*The Global Findex Database 2017* Asli Demirguc-Kunt,Leora Klapper,Dorothe Singer,Saniya Ansar,2018-04-19 In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and

other relevant materials—are available at [www.worldbank.org/globalfindex](http://www.worldbank.org/globalfindex).

**The Rise of the People's Bank of China** Stephen Bell, 2013-06-01 The People's Bank of China surpasses the Federal Reserve as the world's biggest central bank. In the first comprehensive account of the evolution of central banking and monetary policy in reform China, Stephen Bell and Hui Feng show how the PBC's authority grew from a Leninist party-state that once jealously guarded its control.

*The Evolution of People's Banks* Donald Skeelee Tucker, 1922 An historical account on the effects of changing environment and adaptations to these changes within urban and rural cooperative credit institutions. Specifically examines the influence of Victor Aime Huber, Franz Hermann Schulze-Delitzsch, and Luzzatti on contemporary cooperative credit systems, the formation, structure, and operation of a People's Bank, state aid and the Hauptnerband, and the Universal Federation.

*How to Change* Katy Milkman, 2021-05-04 Wall Street Journal bestseller “A welcome revelation.” -- The Financial Times Award-winning Wharton Professor and Choiceology podcast host Katy Milkman has devoted her career to the study of behavior change. In this ground-breaking book, Milkman reveals a

proven path that can take you from where you are to where you want to be, with a foreword from psychologist Angela Duckworth, the best-selling author of *Grit*. Change comes most readily when you understand what's standing between you and success and tailor your solution to that roadblock. If you want to work out more but find exercise difficult and boring, downloading a goal-setting app probably won't help. But what if, instead, you transformed your workouts so they became a source of pleasure instead of a chore? Turning an uphill battle into a downhill one is the key to success. Drawing on Milkman's original research and the work of her world-renowned scientific collaborators, *How to Change* shares strategic methods for identifying and overcoming common barriers to change, such as impulsivity, procrastination, and forgetfulness. Through case studies and engaging stories, you'll learn:

- Why timing can be everything when it comes to making a change
- How to turn temptation and inertia into assets
- That giving advice, even if it's about something you're struggling with, can help you achieve more

Whether you're a manager, coach, or teacher aiming to help others change for the better or are struggling to kick-start change yourself, *How to Change* offers an invaluable, science-based blueprint for achieving your goals, once and for all.

TPS Frequency Dictionary of Mandarin Chinese Michael Burkhardt,2010-05-20 The TPS Frequency Dictionary of Mandarin Chinese is not just another character frequency based dictionary. It has been

designed to provide students with a guide for learning new characters, words, and phrases gradually, building upon characters already familiar. The entries have been arranged according to a Triple Progression System in which words are grouped first by character frequency, then by word frequency, and filtered so that new words and phrases appear only after all of their component characters have been introduced.

*AI and Cognitive Science '90* Michael F. McTear, Norman Creaney, 2013-03-14 This book contains the edited versions of papers presented at the 3rd Irish Conference on Artificial Intelligence and Cognitive Science, which was held at the University of Ulster at Jordanstown, Northern Ireland on 20-21 September 1990. The main aims of this annual conference are to promote AI research in Ireland, to provide a forum for the exchange of ideas amongst the different disciplines concerned with the study of cognition, and to provide an opportunity for industry to see what research is being carried out in Ireland and how they might benefit from the results of this research. Although most of the participants at the conference came from universities and companies within Ireland, a positive feature of the conference was the extent of interest shown outside of Ireland, resulting in participants from USA, Canada, Austria, and England. The keynote speakers were Professor David Chin, University of Hawaii, and Professor Derek Partridge, University of Exeter, and the topics included machine learning, AI tools and methods, expert systems, speech, vision, natural language, reasoning with uncertain information, and explanation. The sponsors of

the conference were Digital Equipment Co (Galway) and the Industrial Development Board for Northern Ireland.
