Children's Past Lives Carol Bowman, 2012-02-01 Has your child lived before? In this fascinating, controversial, and groundbreaking book, Carol Bowman reveals overwhelming evidence of past life memories in children. Not only are such experiences real, they are far more common than most people realize. Bowman's extraordinary investigation was sparked when her young son, Chase, described his own past-life death on a Civil War battlefield—an account so accurate it was authenticated by an expert historian. Even more astonishing, Chase's chronic eczema and phobia of loud noises completely disappeared after he had the memory. Inspired by Chase's dramatic healing, Bowman compiled dozens of cases and wrote this comprehensive study to explain how very young children remember their past lives, spontaneously and naturally. In *Children's Past Lives*, she tells how to distinguish between a true past life memory and a fantasy, offers practical advice to parents on how to respond to a past life memory, and

shows how to foster the spiritual and healing benefits of these experiences. Perhaps the most moving, convincing, and best-documented evidence yet for life after death, Children's Past Lives will stand alongside the classics of Betty J. Eadie, Raymond Moody, and Brian Weiss in its power to comfort, uplift, and transform our thinking about life after death

of Kristina. Backed up with indisputable historical assumptions. A must read for anyone who strives for the truth about Christianity's original teachings.

Past Lives Davina Desilver, 2013-11 Past Lives: Incredible Past Life Experiences Intrigued by the existence of past lives and past life regression? Fascinated by reincarnation and how it affects your life today? This is an insightful and sensitive account of what it's like to experience past life regression, the experience itself and the resulting learning that comes from that experience. These reincarnation stories are intimate and personal recollections. It's engaging and exhilarating, you won't want to stop reading. I trained in Past Life Regression Therapy several years ago and have been asked many times to write down some of my own past life stories. I have been shocked, elated, stunned and at times frozen with fear These are my experiences, never anyone famous, just real experiences of past lives, usually with some pertinent reminder or similarity with events in my current life. With DeSilver's usual style, to the point and easy to read, the reader can certainly identify with her personal and truthful account and her natural sense of humour shines throughout. Her unique manner of combining the therapeutic viewpoint as well as that of the client is addictive. A must read for anyone interested in the existence of past life regression and reincarnation. My experiences of the existence of past lives has never been purely for entertainment purposes. I have loved being able to touch my spirit and that of others. Within all of us, lies the potential to access ancient memories, times long past. I do believe that the body holds onto such memories, even if we don't consciously know how. There is an intelligence in every single cell of your body. The mind is not the brain, it includes the brain but it is not limited to it. The brain is the physical organ, the mind is less tangible. It expands further than we think and communicates in ways I believe we have yet to master or fully understand. There may be things in this life that just don't make sense to you, a recurring thought or dream that seems to bare no relevance to your current life. Sometimes specific aches, pains and physical imbalances may not be confined to an event in this current lifetime you are experiencing. If that is the case for you, you will know it in your heart and in your gut as you read these words. Using the sensations and feeling ability of the body is one of the ways we access these deeply held memories, thoughts and beliefs. It's as if they are frozen in time, crystallised if you like, especially if they are associated with strong emotions and events of the time.
