Daniel Ellsberg

The Pentagon's Brain Annie Jacobsen, 2015-09-15 Discover the definitive history of DARPA, the Defense Advanced Research Project Agency, in this Pulitzer Prize finalist from the author of the New York Times bestseller Area 51. No one has ever written the history of the Defense Department's most secret, most powerful, and most controversial military science R&D agency. In the first-ever history about the organization, New York Times bestselling author Annie Jacobsen draws on inside sources, exclusive interviews, private documents, and declassified memos to paint a picture of DARPA, or the Pentagon's brain, from its Cold War inception in 1958 to the present. This is the book on DARPA -- a compelling narrative about this clandestine intersection of science and the American military and the often frightening results.

The Doomsday Machine Daniel Ellsberg, 2017-12-05 Shortlisted for the Andrew Carnegie Medal for Excellence in Nonfiction Finalist for The California Book Award in Nonfiction The San Francisco Chronicle's Best of the Year List Foreign Affairs Best Books of the Year In These Times "Best Books of the Year Huffington Post's Ten Excellent December Books List LitHub's "Five Books Making News This Week" From the legendary whistle-blower who revealed the Pentagon Papers, an eyewitness exposé of the dangers of America's Top Secret, seventy-year-long nuclear policy that continues to this day. Here, for the first time, former high-level defense analyst Daniel Ellsberg reveals his shocking firsthand account of America's nuclear program in the 1960s. From the remotest air bases in the Pacific Command, where he discovered that the authority to initiate use of nuclear weapons was widely delegated, to the secret plans for general nuclear war under Eisenhower, which, if executed, would cause the near-extinction of humanity, Ellsberg shows that the legacy of this most dangerous arms buildup in the history of civilization--and its proposed renewal under the Trump administration--threatens our very survival. No other insider with high-level access has written so candidly of the nuclear strategy of the late Eisenhower and early Kennedy years, and nothing has fundamentally changed since that era. Framed as a memoir--a chronicle of madness in which Ellsberg acknowledges participating--this gripping exposé reads like a thriller and offers feasible steps we can take to dismantle the existing doomsday machine and avoid nuclear catastrophe, returning Ellsberg to his role as whistle-blower. The Doomsday Machine is thus a real-life Dr. Strangelove story and an ultimately hopeful--and powerfully important--book about not just our country, but the future of the world.

THREATCON DELTA David Alexander, 2021-01-12 THE PENTAGON IS TAKEN. IF YOU WANT IT BACK, FOLLOW MY INSTRUCTIONS... When an ousted mogul and his Russian partner team up to take over the US government, America's first woman president tackles the first major strategic challenge of her administration. Threatcon Delta: Assault on the Pentagon tells the story of how terrorism, treason and global organized crime converge to place the most potent symbol of American military power under the control of a determined and ruthless group of heavily armed and extremely dangerous men who can't be stopped, yet who must be stopped. This global superthriller is based both on author David Alexander's extensive and detailed research into the history of the Pentagon, combined with first-hand knowledge of the Pentagon's most closely held secrets by this veteran defense insider, all of which has been artfully woven into a masterpiece of high-concept suspense fiction. In fact, the combined impact of accuracy and authenticity blended with superb storytelling may find some readers asking themselves if perhaps some parts of the story shouldn't have been made public, for fear that terrorists or global criminals might some day use it as a basis for an actual plan of attack. Yet the assault on the Pentagon portrayed in the book is no standard terrorist martyrdom mission either. Those who've taken over the headquarters of the United States military

have an exit strategy that has been brilliantly devised to shuttle them to safety and provide for the enjoyment of their ill-gotten profits - a scam on a global scale that promises to net the Puzzle Palace's hijackers a considerable fortune. By any standard, Threatcon Delta: Assault on the Pentagon is action thriller fiction at its boldest and best. It's one of the achievements that have earned author David Alexander a secure place at the top of the list of the world's masters of the game. Praise for Threatcon Delta: Assault on the Pentagon If you read no other technothriller this year, read this awesome action yarn by David Alexander ... it's guaranteed to make you lose sleep. --Arlington Times Threatcon Delta: Assault on the Pentagon tells the story of how terrorism, treason and global organized crime converge to place the most potent symbol of American military power under the control of a determined and ruthless group of heavily armed and extremely dangerous men who can't be stopped, yet who must be stopped. This global superthriller is based both on author David Alexander's extensive and detailed research into the history of the Pentagon, combined with first-hand knowledge of the Pentagon's most closely held secrets by this veteran defense insider, all of which has been artfully woven into a masterpiece of high-concept suspense fiction. In fact, the combined impact of accuracy and authenticity blended with superb storytelling may find some readers asking themselves if perhaps some parts of the story shouldn't have been made public, for fear that terrorists or global criminals might some day use it as a basis for an actual plan of attack. Those who've taken over the headquarters of the United States military have an exit strategy that has been brilliantly devised to shuttle them to safety and provide for the enjoyment of their ill-gotten profits -- a scam on a global scale that promises to net the Building's hijackers a considerable fortune. By any standard, Threatcon Delta: Assault on the Pentagon is action thriller fiction at its boldest and best. It's one of the achievements that have earned David Alexander a secure place at the top of the list of the world's masters of the game.

