**Maker Literacy** Lynn Pawloski, Cindy Wall, 2016-11-07  
This book takes the creativity and inventiveness of the maker movement and applies that energy in a new way to help children learn across all subject areas as well as broaden their world view. Traditional library literacy programs have helped many children foster a love of reading, but to prepare this next generation of learners, this programming needs to be modified to include technology. The inherent creativity and inventiveness of the Maker Movement, embracing both classic and innovative technological activities, provides the perfect bridge to invigorate, expand, and update these programs. This alternative to conventional library literacy programming will help children learn throughout all subject areas, see additional possibilities, and make connections in the world around them. With this guide, readers can discover how to apply maker literacy to introduce connections that help children better understand that their experiences in life are interrelated—that art can be made on a 3D printer and that science and technology are an essential part of design. This holistic approach provides a myriad of creative opportunities for both

teaching staff and the children they serve. A great resource for youth services librarians in public libraries, this guide to infusing library programs with technology and maker activities to motivate learning will also appeal to preschool and elementary librarians, educators, and parents.

Proceedings of MAC-MME 2016 group of authors, 2016-12-07 The conference proceedings - Multidisciplinary Academic Conference on Management, Marketing and Economics, Czech Republic, Prague (MAC-MME 2016)

*Seabirds* J. P. Croxall, 1987-05-14 Originally published in 1986, this book is concerned with the ways in which seabirds function as predators in the marine environment; in particular about how they find and catch food and how much of it they consume. It reviews both the feeding ecology of seabirds (including adaptations for flight and diving) and also most of the leading field studies (in polar, temperate and tropical regions) that have quantitatively examined the interactions of seabird communities with their prey.

**Search and research** Ana GARCÍA-VALCÁRCEL, Francisco José GARCÍA PEÑALVO, Marta MARTÍN DEL POZO, 2017-06-27 Descripción / Resumen (Inglés): The present volume represents a compilation of international teacher education practice and research with a focus on Teacher Education for Contemporary Contexts. It draws upon the diverse educational perspectives, teaching procedures, knowledge, and situated contexts where the discipline takes shape. The sections of this book comprise research papers accepted for presentation during the 18th International Study Association on Teachers and Teaching (ISATT) Biennial Conference that will take place from July 3rd to July 7th in Salamanca, Spain. Around 300 delegates from 57 countries across the globe and a large Scientific Committee of 80 colleagues have contributed academically and professionally to support our ability to share the contents of this volume. The main conference topic is search and research. Searching is the action of looking carefully at people, objects, and situations in order to find something concealed or to discover something beyond the

ordinary. This is what teachers do in their classrooms and, primarily, 'search' represents their endeavours to construct professional knowledge as a result of developing practice. Researching is systematic inquiry that intends to discover new knowledge and/or to refute educational theories, a process typically rendered by teacher educators and other researchers. The focus of this 18th biennial ISATT conference is to bring together both "search" and "research", connecting practice and theory (or 'praxis'), with the purpose of offering relevant solutions to realistic classroom problems. The editorial process followed three differentiated phases: The first phase required abstract submission with the purpose of being accepted for the conference. A double (or triple) blind review was conducted to evaluate whether the papers submitted were suitable for the conference. A rate of 87% of the papers were accepted for presentation. The second phase encouraged authors to voluntarily submit a full paper of 3,000 words. A total of 111 full papers were then subjected to an open review process with the main purpose of suggesting to authors ways of further improving the presentation of their valuable research. A third phase, not yet completed and therefore beyond the scope of this book, was the review and selection of the outstanding papers, papers that were deemed eligible for the post-proceeding publication (i.e., less than 15% of the total). The central intent of the book is to contribute to fostering scholarly discussions and to inform future teaching trajectories, strengthen lines of research in teacher education and demonstrate the opportunities and constraints in our professional work. Its added value highlights the commonplace in international research that serves to depict how the field of teacher education is moving forward in an increasingly global society. All in all, teachers, teacher educators and researchers learn by effective communication processes, whether in in personal/professional interactions or in the use of digital technologies. Positive interactions lead to building strong communities of learners, which in turn, leads to the production of valuable knowledge and better understandings about learning and teaching. With the upcoming commemoration of its 800th anniversary in the year 2018, the University of Salamanca, as the oldest university in operation in Spain, is proud to host the ISATT 18th biennial conference and to support the exceptional work of many researchers in the field of Teacher Education by compiling and editing the work in this volume. Furthermore, the local Organizing Committee and the ISATT Executive Committee hope you will experience a rewarding intellectual experience as a result of your contributions and knowledge, as both academics and practitioners. Thank you very much for providing us this exciting opportunity to work with you. We warmly welcome you to Salamanca – a truly historic and a contemporary context!

