanced and sweeping history of the country's formative period. Qasmi paints a rich picture of the long, arduous, and often conflict-ridden process of writing a democratic constitution of Pakistan, while simultaneously narrating the invention of a range of new rituals of state—such as the exact color of the flag, the precise date of birth of the national poet of Pakistan, and the observation of Eid as a national festival—providing an illuminating analysis of the practices of being Pakistani, and a new portrait of Muslim history in the subcontinent.

*Poetry of Belonging* Ali Khan Mahmudabad, 2020-01-07 Poetry of Belonging is an exploration of north-Indian Muslim identity through poetry at a time when the Indian nation state did not exist.

Between 1850 and 1950, when precolonial forms of cultural traditions, such as the musha'irah, were undergoing massive transformations to remain relevant, certain Muslim 'voices' configured, negotiated, and articulated their imaginings of what it meant to be Muslim. Using poetry as an archive, the book traces the history of the musha'irah, the site of poetic performance, as a way of understanding public spaces through the changing economic, social, political, and technological contexts of the time. It seeks to locate the changing ideas of watan (homeland) and hubb-e watani (patriotism) in order to offer new perspectives on how Muslim intellectuals, poets, political leaders, and journalists conceived of and expressed their relationship to India and to the transnational Muslim community. The volume aims to spark a renegotiation of identity and belonging, especially at a time when Muslim loyalty to India has yet again emerged as a politically polarizing question.

**Gender, Sexuality and Feminism in Pakistani Urdu Writing** Amina Yaqin, 2021-08-17 This book sets out an unconventional literary history of progressive Urdu poetry by Pakistani women in the twentieth century. It introduces the resilient voices of poets who tread a fine line between the secular and sacred in an Islamic society to articulate a new feminist aesthetic.

**Iran and Pakistan** Alex Vatanka, 2015-07-28 The respective policies of the governments of Iran and Pakistan pose serious challenges to US interests in the Middle East, Asia and beyond. These two regional powers, with a combined population of around 300 million, have been historically intertwined in various cultural, religious and political ways. Iran was the first country to recognise the emerging independent state of Pakistan in 1947 and the Shah of Iran was the first head of state to visit the new nation. While this relationship shifted following the 1979 Iranian Revolution, and tensions do exist between Sunni Pakistan and Shi'i Iran, there has nevertheless been a history of

cooperation between the two countries in fields that are of great strategic interest to the US: Afghanistan, nuclear proliferation and terrorism. Yet much of this history of cooperation, conflict and ongoing interactions remains unexplored. Alex Vatanka here presents the first comprehensive analysis of this long-standing and complex relationship

**Boundaries of Belonging** Sarah Ansari, William Gould, 2019-10-17 Explores citizenship, rights and belonging in post-Independence South Asia, examining the long-term impact of the 1947 Partition.

**Being Pakistani** Raza Rumi, 2018-07-05 How different is Pakistan's culture from that of India? Exploring various aspects of the arts, literature and heritage of Pakistan, Raza Rumi argues that culture in Pakistan is not particularly unique to the nation, but rather a part of the cultural identities shared by South Asians. From the songs of Kabir and the ballads of Bulleh Shah to the cult of the feminine in the Sindh region, Rumi takes a kaleidoscopic view of the deep-set cultural mores that tie India and Pakistan together. Going further, he examines aspects of the visual arts, poetry, music and literature of Pakistan that impact global cultural narratives. Finally, he introduces readers to contemporary Pakistani writers and artists and the milieu in which they express their creativity, giving us a fascinating glimpse into cultural productions in Pakistan today. *Being Pakistani* is a riveting account of artistic traditions and their significance in present-day Pakistan, presenting an alternative view of the country, beyond the usual headlines that focus on political instability and terrorism.

*State, Nationalism, and Islamization* Raja M. Ali Saleem, 2017-07-11 This book argues that Islam's role in state nationalism is the best predictor of the Islamization of government using two most different cases: Turkey, which was an aggressively secular country until recently, and Pakistan,

a country that is synonymous with Islamization. It establishes a causal link between Islam's role in state nationalism and Islamization of government during various periods of the history of both countries. The indicators used to establish the causal link between Islam's role in state nationalism and Islamization are the presence of Islamic provisions in the constitution, Islam-inspired national symbols, Islamic images on the national currency, Islamic basis of family law, a Department of Religious Affairs, and governmental support for religious education. The book concludes by identifying three causal mechanisms—legitimacy, mobilization, and authenticity—that link Islam's role in state nationalism and the Islamization of government.

*Secular Jinnah & Pakistan* Saleena Karim, 2017-12-25 Saleena Karim's *Secular Jinnah & Pakistan: What the Nation Doesn't Know* is a unique study of M.A. Jinnah, founder of Pakistan, and his ideological convictions. Seven years after it was originally published, the book has been thoroughly revised and new material has been added, including updates in light of recent scholarship; commentary on how the ideological divide has affected the education curriculum; discussion of Bengal in the ideological context, with a full review of the controversy over the Delhi Resolution of 1946; details of how Chief Justice Munir and Governor-General Ghulam Mohammed justified the first dictatorship of Pakistan; notes on Scheduled Caste leader J.N. Mandal's political support of the Muslim League; assessment of resistance to socialist economic reforms by landlords backed by religious leaders; accounts of provincial politics; evidence from early Muslim sources that

support the progressive thinking of Pakistan's founders; extensive reviews of works only touched upon in the previous edition; appraisal of Jinnah's powers as a person as well as a statesman; and more. Popularly known for having revealed that a false quote ascribed to Pakistan's founder is still being used as part of the standard argument for a 'secular Jinnah', the book's most important contribution is its argument that while scholarship recognises three ideological categories in Pakistan - religious, secular, and synthesist - Jinnah belongs to a fourth, and this has yet to be explored.
