**Assessing Communication. Integrated Approaches in Political, Social and Business Context** Michele Sorice, 2012 What are the relationships between news media and public relations? What happens when a negative event seems to destroy many years of corporation's good reputation? Is credibility really a transferable value? Are public relation activities social and intangible issues? How to use media management and public relations to reverse a corporate and/or personal image tarnished by the media? What is the mud machine in political communication and how to contrast it? How to measure and evaluate communication quality? What is the AVE method? Many and apparently different questions, concerning several topics. But all framed in a fundamental question: Is it possible to assess communication? And how? This book tries to give some answers, presenting theoretical approaches, methodologies and case histories coming from public relations, media studies, political communication. An innovative approach to important but still poorly analysed issues in Communication Studies.

*Encyclopedia of Ephemera* Michael Twyman, 2018-10-24 The joy of finding an old box in the attic filled with postcards, invitations, theater programs, laundry lists, and pay stubs is discovering the stories hidden within them. The paper trails of our lives -- or ephemera -- may hold sentimental value, reminding us of great grandparents. They chronicle social history. They can be valuable as collectibles or antiques. But the greatest pleasure is that these ordinary

documents can reconstruct with uncanny immediacy the drama of day-to-day life. The Encyclopedia of Ephemera is the first work of its kind, providing an unparalleled sourcebook with over 400 entries that cover all aspects of everyday documents and artifacts, from bookmarks to birth certificates to lighthouse dues papers. Continuing a tradition that started in the Victorian era, when disposable paper items such as trade cards, die-cuts and greeting cards were accumulated to paste into scrap books, expert Maurice Rickards has compiled an enormous range of paper collectibles from the obscure to the commonplace. His artifacts come from around the world and include such throw-away items as cigarette packs and crate labels as well as the ubiquitous faxes, parking tickets, and phone cards of daily life. As this major new reference shows, simple slips of paper can speak volumes about status, taste, customs, and taboos, revealing the very roots of popular culture.

**Watching Sympathetic Perpetrators on Italian Television** Dana Renga, 2019-02-11 This book offers the first comprehensive study of recent, popular Italian television. Building on work in American television studies, audience and reception theory, and masculinity studies, *Sympathetic Perpetrators and their Audiences on Italian Television* examines how and why viewers are positioned to engage emotionally with—and root for—Italian television antiheroes. Italy's most popular exported series feature alluring and attractive criminal antiheroes, offer fictionalized accounts of historical events or figures, and highlight the routine violence of daily life in the mafia, the

police force, and the political sphere. Renga argues that Italian broadcasters have made an international name for themselves by presenting dark and violent subjects in formats that are visually pleasurable and, for many across the globe, highly addictive. Taken as a whole, this book investigates what recent Italian perpetrator television can teach us about television audiences, and our viewing habits and preferences.

**The City and the House** Natalia

Ginzburg, 2016-11-01 The city is Rome, the hub of Italian life and culture. The house is Le Margherite, a home where the sprawling cast of *The City and the House* is welcome. At the center of this lush epistolary novel is Lucrezia, mother of five and lover of many. Among her lovers—and perhaps the father of one of her children—is Giuseppe. After the sale of Le Margherite, the characters wander aimlessly as if in search of a lost paradise. What was once rooted, local, and specific has become general and common, a matter of strangers and of pointless arrivals and departures. And at the edge of the novel are people no longer able to form any sustained or sustaining relationships. Here, once again, Ginzburg pulls us through a thrilling and true exploration of the disintegration of family in modern society. She handles a host of characters with a deft touch and her typical impressionist hand, and offers a story full of humanity, passion, and keen perception.

## **In the Sign of the Golden Wheel**

Sangharakshita, 2014-04-29 This engaging volume of memoirs recounts the unique experiences of an English Buddhist monk working in the mid-1950s to revive Buddhism in the land of its birth.

Sangharakshita's lyrical descriptions evoke the kaleidoscope of the Indian landscape in delightful detail. With candour he relates his grittier encounters with royalty and religion, poverty and politics, corruption and ignorance.

Buddhism Sangharakshita, 2019-04-01 In the Sign of the Golden Wheel tells the story of the 'middle period' of the fourteen years Sangharakshita was based in the Indian hill station, Kalimpong. It is a crucial time for Buddhism as the whole Asian world is preparing to celebrate 2,500 years of Buddhism, and Sangharakshita's abundant energies are brought into play in diverse ways. Precious Teachers covers the last period of Sangharakshita's time in Kalimpong.

