Encyclopedia Of Penis Enlargement Maria Zulf,

Penis Enlargement Doctor Enlargement,2016 Many men are self conscious about the size of their sex organ whether that concern is merited or not. Thanks to the popularity of adult entertainment, the pressure on them to measure up is enough to make many men worry, whether that concern is justified or not. This book attempts to wade through the snake oil and sales talk to help the reader learn more about how to safely and practically improve the length and girth of his penis. It's a complex and emotional subject. Let's face it, when the term Penis Envy practically makes up its own category of a field like psychology, you can tell it's a big deal. It's also an area filled with misconceptions, bad influences, and ego concerns. Quite a few less than scrupulous businesses have taken advantage of this to come up with all sorts of dubious answers for this issue. For a woman who desires bigger breasts, there are several easy (although not necessarily cheap) solutions. Whether it be a bra that maximizes their assets or surgical implants, a woman can make her choice and expect success. No such option exists for men. Even the few surgical solutions that are out there are dubious, and risky. There are safe, effective ways of improving your penis size and also your erections. They may not promise huge results or overnight improvement, but they also aren't snake oil. In at least a few examples in this book, there is no need to spend money or provide a credit card either. The reader is provided a wide selection of options along with an honest assessment as to the effectiveness, cost, and risk of a particular approach. There is a section of this book that will help the reader learn all about exercises to improve their size. Another chapter is devoted to devices that can help you increase your size. You can also learn how changing your diet and adding certain supplements can work with other solutions to give you the best possible results. There is also a section on drugs that can also help make the penis bigger and provide better erections. The reader will also get advice on how to avoid the snake oil and other dubious solutions. Here he will get the best possible advice on how to deal with this issue. There is also information about supplements and nutrition that can help boost your size and improve your erections. The book also covers what devices actually help and whether they are short term or long term solutions. You can expect good results from the information in this book.

Penis Size Christopher Trow,2016-12-08 Are you sick of feeling like you don't measure up in the bedroom? Fed up of covering up in the locker room? If you're tired of being 'below average' then you've arrived at the right place. Penis size: The natural penis enlargement guide for a bigger, thicker, stronger and harder penis is the ultimate guide to building a much larger and functioning penis. This book is dedicated to increasing the size of your member, to overcome erectile dysfunction and premature ejaculation. I discuss my own journey down the road of penis enlargement and I review the majority of the products on the market today, what their claims are and my results. Inside is a list of the many exercises to increase your member from beginner to advanced. I have provided you with a beginner's program that you can start right now today. I also explain how to introduce new and more advanced exercises into your routine. The key is patience. You'll see results almost instantly as you begin these exercises, but it'll mainly be due to fluid retention at first so don't be discouraged if the effects subside after a short period of time. The trick is to put stress on the penis tissues through forcing blood in by using a jelqing method and just like working out any other muscle, the growing part takes place while we rest. Rest is very important, especially to get the results you desire, you need to be very patient as it can be very tempting to do as much as possible to get results. Each subject is discussed in detail; how to perform each technique properly and how to implement these exercises into a program that will increase the length, girth, hardness and the strength of your erection. You'll also learn how to correct penile curvature and how to prevent premature ejaculation. I've created this book to simply give back to the many people that are in the position I once was. Please note that this is not a quick fix, you'll have to be patient and stay dedicated to see the results you truly desire. If you want to overcome anxiety in the bedroom and gain the ultimate confidence to satisfy your lover, then here is all the information you will ever need. The subjects inside include: * Penis exercises and the benefits * Penis enlargement products - side effects and draw backs * The importance of warming up * The pelvic floor muscles * Kegel exercises * An introduction to Jelqing * Other methods of girth exercise * Pros and Cons * Penis Stretching * Beginners program * Foods to include in your diet to promote growth * Tips to help you along the way

The Small Penis Bible Ant Smith,2016-12-14 IF YOU CAN'T BEAT THEM... After living with penis size anxiety for most of his 50 years author, Ant Smith, decided we needed an honest self-help book on the subject. Something to turn up in search results other than the endless (and expensive) so called 'enlargement guides'. After organising London's first ever Big Small Penis Party and giving countless interviews on what it's like living with a little willy, Ant has plenty to say on the matter! You will read the only methods for penis enlargement in this book. But more importantly you will read how to overcome the anxiety itself - because without managing that, no size is ever going to lead to peace. THIS IS A REALLY TOUGH SUBJECT so there is plenty of humour, candour and real-life stories in these pages. If you are suffering yourself, or if you are body-positive, or if you are just curious THIS is a must read.

