Strangers and Friends at the Welcome Table James Hudnut-Beumler,2018-03-19 In this fresh and fascinating chronicle of Christianity in the contemporary South, historian and minister James Hudnut-Beumler draws on extensive interviews and his own personal journeys throughout the region over the past decade to present a comprehensive portrait of the South's long-dominant religion. Hudnut-Beumler traveled to both rural and urban communities, listening to the faithful talk about their lives and beliefs. What he heard pushes hard against prevailing notions of southern Christianity as an evangelical Protestant monolith so predominant as to be unremarkable. True, outside of a few spots, no non-Christian group forms more than six-tenths of one percent of a state's population in what Hudnut-Beumler calls the Now South. Drilling deeper, however, he discovers an unexpected, blossoming diversity in theology, practice, and outlook among southern Christians. He finds, alongside traditional Baptists, black and white, growing numbers of Christians exemplifying changes that no one could have predicted even just forty years ago, from congregations of LGBT-supportive evangelicals and Spanish-language church services to a Christian homeschooling movement so robust in some places that it may rival public education in terms of acceptance. He also finds sharp struggles and political divisions among those trying to reconcile such Christian values as morality and forgiveness—the aftermath of the mass shooting at Charleston's Emanuel A.M.E. Church in 2015 forming just one example. This book makes clear that understanding the twenty-first-century South means recognizing many kinds of southern Christianities.

Nissan 300ZX and 350Z Brian Long,2004-05 The Datsun 240Z was a landmark in automotive history--some say the Japanese E-type Jaguar--and by the time the first generation of Z--cars came to an end in 1978, everyone around the world knew the name Datsun and that the company was serious about sports cars.

Z Pete Evanow,2005 Some 35 years ago Datsun (now Nissan) introduced the 1970 Datsun 240Z sports car, emphatically disproving the perception that Japanese automakers could only produce economy cars. Designed specifically to appeal to the American market, the Z car has enjoyed long-term popularity with its sporty styling and impressive performance. Z car fans are loyal and numerous. Over 1.4 million Z cars have been sold worldwide, including 1 million-plus in the U.S. The five generations of Z cars include the latest version, the 350Z introduced in 2003, which has refueled interest in Z cars. This book will thoroughly cover the history of this breakthrough Japanese sports car, and will include official Datsun/Nissan photography and memorabilia such as advertising and international marketing materials.

Datsun/Nissan 280X & 300ZX Brian Long,2018-10-12 The 240Z was a landmark in automotive history. By the time the first generation Z-cars came to an end in 1978, everyone around the world knew the name Datsun. Here is the full story of the ZX series from the 280ZX – introduced as the second generation Z-car in 1978 – through to the 300ZX of 1999. The 240Z and 260Z were pure sports cars, but the 280ZX represented the evolution of the Z-car into a Grand Tourer. This evolution continued through two generations of 300ZX and the Z became a true supercar with state-of-the-art engineering features. This book contains a great deal of new information for enthusiasts in the West, as Japanese models have been covered in detail for the first time. Photographs and other illustrations have been sourced almost exclusively from the factory and therefore illustrate the cars in original detail. Datsun Z, also by Brian Long and Veloce, is a complementary book.

Driving from Japan Wanda James,2015-08-13 This study chronicles the success of the Japanese car in America. Starting with Japan’s first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese cars in California in the late 1950s; consumer and media reactions to Japanese manufacturers; what obstacles they faced; initial sales; and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun (Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally-sound vehicle.
