Digital Culture & Society (DCS) Ramón Reichert, Annika Richterich, Pablo Abend, Mathias Fuchs, Karin Wenz, 2016-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and practice.

Best iPad Apps Peter Meyers, 2010-12-08 What really wows iPad fans is when their touchscreen

does what's impossible on other gadgets: the finger-painting app that turns a cross-country flight into a moving art class, the mini music studio (two-dozen instruments strong, each with motion-induced warble effects), and the portable fireworks display that you sculpt by swiping. Problem is, with tens of thousands of apps available for your iPad, who knows what to download? You can try to sort through a gazillion customer reviews with a mix of 5- and 1-star ratings, but that's a head-hurting time-waster. The stakes are getting higher, too: instead of freebies and 99-cent trinkets, the price of iPad apps is steadily creeping up and beyond their iPhone predecessors. Best iPad Apps guides you to the hidden treasures in the App Store's crowded aisles. Author Peter Meyers stress-tested thousands of options to put together this irresistible, page-turner of a catalog. Inside these pages, you'll find apps as magical as the iPad itself. Flip through the book for app suggestions, or head directly to one of several categories we've loaded up with best of selections to help you: Get work done Manipulate photos Make movies Create comics Browse the Web better Take notes Outline ideas Track your health Explore the world No matter how you use your iPad, Best iPad Apps will help you find the real gems among the rubble -- so you make the most of your glossy gadget.

Young People and Social Media: Contemporary Children's Digital Culture Steve Gennaro, Blair Miller, 2021-10-05 'Young People and Social Media: Contemporary Children's Digital Culture' explores the practices, relationships, consequences, benefits, and outcomes of children's experiences with, on, and through social media by bringing together a vast array of different ideas about childhood, youth, and young people's lives. These ideas are drawn from scholars working in a variety of disciplines, and rather than just describing the social construction of childhood or an understanding of children's lives, this collection seeks to encapsulate not only how young people exist on social media but also how their physical lives are impacted by their presence on social media. One of the aims of this volume in exploring youth interaction with social media is to unpack the structuring of digital technologies in terms of how young people access the technology to use it as a means of communication, a platform for identification, and a tool for participation in their larger

social world. During longstanding and continued experience in the broad field of youth and digital culture, we have come to realize that not only is the subject matter increasing in importance at an immeasurable rate, but the amount of textbooks and/or edited collections has lagged behind considerably. There is a lack of sources that fully encapsulate the canon of texts for the discipline or the rich diversity and complexity of overlapping subject areas that create the fertile ground for studying young people's lives and culture. The editors hope that this text will occupy some of that void and act as a catalyst for future interdisciplinary collections. 'Young People and Social Media: Contemporary Children's Digital Culture' will appeal to undergraduate students studying Child and Youth Studies and—given the interdisciplinary nature of the collection— scholars, researchers and students at all levels working in anthropology, psychology, sociology, communication studies, cultural studies, media studies, education, and human rights, among others. Practitioners in these fields will also find this collection of particular interest.

The Animal Lover's Guide to Changing the World Stephanie Feldstein, 2018-06-05 This book belongs on every animal lover's shelf—and it's a particularly great gift for young people who are on fire to save animals but are unsure where to start. Hooray!! —Sy Montgomery, author of *The Good Good Pig* and *The Soul of an Octopus* *The Animal Lover's Guide to Changing the World* is the inspiring, accessible, and empowering book for everyone who loves animals and wants to live a more animal-friendly life, even if they aren't ready to join a movement or give up bacon. With more than 7.5 billion people on the planet, wildlife is going extinct at the fastest rate since the dinosaurs. Three to four million dogs and cats are killed in shelters every year; billions of chickens, pigs, and cows are killed for food; and countless animals are killed in research labs or their habitat. The numbers are daunting, but there's good news too! Even one person truly can make a difference without breaking the bank. With Stephanie Feldstein's straightforward and encouraging guidance, readers will learn how to take action to create a better world for the animals we love. It starts with changes as simple as taking a shorter shower, skipping meat once a week, wearing this not that, and extends all the way to online activism and politics. The animals need us; so let's get on with some world changing!