Penis Enlargement Edwin Carlisle,2018-11-30 How would your life be if you had a thicker, longer and stronger Penis? What about out-of-this-world Stamina? Sure your confidence in yourself and your relationships with women would be much different! If you would want all of this things and much more, continue reading... I can see you reading the words and wondering if there's some easy way to improve your performance. Well, I have news for you. To be able to give a girl what she most craves for, you have to put in the effort, particularly if you weren't born with a natural ability to use what you have to advantage. You're not alone, and what you may not realize is that even men with average sized penises can have a supernatural sex life, provided that they put in their homework and prepare themselves for the ride of their lives. You may wonder what kind of guy writes a book like this, but the fact is that I was brought up with brothers and also came into contact with many men during the course of my college years who fired blanks when it came to performance. They just didn't have what it takes ... or did they? I saw guys actually comparing sizes in the locker room, but when I suggested to them that their performance wasn't all about circumference or length, they scoffed the idea. I have to be honest. While I was enjoying a very healthy sex life and giving girls exactly what it was that they wanted, these were the same guys who continued to be losers because they were not prepared to take any responsibility for their performance. If you were one of them, hey buddy, it's now or never. You can increase the size of your penis. You can improve your thrust but most of all, you can enjoy extended lovemaking without disappointing either yourself or the lady you are lucky enough to be sharing your bed with. My lady would happily give you a testimony because she knows I learned a very long time ago what makes a difference. Suffer from anxiety in bed? Have no fear. I have you covered in this book which shows you methods that you can employ to get over those performance issues and be confident that you have what it takes to please her. I have included details even for those men who have difficulties following prostate problems. The exercises are easy, are well explained and comprehensive and you will find that in no time at all, you will have upper your game and will be able to give her what it is that she wants from the relationship. So, if you are ready to change your performance in bed from mediocre to screaming level, step this way because the lady you have chosen to share your manhood with deserves the best you can give her. It isn't all about you and when you begin to accept that fact and get off your macho high horse, you can actually give yourself reason to be able to brag, even if it's only in the privacy of the bedroom. How to Grow Your Penis Techniques to Naturally Increase the Size of Your Penis Daniel D'apollonio,2016-12-23 How To Grow Your Penis Naturally and Safely! This book has lots of actionable techniques on how to naturally increase the size and girth of your penis with no equipment. This might sound unpleasant but it's a fact: We are living in a masculine world. We are living in a world that is idolizing masculine values- even our own language indirectly conveys this fact. Many words and expressions such as man up that mean be strong/brave assert (though indirectly) how the world views masculinity. Among other issues such as general body physique, you'll find that most men actually care so much about improving sexual performance- they want to have longer sex and protect their masculine image in this respect and if they think the penis size is the deterrent, it can lead to stress and anxiety if there is no available, working solution. I believe this is only a natural response to the expectations of the world we live in and the societal demands we cannot escape from. Think about it; most women wouldn't want to give you any hope of having sex with you if they think you are not just 'gifted' down there. If you have a small penis, perhaps showering with men around you will constantly remind you of how lacking you are in that area of your life irrespective of how successful you are in other spheres of life. Obviously, your ego will be constantly bruised when the topic of penis sizes, sex and related topics come up. And even when you go to urinals and other men who are 'gifted' well don't shy from holding theirs with pride for anyone who cares to look to see it, you will constantly feel bad about yourself and how lacking you are. Your self-confidence and self-esteem takes a nosedive, which subsequently affects other aspects of your life. If you are tired of being shy about your small penis and perhaps have experienced any of the problems above, let this book be the beginning of the end of your silent suffering. With this book, I'll be focusing on the 'member'. Do you have doubts about your penis size? If your answer is a sorry 'yes', don't worry; I will teach you how you make your penis larger (in girth and length) to change how you feel and think about yourself completely for the better, the natural way i.e. no tools/equipment needed! All You Wanted to Know About Penis Enlargement J.D. Rockefeller,2016-10-11 There is probably no guy in this world who hasn't wished he was bigger. Almost every guy feels that he would be a lot happier if, and only if, his penis was just an inch or two longer. This is probably why there is a huge market for penis enlargement products. Pills, devices, supplements, surgery - the list just goes on and on. Every few days a new product is launched, promising to increase your penis size. But the question is - Do these products actually work? Some do, but most don't. Many of the products on the market are just ways to get your money, and that's all. In fact, many of them can actually cause serious problems, such as erectile dysfunction. So, does that mean there is nothing you can do to increase your size? That's also not true. There is a lot that you can do to increase the size of your penis. You can try exercises. You can try herbs. There are certain vitamins and minerals you can include in your diet. You could also try a few devices available in the market that promise to increase your size. And if nothing really works, you could consider surgery as a last option. Let's discuss some of the natural methods for penis enlargement.

[The Visual Guide to Penis Size](#) Brad Darby,2017-03-19 What else has been more shrouded in mystery or been put under more scrutiny than the male penis a.k.a. male johnson? Despite the fact that there's over 3 billion of them walking around, the johnson has proven more elusive to researchers than Sasquatch or the Loch Ness Monster. This is the case while 'johnson' size confidence appears to be foundering. A number of studies have shown that anywhere between 20 and 65 percent of men are not satisfied with their penis. Meanwhile, penile enlargement procedures are on the rise despite high risks and dubious benefits. Low confidence is diffusing through the male psyche in spite of the fact that nothing tangible has actually changed. There's isn't a penis shrinking disease epidemic and a race of men with elephant trunk johnsons hasn't been spawned. The key reason for men's deteriorating penis size confidence is a dearth of credible information. A void which has been largely been filled with lowly clickbait. It's a #fakenews fest out there! As a result, the majority of men's views on johnson size are being shaped by biased and incorrect information. Do a search for penis size information on the internet and you'll be given a myriad of answers and misinformation from preposterous sources. Fear not, I've combed through all the clickbait garbage heaps and BS to unearth the most solid and unbiased professional studies on the subject of johnson size published in academic journals from the past 60 years. After a long search and vetting process, I was able to pull together a consistent and geographically diverse set of studies for johnson length and width in both the flaccid and erect states. My hope is that by presenting this data to you in simple yet visually compelling ways, we can finally cut through all the inflated propaganda that's been the driving force behind men's eroding johnson size confidence. I promise you, you haven't read anything like this before and you'll never look at a penis the same way again!
