Poverty Reduction Support Credits World Bank, 2010-05-21 This evaluation examines the relevance and effectiveness of Poverty Reduction Support Credits (PRSCs), introduced by the Bank in early 2001 to support comprehensive growth, improve social conditions, and reduce poverty in IDA countries. PRSCs were intended to allow greater country-ownership, provide more predictable annual support, exhibit more flexible conditionality, and strengthen budget processes in a results-based framework. By September 2009, the Bank had approved 99 PRSCs totaling some \$7.5 billion and representing 38% percent of IDA policy based lending. The evaluation finds that in terms of process, PRSCs were effective in easing conditionality, increasing country ownership and aid predictability, stimulating dialogue between central and sectoral ministries, and improving donor harmonization. In terms of content, PRSCs succeeded in emphasizing public sector management and pro-poor service delivery. Yet in terms of results, it is difficult to distinguish growth and poverty outcomes in countries with PRSCs from other better performing IDA countries. There is scope for further simplifying the language of conditionality and underpinning PRSCs with better pro-poor growth diagnostics. PRSCs can also strengthen their results frameworks and limit sector policy content in multi-sector DPLs to high-level or cross-cutting issues. Today, Bank policy has subsumed PRSCs under the broader mantle of Development Policy Lending and the rationale for a separate brand name although differences linger from the past. Since PRSCs and other policy-based lending have gradually converged in design, remaining differences compared to other Development Policy Loans should be clearly spelled out, or the separate PRSC brand name should be phased out.

Oxidative Stress in Diabetic Retinopathy Ángel Luis Ortega, 2021-03-09 The combination of an increasing prevalence of diabetes and the aging of populations enables the appearance of a greater number of associated complications such as diabetic retinopathy. Diabetic retinopathy is the leading cause of preventable vision loss in working-age adults. The objective of this Special Issue is to highlight the existing evidence regarding the relationship between oxidative stress and low-grade chronic inflammation induced by hyperglycemia with the development and progression of diabetic retinopathy, with an emphasis on the importance of early diagnosis and the use of antioxidant and anti-inflammatory approaches to prevent or delay the harmful effects of diabetes on retinal tissue.

Compendium of Supply and Use Tables for Selected Economies in Asia and the Pacific Asian Development Bank,2017-11-01 This publication provides a standard compilation of supply and use tables (SUTs) for 19 economies in Asia and the Pacific to help them comply with the United Nations 2008 System of National Accounts (SNA) recommendations. SUTs are an integrated statistical estimation and economic analysis model that facilitates the compilation of more reliable, consistent, and internationally comparable estimates of key economic statistics such as gross domestic product. The improved and more detailed statistics are expected to provide a better basis for measuring economic output and growth; facilitating informed policy making; and monitoring progress toward the Sustainable Development Goals (SDGs), relating especially to poverty alleviation, economic growth, technological progress, and industrial and infrastructure development. The compilation of SUTs is an essential first step to establish an effective statistical system in any economy. In 2014, ADB embarked on a data development and capacity building project to assist 19 members construct benchmark SUTs for the latest possible year. This publication outlines the relevant statistical and economic concepts, data compilation and development practices, project implementation strategies, and the results of the project. It also includes an abridged version of the SUTs of the 19 participating economies. The more detailed tables are available online through the ADB website.
