The Power of Mobile Banking Sankar Krishnan, 2014-05-19 Today's tech-savvy consumers are demanding a more personal customer experience from their banks, and banks are discovering that mobile services deliver individualized, tailored experiences better than any other technology. *The Power of Mobile Banking: How to Profit from the Revolution in Retail Financial Services* gives banking and financial professionals a well-researched guide for becoming transformational leaders. These leaders can convert their traditional retail branch banks into streamlined systems that deliver personalized services to their customers' laptops, tablets, and smartphones. Written by Sankar Krishnan—a career banker and noted financial services industry thought leader—*The Power of Mobile Banking* includes strategies for adapting mobile banking practices that suit the needs of both developed and emerging markets. Krishnan also shows how bankers can make their products and services relevant to a new generation of digital natives. Krishnan explores the expanding mobile payment systems that offer a wealth of financial opportunities for banking institutions and includes information on the growth of e-commerce, which holds the potential for new and profitable ways for banks to engage with consumers. *The Power of Mobile Banking* outlines the practical aspects of adapting to a mobile banking strategy and shows how to put the right players in place to ensure the technology works seamlessly. Once in place, a great mobile system delivers excellent service and benefits to users, as well as

real value and unique features that cement customer loyalty. The book also offers advice for bankers who want to increase their bottom line by delving into the world-wide prepaid card market. Krishnan includes a discussion on the risks and hazards of mobile banking and reveals the critical investments that banks must be willing to make in order to avoid losing customers to telecoms, retailers, and technology providers. Mobile banking in the Ethiopian bank sector Dereje Tesfa, 2019-08-30 Seminar

paper from the year 2019 in the subject Business economics - Banking, Stock Exchanges, Insurance, Accounting, grade: A, Wolkite University (College of Business and Economics), language: English, abstract: This article looks at how and why banking customers have begun to take advantage of mobile services for their banking requirements and why some of them are still hesitant to adopt mobile banking in Ethiopian banking sector. Also, this article throws light on some of the eminent challenges faced by the mobile banking service providers, which can be seen as opportunities for the financial institutions and the bankers. The internet and the mobile phone, the two technological advancements that have profoundly affected human behavior in the last decade have started to converge. Using a variety of platforms, services are being created to enable mobile devices to perform many activities of the traditional internet in a reduced format for mobile devices. One such area of activity is mobile banking. A cluster of dedicated and demanding mobile phone users (consumers) have multiplied tremendously over the years, who expect real-time information and access and high levels of service.

To Get to You Joanne Bischof,2015-08-27 To get to the girl he loves, Riley Kane must head off on a road trip with the father he never knew. Then pray for a miracle. Most teens would love to have a pro surfer for a dad. Just not Riley. Abandoned as a kid, he hates the sound of the ocean and the man who gave himself to it. When the eighteen-year-old learns that his best friend is stranded at a New Mexico hospital as her father fights for his life, Riley hits the highway to head east. But when his Jeep breaks down before he even leaves California, he must rely on the one man he despises to get to the girl who needs him the most. And when it comes to the surfer with the Volkswagen van and dog-eared map, a thousand miles may- r may not- e enough to heal the past. A story of new beginnings and second chances.

Think/Make Andrew Bernheimer,Jared Della Valle,2009-04-15 Architecture, the saying goes, is a verb. It's an ongoing process of creating. For Brooklyn-based architects Jared Della Valle and Andrew Bernheimer it is, more accurately, two verbs: think and make. Two words that, when fused in the work of Della Valle Bernheimer, energize and transform each other architectural process as a feedback loop. Just a decade into their practice, Della Valle Bernheimer has assembled an impressive body of completed projects. Coveted commissions in New York City include two high-profile condo towers in Chelsea

and the renovation of architect Paul Rudolph's landmark modernist apartment at 23 Beekman Place. Think/Make documents twelve of the firm's most innovative projects, ranging from residences to public commissions such as Federal Plazain San Francisco; affordable housing units in the Bronx, New York; a public swimming center in Aalborg, Denmark; and a proposal for the reuse of New York City's Hudson Yards. Each project in Think/Make covers both aspects of their creative process, often demonstrating that they think both with their minds and their hands; the process is cerebral as well as physical. Thinking about the larger contexts of site and program, as well as about historical precedents, linguistics, and correlations to natural forms and phenomena, Della Valle Bernheimer creates thoughtful, structurally innovative architecture. For the Arttreehouse in New Fairfield, Connecticutdesigned in collaboration with structural engineer Guy Nordensonthey observed patterns of light filtered through canopies of native tree species and scoured the history of building techniques in the region to design a 5,400-square-foot, locally inspired house. This unique monograph illustrates how personal, associative, and often highly poetic thoughts are made legible in architecture.