Still Broken A. J. Rossmiller, 2008-08-05 After 9/11, billions of dollars were spent to overhaul America's dysfunctional intelligence services, which were mired in bureaucracy, turf wars, and dated technology. But in this astonishing new book, A. J. Rossmiller, a former Defense Intelligence Agency analyst honored for his efforts here and in Iraq, reveals firsthand evidence that the intelligence system remains in disrepair. Still Broken is a blistering account of the ideology and incompetence that cripple our efforts to confront our enemies and fight our wars. Like many Americans, Rossmiller was moved to action by the attacks on 9/11. Freshly graduated from Middlebury College, he went to work for the U.S. government in 2004. But his enthusiasm slowly turned to disillusion as he began to fulfill his duties for DIA, the spy arm of the Department of Defense. There he found the Cold War and 9/11 generations at odds, the cause of fighting terrorism superseded by the need to contain a dismally managed war in Iraq, the Bush administration widely mocked and distrusted, and the intelligence process crippled from top to bottom. Rather than give up, Rossmiller instead went further, volunteering to go to Iraq to aid the troops on the ground, contribute to tactical intelligence, and, he hoped, help bring about an end to a fatally mismanaged war. For six months in that besieged country, he worked for the Direct Action Cell, the "track 'em and whack 'em" unit devoted to unmasking and targeting insurgents. He learned that, to put it mildly, the intelligence process bears no resemblance to the streamlined, well-resourced, and timely operation in a James Bond or Jason Bourne movie. He also experienced the disastrous counterterrorism and detainee strategies for which mass imprisonment-with little interest in guilt or innocence-is standard operating procedure. Back at the Pentagon as a strategic issues expert in the Office of Iraq Analysis, Rossmiller saw the administration's heavy hand in determining how information is processed. In a dysfunctional office filled with outsize personalities and the constant drone of Fox News, he filed reports on the ever-worsening situation in Iraq. These assessments, ultimately proven accurate, were consistently

rejected as “too pessimistic” and “off message” and repeatedly changed to be more in line with delusional White House projections. Written with passion, intensity, and self-deprecating humor, *Still Broken* is a riveting and sobering portrait of Bush-era intelligence failures and manipulations, laid out by someone who witnessed them up close and personal. It also offers a sincere, thoughtful prescription for healing the system so that a new and motivated generation won’t disengage completely from its government.

Pentagon 9/11 Alfred Goldberg, 2007-09-05 The most comprehensive account to date of the 9/11 attack on the Pentagon and aftermath, this volume includes unprecedented details on the impact on the Pentagon building and personnel and the scope of the rescue, recovery, and caregiving effort. It features 32 pages of photographs and more than a dozen diagrams and illustrations not previously available.

The Pyramids and the Pentagon Nick Redfern, 2012-06-22 The *Pyramids and the Pentagon* is a detailed study of how and why government agencies have, for decades, taken a clandestine and profound interest in numerous archeological, historical, and religious puzzles. Focusing primarily upon the classified work of the U.S. Government, *The Pyramids and the Pentagon* invites you to take a wild ride into the fog-shrouded past. It’s a ride that incorporates highlights such as: The CIA’s top-secret files on Noah’s Ark U.S. Army documents positing that the Egyptian Pyramids were constructed via levitation Disturbing military encounters with Middle Eastern djinns Claims of nuclear warfare in ancient India Links between the Face on Mars and the pharaohs And many more Nick Redfern’s *The Pyramids and the Pentagon* clearly and provocatively demonstrates that deep and dark conspiracies exist within the shadowy world of officialdom—conspiracies that have the ability to rock the foundations of civilization, religion, and history to their very core. The strange and amazing secrets of the past are just a heavily guarded government vault away.

