Autumn's Quest Cheryl Braginsky, 2019-06-17 Deep in the Dark Forest a tiny fairy is losing her battle to fly through a massive storm. Exhausted, she can barely move her wings as wind-blown branches and sheets of drenching water drive her ever closer to the flooded forest floor. Certain she is about to drown, she tenses her muscles and shuts her eyes. But instead of rushing water, she feels long thorn-covered vines wrap around her and pull her back. Only the bush isn't there to save her. It is there to deliver her to her greatest enemy. Thus begins the quest of Autumn Primrose. Along the way, as Autumn struggles to transform herself from a healer to a warrior, she gathers an unlikely band of companions to share her journey. They include a shy hedgehog, an elegant dragon fly, a deadly elf warrior, and an Armada of Sea Elves. She also learns the truth about her parents' deaths at the hands of Azara, the same enemy she is destined to face. Azara was once the queen of the Fairy Realm. During her reign she enslaved her subjects and devastated the realm's environment in pursuit of her evil aims. Eventually the fairy folk rebelled and banished her for the remainder of her life. Now she's escaped from her prison, sent for her boggart army, and returned for revenge.

Please, Don't Send Me Flowers Lianne Saffer, 2021-01-27 From divorce, to coming out, to cancer, Lianne Saffer tells an honest and hilarious account of her last 15 years. In it, she describes the often-painful discovery of her own resilience and the process of learning to trust herself along the way. Lianne's engaging storytelling weaves in the themes of small-town religious family upbringing, redefining modern femininity, and navigating life's complexities. Despite the heavy topics, her fierce reflections and lessons are grounded in vulnerability and the perfect dose of humor. Lianne's story has you alternating between laughing and crying and it's a must-read for anyone who has ever considered sending someone flowers. A note from the author: I wrote this book in hopes of opening up conversation around challenges in relationships, sexuality, religion, and cancer. I wrote it to help people feel validated, seen, challenged, and heard. I wrote it because I knew nothing about what these situations really felt like until they happened to me, despite knowing that they were happening all around me. Still, nobody was talking about them. I wrote it because I wish I had read it years ago. I wrote it in hopes that somewhere within its pages, people would see a glimpse of themselves and feel less alone and less afraid. You will see your mother, your sister, your daughter, and your friends through the vulnerability in these pages. Reading this book feels like you are watching a movie unfold. It is raw and unfiltered- leaving you laughing, crying, celebrating big love, and celebrating the expanse of the human experience.

Independence Hall Roland Smith, 2013-05-20 Thirteen-year-old Quest (Q) isn't sure he's ready for a new family. For a long time it's just been him and his mom, Blaze. But everything changes when Blaze falls in love with Roger and they start a new rock band called Match. Now they're married, have a hit record, and Match is going out on a year-long driving tour across the country. Q, along with new stepsister Angela, will take a year off from school and travel with the band. For now, home will be a luxury motor coach and homework will be a Web site diary of their travels. Perfect-Q can practice his magic tricks and Angela can read her spy novels. What can go wrong? As Q and Angela settle into their new life and new relationship as siblings, they start to notice that certain coincidences don't seem coincidental. For example, how does a band roadie named Boone find them in the middle of a desert where their coach just happens to break down? Why does a man from their parents' wedding keep showing up in the same cities they stop at? When they reach Philadelphia, Q and Angela realize this tour is definitely not the trip their parents had planned and that the City of Brotherly Love is full of mysteries and secrets that could threaten their new life together. In addition to his action adventure books, Roland is the author of many award-winning books for children including *Journey of the Red Wolf*; *The Captain's Dog*; *My Journey with the Lewis and Clark Tribe*; and

Thunder Cave, which was a 1996 Notable Children's Trade Book in the field of Social Studies. E. H. F. A. R. Ronin PDX, 2018-05-14 It's the year 2323, prison reform is the new Global industry trend that draws together the sociopath and the psychopathic; one for profit and the other for punishment. Since the physical Earth cannot keep up with the viral growth of everyone, Mankind has now brazenly taken root within the Ether--a conflux among reality and the virtual. The expansion of prisons ceased several decades ago, yet they find new ways to incarcerate those that defy authority and general consensus. We've made several attempts at new construction concepts, maze-style prisons, and even photo projections on the outside of the prison walls as a shameful deterrent. No matter how clever the concept, how ingenious the idea, or pragmatic the Band-Aid, people continued to combat the laws, and the law just continued to pack the jails and prisons. The Global News Agency comes out with a new prison riot report monthly now, making it the worst record for prison population and recidivism. At least, that was the case last year. In January the powers to be began a new venture. They claimed they could make you live a lifetime of repent--in a blink of an eye; a virtual prison. Now when you are sentenced, you take a seat in a restraint chair and get rolled off to serve your time in E.H.F.A.R. Unlike the olden days of actually living in a cell, now you get placed, colloquially known as the Pill-Box. The Pill-Box came about due to the appearance of the sedation tube they use to control your core temperature and keep your mind at ease; like that of a compression chamber you found back in the start of the twenty-first century. Yeah, who knew we'd use ancient tech! Here's the scoop. They've embedded Smart-Chips on Hemoglobin and can control the reality state as well as the physical state with these little critters. As soon as you're dunked into that Twinkie-like tube, you go through rebirth. First Stage, Rebirth. Second Stage, Life. Third Stage, Death. You now live the punishment you're given as a life-sentence, always with the possibility of parole/early death, while you spend only a day in physical incarceration. As far as I know, it works like this, the scientist found that our reality can be modified to fit into the virtual reality, as every gaming enthusiast has known for the last 300 years. However, we now can manipulate the VR to rapidly replay a dreamscape,