Descripción / Resumen (Español / Castellano): El presente volumen está integrado por una recopilación de prácticas e investigaciones internacionales de formación docente centradas en la formación de profesores en la sociedad actual. Se basa en las diversas perspectivas educativas, los procedimientos de enseñanza, conocimiento y contextos sociales. Las secciones de este libro comprenden trabajos de investigación aceptados para su exposición en las XVIII Conferencia Bienal Internacional de Estudios de Profesores y Enseñanza (ISATT) que tendrá lugar del 3 al 7 de julio en Salamanca, España. Alrededor de 300 delegados de 57 países de todo el mundo y un gran Comité Científico de 80 colegas han contribuido académica y profesionalmente en favor de este evento. El tema principal de la conferencia

es la búsqueda y la investigación. «Buscar» es la acción de mirar cuidadosamente a las personas, objetos y situaciones para encontrar algo escondido o descubrir algo más allá de lo ordinario. Esto es lo que los maestros hacen en sus clases y, sobre todo, la búsqueda representa sus esfuerzos para construir conocimiento profesional como resultado del desarrollo de la práctica cotidiana. La «investigación» es una investigación sistemática que pretende descubrir nuevos conocimientos y/o refutar teorías educativas, un proceso que suelen dar los educadores de profesores y de otros investigadores. El objetivo de esta 18ª conferencia ISATT es reunir tanto la «búsqueda» como la «investigación», conectando la práctica y la teoría (o praxis) con el propósito de ofrecer soluciones relevantes a los problemas reales de la clase. El proceso editorial siguió tres fases diferenciadas: 1. Requirió el envío de resúmenes con el propósito de que fuesen aceptados para la ser expuestos en la conferencia. Se realizó una revisión doble ciego (o triple) para evaluar si los artículos presentados eran adecuados. Se aceptó una tasa de 87% de los trabajos para su presentación. 2. La segunda fase requirió de los autores en envío en período voluntario de un trabajo completo de 3.000 palabras. Un total de 111 trabajos fueron sometidos a un proceso de revisión abierta con el propósito principal de sugerir a los autores formas de mejora. 3. Una tercera fase, aún inconclusa, y por lo tanto fuera del alcance de este libro, fue la revisión y selección de los documentos pendientes, los documentos que se consideraron electos para la publicación posterior al procedimiento (es decir, menos del 15% del total). La intención central de esta obra es contribuir a fomentar el debate académico e informar sobre futuras trayectorias de enseñanza, fortalecer las líneas de investigación en la formación del profesorado y demostrar las oportunidades y limitaciones en nuestro ámbito. Su valor es el de destacar el lugar común en la investigación internacional que sirve para describir cómo el campo de la formación de maestros avanza en una sociedad cada vez más global. En general, los maestros, los educadores de educadores y los investigadores aprendan mediante procesos de comunicación eficaces, ya sea en interacciones personales/profesionales o en el uso de tecnologías digitales. Las interacciones conducen a la construcción de comunidades fuertes de estudiantes, que a su vez, conduce a la producción de conocimientos valiosos y mejores sobre el aprendizaje y la enseñanza. Con la próxima conmemoración de su 800 aniversario en el año 2018, la Universidad de Salamanca, como la decana de las españolas, se enorgullece en acoger la XVIII Conferencia Bienal de ISATT y apoyar el trabajo excepcional de muchos investigadores en el campo del Profesor Educación Investigador, editando la obra. Además, el Comité Organizador Local y el Comité Ejecutivo de ISATT esperan que experimente una lectura gratificante como resultado de sus contribuciones y conocimientos, tanto académicos como profesionales. Muchas gracias por brindarnos esta emocionante oportunidad de trabajar con usted. ¡Les damos la bienvenida a Salamanca un contexto verdaderamente histórico y a su vez contemporáneo!