The Pentagon Propaganda Machine James William Fulbright, 1971
Recruiter Journal, 2008

The Pentagon and the Presidency Dale R. Herspring, 2005-03-04 While presidents have always kept a watchful eye on the military, our generals have been equally vigilant in assessing the commander-in-chief. Their views, however, have been relatively neglected in the literature on civil-military relations. By taking us inside the military's mind in this matter, Dale Herspring's new book provides a path-breaking, utterly candid, and much-needed reassessment of a key relationship in American government and foreign policymaking. As Herspring reminds us, that relationship has often been a very tense, even extremely antagonistic one, partly because the military has become a highly organized and very effective bureaucratic interest group. Reevaluating twelve presidents—from Franklin D. Roosevelt to George W. Bush—Herspring shows how the intensity of that conflict depends largely on the military's perception of the president's leadership style. Quite simply, presidents who show genuine respect for military culture are much more likely to develop effective relations with the military than those who don't. Each chapter focuses on one president and his key administrators—such as Robert McNamara, Henry Kissinger, and Donald Rumsfeld—and contains case studies showing how the military reacted to the president's leadership. In the final chapter, Herspring ranks the presidents according to their degree of conflict with the military: Lyndon Johnson received exceedingly low marks for being overbearing and dismissive of the armed forces, further aggravating his Vietnam problem. George H. W. Bush inspired respect for not micromanaging military affairs. And Bill Clinton was savaged both privately and publicly by military leaders for having been a draft dodger, cutting Pentagon spending, and giving the Don't Ask, Don't Tell tag an unnecessarily

high profile. From World War II to Operation Iraqi Freedom, Herspring clearly shows how the nature of civilian control has changed during the past half century. He also reveals how the military has become a powerful bureaucratic interest group very much like others in Washington-increasingly politicized, media-savvy, and as much accountable to Congress as to the commander-in-chief. Ultimately, *The Pentagon and the Presidency* illuminates how our leaders devise strategies for dealing with threats to our national security-and how the success of that process depends so much upon who's in charge and how that person's perceived by our military commanders.

Area 51 Annie Jacobsen, 2011-05-17 This compellingly hard-hitting bestseller from a Pulitzer Prize finalist gives readers the complete untold story of the top-secret military base for the first time (New York Times). It is the most famous military installation in the world. And it doesn't exist. Located a mere seventy-five miles outside of Las Vegas in Nevada's desert, the base has never been acknowledged by the U.S. government — but Area 51 has captivated imaginations for decades. Myths and hypotheses about Area 51 have long abounded, thanks to the intense secrecy enveloping it. Some claim it is home to aliens, underground tunnel systems, and nuclear facilities. Others believe that the lunar landing itself was filmed there. The prevalence of these rumors stems from the fact that no credible insider has ever divulged the truth about his time inside the base. Until now. Annie Jacobsen had exclusive access to nineteen men who served the base proudly and secretly for decades and are now aged 75-92, and unprecedented access to fifty-five additional military and intelligence personnel, scientists, pilots, and engineers linked to the secret base, thirty-two of whom lived and worked there for extended periods. In Area 51, Jacobsen shows us what has really gone on in the Nevada desert, from testing nuclear weapons to building super-secret, supersonic jets to pursuing the War on Terror. This is the first book based on interviews with eye witnesses to Area 51 history, which makes it the seminal work on the subject. Filled with formerly classified information that has never been accurately decoded for the public, Area 51 weaves the mysterious activities of the top-secret base into a gripping narrative, showing that facts are often more fantastic than fiction, especially when the distinction is almost impossible to make.

When the Pentagon was for Sale Andy Pasztor, 1995 The reporter who covered the Defense Department for The Wall Street Journal now reveals the rampant defense industry corruption during the Reagan years--and how the Clinton administration is paying the price of the biggest Pentagon scandals in history. Photos.

The Troubled Path to the Pentagon's Rules on Media Access to the Battlefield: Grenada to Today ,

The Pentagon Wars James G Burton, 2014-02-15 From the late 1960s through the mid-1980s, a small band of military activists waged war against corruption in the Pentagon, challenging a system they believed squandered the public's money and trust. The book examines the movement and its proponents and describes how the system responded to the criticisms and efforts to change accepted practices and entrenched ways of thinking. The author, an air force colonel and part of the movement, worked in the pentagon for fourteen years. He presents a view of the Department of Defense that only an insider could offer. He exposes serious flaws in the military policy-making process, particularly in weapons development and procurement. The details he gives on the unrelenting push for high-tech weapons, despite their ineffectiveness and extraordinary cost-overruns, provide a strong case for the charge of ethical bankruptcy. The second half of the book deals with the author's attempts to get frontline equipment tested under combat conditions. For the first time, readers learn the nasty details of his battle with the army over line-fire testing of the Bradley Fighting Vehicle—a battle that he eventually won, leading to the personnel carrier's redesign and the saving of many lives. Never reluctant to name names and reveal details, James G. Burton presents a forceful case. And his revelations offer insights not found elsewhere into the motivations

and actions of the people who wield power from within. Nor does he stop at the walls of the Pentagon. In his epilogue he tells what happened in the field during the final hours of the Gulf War that allowed Hussein's elite Republican Guard to escape. Now back in print after having inspired a feature HBO film, this explosive account of insider corruption is sure to serve policy-makers for generations to come.