allowing for the user to feel as though experiencing Life as it never existed before. They know nothing of their true identities, they only know as we all know about our current lives. We believe there to be a higher power, upper management if you will, a power that seems to be very evidently present, but no one can prove it. We have now come full circle, our quest for knowledge and Truth has lead us to find ourselves. We are the Gods that created this World, we created and manipulate the interactions of those inside the E.H.F.A.R. (pronounced ETHER). This system will open the gates to a new existence, a lifetime served in the blink of an eye. A system that attacks the Rapid Eye Movement sleep mode in our brains to manipulate it for our needs. We can, essentially, go in and grab the R.E.M. from inside your brain and stretch it to fit our length of time we chose to keep them inside EHFAR. Someone who commits murder may end up living a life plagued with the grief of losing a loved one, a son, a daughter, the exact science behind it has grown beyond our comprehension as our systems are all backed by high-grade processors that calculate... everything. We can essentially set them up and get them running with the ability to manipulate their current mood. Which is why we see so many of the feedback videos to show that the sentenced aren't just living a life of success and joy. The E.H.F.A.R techs can inject mood swings, by altering their current bodies intake of nutrients, carbs, sugars, and in so many words, make you feel depressed, sad, mad, or plagued with anxiety... then comes regret, shame, remorse, and loss.

A Health Educator's Guide to Understanding Drugs of Abuse Testing Amitava Dasgupta, 2010 The drug free workplace initiative was started in 1986 by President Ronald Reagan when he issued an executive order to develop guidelines for drug abuse testing for Federal Government employees. Since then, most state, government, and private employers have adopted the policy of a drug free workplace. Today, pre-employment drug testing is almost mandatory and passing the drug test is a condition for hire. *A Health Educator's Guide to Understanding Drug Abuse Testing* describes in layman's language the process of testing for drugs and provides coverage of what potential employees are being tested for, how the tests are performed, and what foods and drugs may affect the test results and may jeopardize a person's chance of being hired. Written by a practicing toxicologist, this text gives health educators a solid foundation in the process of drug testing and helps them understand how different methods of cheating drug tests are rendered ineffectual.

The Happiness of Pursuit Chris Guillebeau, 2016-04-05 A remarkable guide to the quests that give our lives meaning—and how to find your own—from the New

York Times bestselling author of *The \$100 Startup* and *100 Side Hustles* “If you like complacency and mediocrity, do not read this book. It’s dangerously inspiring.”—A. J. Jacobs, author of *The Know-It-All* When he set out to visit all of the planet’s countries by age thirty-five, compulsive goal-seeker Chris Guillebeau never imagined that his journey’s biggest revelation would be how many people like himself exist—each pursuing a challenging quest. These quests are as diverse as humanity itself, involving exploration, the pursuit of athletic or artistic excellence, or battling against injustice and poverty. Everywhere that Chris visited he found ordinary people working toward extraordinary goals, making daily down payments on their dreams. These “questers” included a suburban mom pursuing a wildly ambitious culinary project, a DJ producing the world’s largest symphony, a young widower completing the tasks his wife would never accomplish—and scores of others writing themselves into the record books. The more Chris spoke with these strivers, the more he began to appreciate the direct link between questing and long-term happiness, and he was compelled to complete a comprehensive study of the phenomenon. In *The Happiness of Pursuit*, he draws on interviews with hundreds of questers, revealing their secret motivations, their selection criteria, the role played by friends and family, their tricks for solving logistics, and the importance of documentation. Equally fascinating is Chris’s examination of questing’s other side. What happens after the summit is climbed, the painting hung, the endurance record broken, the at-risk community saved? A book that challenges each of us to take control—to make our lives be about something while at the same time remaining clear-eyed about the commitment—*The Happiness of Pursuit* will inspire readers of every age and aspiration. It’s a playbook for making your life count. “*The Happiness of Pursuit* is smart, honest, and dangerous. Why dangerous? Because it is as practical as it is inspiring. You won’t just be daydreaming about your quest—you’ll be packing for it!”—Brené Brown, Ph.D., LMSW, author of *Daring Greatly*