*The Routledge Handbook of Consumer Behaviour in Hospitality and Tourism* Saurabh Kumar Dixit, 2017-04-07 Consumer behaviour is one of the most explored topics in tourism and hospitality marketing, interchangeably denoted by the terms 'traveller behaviour', 'tourist behaviour' or 'guest behaviour'. Consumer behaviour acts as an origin for every tourism and hospitality marketing activity. It offers an understanding of why people tend to choose certain products or services and what sort of factors influence them in making their decision. The decision process of buying tourism products or services takes time, because they are mostly intangible in nature due to which there are many risks involved in their buying process. The Routledge Handbook of Consumer Behaviour in Hospitality and Tourism aims to explore and critically examine current debates, critical reflections of contemporary ideas, controversies and pertinent queries relating to the rapidly expanding discipline of consumer behaviour in hospitality and tourism. The Handbook offers a platform for dialogue across disciplinary and national boundaries and areas of study through its diverse coverage. It is divided into six parts: Part I offers an overview of consumer behaviour; Part II focuses on the service quality perspectives of consumer behaviour; Part III deliberates on customer satisfaction and consumer behaviour linkages; Part IV explores the re-patronage behaviour of consumers; Part V addresses the vital issues concerning online consumer behaviour; and Part VI elaborates upon other emerging paradigms of consumer behaviour. Although there is no dearth of empirical studies on different viewpoints of consumer behaviour, there is a scarcity of literature providing conceptual information. The present Handbook is organised to offer a comprehensive theoretical body of knowledge narrating consumer behaviour, especially for hospitality and tourism businesses and operations. It attempts to fill this research gap by offering a 'globalised' volume comprising chapters organised using both practical and academic approaches. This Handbook is essential reading for students, researchers and academics of Hospitality as well as those of Tourism, Marketing, International Business and Consumer Behaviour.

The Trouble with Penguins Rebecca Jordan-Glum, 2020-11-03 On the day the penguin discovered the person, everything changed. The person was happy to see the penguin, and showed it how to roast marshmallows by the fire. When it was time for the penguin to go, she gave it her favorite roasting stick and a warm hug goodbye. Once the penguin showed its penguin friends how to roast

marshmallows, they all wanted a turn. It was wonderful...until it wasn't. You see, the trouble with penguins is that they don't always know how to say they're sorry. But, with a little help and teamwork, they discover sharing is always the best tactic. For fans of Oliver Jeffers, Jon Klassen, and Jory John comes a clever, irreverent debut picture book about an unlikely friendship between a penguin and a human that emphasizes the importance of sharing, patience, and, above all, friendship.

*I am Actually a Penguin* Sean Taylor, 2017-07-13 When a little girl is given a penguin suit she decides that living as a penguin is much more fun than just dressing as one. But penguins don't exactly behave like people. They don't ride the bus like people, they don't talk like people and they certainly don't catch fish fingers like people. Her family tell her, You're not actually a penguin, but she knows that she ACTUALLY is. A hilarious new picture book from Sean Taylor, the author of *What a Naughty Bird* and Kasia Matyjasek, author/illustrator of *I am a Very Clever Cat*.