Wireless Satellite & Broadcasting ,

Secrets Daniel Ellsberg, 2003-09-30 The true story of the leaking of the Pentagon Papers, the event which inspired Steven Spielberg's feature film *The Post* In 1971 former Cold War hard-liner Daniel Ellsberg made history by releasing the Pentagon Papers - a 7,000-page top-secret study of U.S. decision-making in Vietnam - to the New York Times and Washington Post. The document set in motion a chain of events that ended not only the Nixon presidency but the Vietnam War. In this remarkable memoir, Ellsberg describes in dramatic detail the two years he spent in Vietnam as a U.S. State Department observer, and how he came to risk his career and freedom to expose the deceptions and delusions that shaped three decades of American foreign policy. The story of one man's exploration of conscience, *Secrets* is also a portrait of America at a perilous crossroad. [Ellsberg's] well-told memoir sticks in the mind and will be a powerful testament for future students of a war that the United States should never have fought. -The Washington Post Ellsberg's deft critique of secrecy in government is an invaluable contribution to understanding one of our nation's darkest hours. - Theodore Roszak, San Francisco Chronicle

Pentagon Rules on Media Access to the Persian Gulf War United States. Congress. Senate. Committee on Governmental Affairs, 1991

Army of None: Autonomous Weapons and the Future of War Paul Scharre, 2018-04-24 The book I had been waiting for. I can't recommend it highly enough. —Bill Gates The era of autonomous weapons has arrived. Today around the globe, at least thirty nations have weapons that can search for and destroy enemy targets all on their own. Paul Scharre, a leading expert in next-generation warfare, describes these and other high tech weapons systems—from Israel's Harpy drone to the American submarine-hunting robot ship *Sea Hunter*—and examines the legal and ethical issues surrounding their use. "A smart primer to what's to come in warfare" (Bruce Schneier), *Army of None* engages military history, global policy, and cutting-edge science to explore the implications of giving weapons the freedom to make life and death decisions. A former soldier himself, Scharre argues that we must embrace technology where it can make war more precise and humane, but when the choice is life or death, there is no replacement for the human heart.

Al-Jazeera Hugh Miles, 2005 Al Jazeera is one of the most widely watched news channels in the world--and one of the most controversial. A noted journalist speculates on the potentially dramatic effects of the network's new station on the Western world while uncovering the true story behind one of the most influential media outlets.

The Pentagon's Wars Mark Perry, 2017-10-24 A gripping insider account of the clash between America's civilian and military leadership *The Pentagon's Wars* is a dramatic account of the deep and divisive debates between America's civilian leaders and its military officers. Renowned military expert Mark Perry investigates these internal wars and sheds new light on the US military-the most powerful and influential lobby in Washington. He reveals explosive stories, from the secret history of Clinton's don't ask, don't tell policy to how the military plotted to undermine Barack Obama's strategy in Afghanistan, to show how internal strife and deep civilian-military animus shapes America's policy abroad, often to the nation's detriment. Drawing on three decades of high-profile interviews, both on and off the record, Perry yields sobering judgments on the tenures of our nation's most important military leaders. *The Pentagon's Wars*

is essential reading for anyone seeking to understand the inner workings of the making of America's foreign policy.

As recognized, adventure as well as experience more or less lesson, amusement, as skillfully as harmony can be gotten by just checking out a ebook **Pentagon Channel** plus it is not directly done, you could consent even more on the order of this life, concerning the world.

Pentagon Channel Introduction

In the digital age, access to information has become easier than ever before. The ability to download Pentagon Channel has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Pentagon Channel has opened up a world of possibilities. Downloading Pentagon Channel provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Pentagon Channel has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Pentagon Channel. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many

authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Pentagon Channel. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Pentagon Channel, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Pentagon Channel has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Pentagon Channel Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and

device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Pentagon Channel is one of the best book in our library for free trial. We provide copy of Pentagon Channel in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Pentagon Channel. Where to download Pentagon Channel online for free? Are you looking for Pentagon Channel PDF? This is definitely going to save you time and cash in something you should think about.
