Penny Stock Trading for Beginners and Dummies Lisa H Gregory Ph D,2021-01-24 Penny stocks are big business, even though they sound small. Tens of millions of people trade them, and while some win and some lose, none can argue the place of small stocks on the markets. The broad appeal of these small shares is also notable. Unlike most other investment vehicles that cater to very select niche audiences, people from all walks of life are getting involved with penny stocks. Whether you're a beginner learning the ropes or an experienced trader looking to get in early on tomorrow's up-and-coming corporations, you'll find that others just like you are already involved in the smallest stocks. Of course, the rules for penny stocks are a little different from other investment types. There are certain risks and pitfalls that could cost you. Thankfully, most of these are easily avoidable, especially if you've read Invest in Penny Stocks in its entirety. You can protect yourself even more by performing Leeds Analysis on any penny stock you're interested in, and by applying the same research to that company's competitors for comparison purposes. Hopefully, the tactics detailed in this book will get you over the penny stock phobia from which most investors suffer. Involved in small stocks because they bought the wrong stocks at the wrong times and for the wrong reasons. In contrast to this, while dumb decisions and phobias keep some investors out of the penny stock arena, there are many who've been playing the game right. They're the ones investing in the right stocks at the right times and for the right reasons. They're the ones using Leeds Analysis to research their options. They're the ones making fortunes by trading penny stocks. The good news is that you can get started easily. If you've read through this entire book, then you've been introduced to all the concepts needed to become a successful penny stock investor. From paper trading to getting a good broker, from the best markets to due diligence, you've covered it all. Most importantly, you've been introduced to Leeds Analysis. By applying it to investments that you may be interested in, you'll be significantly ahead of other investors. You'll avoid those common pitfalls that take some traders out of the game, and profit from tremendous Delving into a company from a fundamental analysis perspective tells even more. First, there's the financials, which reveal the health and momentum of a corporation, from both past and present perspectives. Then, you can get even more granular and review the financial ratios, which allow very valuable comparisons to other companies of all sizes and produce many very telling results. Yet fundamental analysis goes even deeper. From reading press releases to reviewing legal battles, from researching the share structure to looking into insider trading, you can learn almost everything there is to know about a company.

Learn How Professionals Trade the Penny Stock Market T. S. Mccloughan,2013-01-27 The stocks that trade in the Penny Stock Market often provide opportunities for 20% or greater returns in minutes to days not years! Case in point; on December 18, 2012 we alerted our members to Superior

Venture Corp (SVEN) on our free daily stocks to watch list. That day the stock vaulted +183% from the previous days close. Now honestly, when is the last time you heard of a stock that trades on the larger market gaining 183% in a year, let alone....in a single day! What accounts for these explosive moves? Penny stocks are generally not covered by analysts or large investment firms. Because of this companies that reside in this market typically gain exposure and public interest in their stock by investing in large scale promotional campaigns (I'm sure you have received numerous promotional campaigns like this in the mail from time to time). An interesting thing happens when these campaigns are released. The next time you receive such a promotional campaign take the time and look up the stock. You will probably notice that the stock had moved up significantly prior to the time you physically received the ad. Why? Because those that paid (often great sums of money) for monthly subscriptions to those companies that produce and promote the actual campaigns get a heads up before these ad campaigns are released and take position early on. In the early phase of the promotion more and more people take position moving the stock price higher. By the time the mass of the general public (you) receive the ad, the stock price has already made the bulk of its move and all too often when the general public (you) take position it's too late. The best way to invest in penny stocks therefore is to buy them before they are heavily promoted and hyped up in price. That's where we come in. In our manual 'Learn How Professionals Trade the Penny Stock Market' we will show you a step-by-step method of how to find those penny stocks that will be heavily promoted, or those already in the early phase of heavy promotion. The bottom line - You will learn how to get into the stock at the early phase of that promotional campaign and where real money can be made! Like those that pay a great deal of money for the privilege of knowing ahead of time which stocks are being heavily promoted, you too can buy them ahead of the big PR campaigns and wait to cash in with the big run-up that typically follows the release of the campaign to the general public. Now for the good news.....We've done all the hard work for you! You will learn our proprietary method of analysis on how we scan over 12,500 equities every day searching for those penny stocks (microcap stocks) poised to breakout and make explosive gains! You will find our track record of success (which we proudly post at the end of each day of trading on our site) is proof that our methodology at Trading-Pennies.com by no means ordinary.

Penny Stocks Investing For Beginners Robert Alderman, 2014-11-18 At many times the opportunities are knocking at the door but our fears does not let them in. This has created a great void between what we wish and what we actually do. Life cannot be led by fears, the only way to make your dream comes true is to own them and pursue them. Otherwise, the business opportunities will come in and left without bringing any improvement in your current state.