The Image in Early Cinema Scott Curtis, Philippe Gauthier, Tom Gunning, Joshua Yumibe, 2018-03-22 In The Image in Early Cinema, the contributors examine intersections between early cinematic form, technology, theory, practice, and broader modes of visual culture. They argue that early cinema emerged within a visual culture composed of a variety of traditions in art, science, education, and image making. Even as methods of motion picture production and distribution materialized, they drew from and challenged practices and conventions in other mediums. This rich visual culture produced a complicated, overlapping network of image-making traditions,

innovations, and borrowing among painting, tableaux vivants, photography, and other pictorial and projection practices. Using a variety of concepts and theories, the contributors explore these crisscrossing traditions and work against an essentialist notion of media to conceptualize the dynamic interrelationship between images and their context.

**Milton on Film** Eric C. Brown, 2015-04-06 In January 2012, shooting was set to begin in Sydney, Australia, on the Hollywood-backed production of Milton's *Paradise Lost*, with Oscar nominee Bradley Cooper cast as Satan. Yet just two weeks before the start of production, Legendary Pictures delayed the project, reportedly due to budgetary concerns, and soon the company had suspended the film indefinitely. Milton scholar Eric C. Brown, who was then serving as a script consultant for the studio, sees his experience with that project as part of a long and perplexing story of Milton on film. Indeed, as Brown details in this comprehensive study, Milton's place in the popular imagination—and his extensive influence upon the cinema, in particular—has been both pervasive and persistent.

### **THE KINGDOM OF GOD IS WITHIN YOU Leo**

Tolstoy, 2024-01-11 This carefully crafted ebook: THE KINGDOM OF GOD IS WITHIN YOU (One of the Most Influential Books on Nonviolent Resistance, Christianity & Inner Fate) is formatted for your eReader with a functional and detailed table of contents. In the 1870s Tolstoy experienced a

profound moral crisis, followed by what he regarded as an equally profound spiritual awakening, as outlined in his non-fiction work *A Confession*. His literal interpretation of the ethical teachings of Jesus, centering on the Sermon on the Mount, caused him to become a fervent Christian anarchist and pacifist. Tolstoy's ideas on nonviolent resistance, expressed in such works as *The Kingdom of God Is Within You*, were to have a profound impact on such pivotal 20th-century figures as Mohandas Gandhi, Martin Luther King, Jr., and James Bevel. In this treatise Tolstoy explains that he feels that the Church's doctrines are mistaken because they have made a perversion of Christ's true teaching. He then goes on to explain what those teachings are and how one can become a true Christian in this war prone world. The title of the book is taken from Luke 17:21. In the book Tolstoy speaks of the principle of nonviolent resistance when confronted by violence, as taught by Jesus Christ. When Christ says to turn the other cheek, Tolstoy asserts that Christ means to abolish violence, even the defensive kind, and to give up revenge. Tolstoy rejects the interpretation of Roman and medieval scholars who attempted to limit its scope. How can you kill people, when it is written in God's commandment: 'Thou shalt not murder'? Tolstoy took the viewpoint that all governments who waged war are an affront to Christian principles. *Spectacles of Authenticity* Hsuan Tsen, 2011 In the late-nineteenth and early twentieth centuries, America and Japan were in the process of establishing their positions as powers in a world dominated by Western Europe. The two nations with unconnected histories and cultures found themselves in momentary sympathy as they embarked on their first forays into military imperialism, expanded their trade, and constructed civic institutions intended to compete with those of Europe. It was during this period that mass entertainments developed and began circulating across national borders and, drawing on tourist practices, helped create a universal visual culture which coexisted with local particularities. This dissertation undertakes a study of Japanese and American shared visual culture and modern entertainments with the goal of nuancing current scholarship on East/West exchanges and expanding the definition of modernity. Three modern phenomena, panoramas, World's Fairs, and film, form the core of my three main chapters and describe a process of appropriation, assimilation, and collaboration through their movements from Europe, across America to Japan, and ending with a return to America. Many scholars have observed that Americans viewed Japan as a confusing cultural other with a baffling skill at appearing modern. This dissertation begins with the premise that Japan was modern and re-examines American and Japanese cultural exchanges from this position

with the aim of shifting the paradigms of modernity and modern visuality.

Aeroscopes Patrick Ellis, 2021-07-27 In 1900, Paris had no skyscrapers, no tourist helicopters, no drones. Yet well before aviation made aerial views more accessible, those who sought such vantages had countless options available to them. They could take in the vista from an observation ride, see a painting of the view from Notre-Dame, or overlook a miniature model city. In Aeroscopes, Patrick Ellis offers a history of the view from above, written from below. Richly illustrated and premised upon extensive archival work, this interdisciplinary study reveals the

forgotten media available to the public in the Balloon Era and after. Ellis resurrects these neglected spectacles as “aeroscopies,” opening up new possibilities for the history of aerial vision.
