Honoring My Journey Barbara Gray Armstrong, 2014-10-07 Author Barbara Gray Armstrong came of age during Jim Crow when the color line was clearly drawn and America was divided into black and white. Black people were denied rights and endured discrimination. In *Honoring My Journey*, she weaves together both personal and public events as an exploration of what it was like being black in America. In this memoir, she shares stories from her youth, growing up in the 1950s and 60s in the South and prospering despite widespread bigotry. Representing just a slice of her life, *Honoring My Journey* narrates experiences with her parents, siblings, grandparents, friends, and classmates and of working as a nanny for a white family. Armstrong blends the details of her family and family history into a larger, societal context to tell a story that is both personal and universal. *Honoring My Journey* provides insight into what it was like growing up during such a turbulent time in the nation's history.

Fitzgerald, Death of a Hero by Richard Aldington, Under Fire: The Story of a Squad by Henri Barbusse. After the First World War, special people returned to their home towns from the front. When the war began, they were still boys, but duty forced them to defend the homeland. Lost Generation - as they were called. This concept is used today when we talk about writers who worked during the breaks between the First and Second World Wars, which became a test for all of humanity and were almost all beaten out of their usual, peaceful rut. One of the themes that commonly appears in the authors' works is decadence and the frivolous lifestyle of the wealthy. Writers of the lost generation raise in their works the problem of young people who returned from the war and did not find their home, their relatives. Questions about how to live, how to remain human, how to learn to enjoy life again - this is what is paramount in this literary movement. Table of Contents: 1. Ernest Hemingway: A Farewell to Arms 2. Tapestry in the Renaissance Thomas P. Campbell, Metropolitan Museum of Art (New York, N.Y.), 2002 Tapestries--the art form of kings--were a principal tool used by powerful Renaissance rulers to convey their wealth and might. From 1460 to 1560, courts and churches lavished vast sums on costly weavings in silk and gold thread from designs by leading artists. In this lavishly illustrated book, the first major survey of tapestry production of this period, contributors analyze some of these & beautiful tapestries, examine

the stylistic and technical development of tapestry production in the Low Countries, France, and Italy during the Renaissance, and discuss the contribution that the medium made to art, liturgy, and propaganda of the day.
