The Soul of an American President Alan Sears, Craig Osten, Ryan

Cole, 2019-06-04 While there have been many biographies of Dwight D.

Eisenhower that focus on his military career or the time of his presidency, none clearly explores the important role faith played both in his personal life and in his public policy. This despite the fact that he is the only US president to be baptized as a Christian while in office. Alan Sears and Craig Osten invite you on a journey that is unique in American history and is essential to understanding one of the most consequential, admired, and complex Americans of the 20th Century. The story begins in abject poverty in rural Texas, then travels through Kansas, West Point, two World Wars, and down Pennsylvania Avenue. This is the untold story of a man whose growing faith sustained him through the loss of a young son, marital difficulties, depression, career disappointments, and being witness to some of the worst atrocities humankind has devised. A man whose faith was based in his own sincere personal conviction, not out of a sense of political expediency or social obligation. You've met Dwight Eisenhower the soldier and Dwight Eisenhower the president. Now meet Dwight Eisenhower the man of faith.

Pinnock (the convener of the first annual gathering of NBC) and Mojola Agbeb (the first elected leader of NBC) to Olumide Kehinde (the current NBC Chairman) and Supo Ayokunle (the current NBC President) - and a brief description of each of them. This is a historical pictorial booklet of fine and insightful presentation, worthy of its place on the library. It is an enthralling and captivating compilation, which contributes significantly to

our understanding of aspects of Nigerian Baptist history, through the lenses of its apex leadership, many of whom might be appropriately tagged among the heroes of the Baptist faith in the country. - S. Ademola Ajayi, PhD Professor of History, University of Ibadan, Ibadan, Nigeria.

Cross-Border Infringement of Personality Rights via the Internet Symeon C. Symeonides, 2021-01-11 Conflicts of laws arising from injuries to rights of personality—such as defamation or invasion of privacy—have always been difficult, if only because they implicate conflicting societal values about the rights of freedom of speech and access to information, on the one hand, and protection of reputation and privacy, on the other hand. The ubiquity of the internet has dramatically increased the frequency and intensity of these conflicts. This book explores the ways in which various Western countries have addressed these conflicts, but also advances new, practical ideas about how these conflicts should be resolved. These ideas are part of an

international model law unanimously adopted by a Resolution of the Institut de droit international, which addresses jurisdiction, choice of law, and recognition and enforcement of foreign judgments. The book provides extensive article-by-article commentary, which explains the philosophy and intended operation of the Resolution.

From Movement to Inheritance Olga Lukács, Alpár Csaba Nagy, István Péter, Christopher B. Brown, Günter Frank, Bruce Gordon, Barbara Mahlmann-Bauer, Tarald Rasmussen, Violet Soen, Zsombor Tóth, Günther Wassilowsky, Siegrid Westphal, 2019-08-12 This book does not only deal with the history, but also with the effects of the Reformation over the mentality, education and scientifical research among Hungarians during the last five centuries. The spirit of the Reformation has not only been a church-forming factor, but also a force of nation-building and salvation. This volume includes 17 studies of Hungarian Reformed theologians presented at a conference in November 2016. The main goal was to give an overview of the most recent research results in history and theology regarding Reformation and its effects over society and mentality among Hungarians. The contributors come from various Hungarian theological universities from the Carpathian basin, thus the book is an overview of their research topics and results. The City Cluj-Napoca was, became and remained an important center of the Reformation, as significant events took place in its surroundings as well. The Faculty of Reformed Theology of the Babeş-Bolyai University and the Protestant Theological Institute has always functioned in an environment, where the challenges of multi-confessionalism and multiethnicity are also present beside interdisciplinarity.

Law and Society Approaches to Cyberspace Paul Schiff Berman, 2017-11-28 During the past decade, the rise of online communication has proven to be particularly fertile ground for academic exploration at the intersection of law and society. Scholars have considered how best to apply existing law to new technological problems but they also have returned to first principles, considering fundamental questions about what law is, how it is formed and its relation to cultural and technological change. This collection brings together many of these seminal works, which variously seek to interrogate assumptions about the nature of communication, knowledge, invention, information, sovereignty, identity and community. From the use of metaphor in legal opinions about the internet, to the challenges posed by globalization and deterritorialization, to the potential utility of online governance models, to debates about copyright, free expression and privacy, this collection offers an invaluable introduction to cutting-edge ideas about law and society in an online era. In addition, the introductory essay both

situates this work within the trajectory of law and society scholarship and summarizes the major fault lines in ongoing policy debates about the regulation of online activity.
