The Turkic Languages Lars Johanson, Éva Á. Csató, 2021-12-27 The Turkic languages are spoken today in a vast geographical area stretching from southern Iran to the Arctic Ocean and from the Balkans to the great wall of China. There are currently 20 literary languages in the group, the most important among them being Turkish with over 70 million speakers; other major languages covered include Azeri, Bashkir, Chuvash, Gagauz, Karakalpak, Kazakh, Kirghiz, Noghai, Tatar, Turkmen, Uyghur, Uzbek, Yakut, Yellow Uyghur and languages of Iran and South Siberia. The Turkic Languages is a reference book which brings together detailed discussions of the historical development and specialized linguistic structures and features of the languages in the Turkic family. Seen from a linguistic typology point of view, Turkic languages are particularly interesting because of their astonishing morphosyntactic regularity, their vast geographical distribution, and their great stability over time. This volume builds upon a work which has already become a defining classic of Turkic language study. The present, thoroughly revised edition updates and augments those authoritative accounts and reflects recent and ongoing developments in the languages themselves, as well as our further enhanced understanding of the relations and patterns of influence between them. The result is the fruit of decades-long experience in the teaching of the Turkic languages, their philology and literature, and also of a wealth of new insights into the linguistic phenomena and cultural interactions defining their development and use, both historically and in the present day. Each chapter combines modern linguistic analysis with traditional historical linguistics; a uniform structure allows for easy typological comparison between the individual languages. Written by an international team of experts, The Turkic Languages will be invaluable to students and researchers within linguistics, Turcology, and Near Eastern and Oriental Studies.

Advances in Iranian Linguistics II Simin Karimi, Narges Nematollahi, Roya Kabiri, Jian Gang Ngui, 2023-04-15 This volume offers insight into different aspects of an interesting but fairly understudied language family, opens a path to new inquiries, and provides valuable contribution to linguistics, in general, and to Iranian linguistics, in particular. The articles in this volume offer novel analyses of significant properties of some of the Iranian languages, and contribute to various linguistic subareas such as experimental and historical linguistics as well as the morphology, syntax and semantics of several members of this language family. Specifically, this volume features a few articles on the Ezafe construction which shed new light

on this interesting phenomenon of Western Iranian languages from historical, comparative and syntactic points of view. Moreover, a few articles address the syntax and formal semantics of properties of Persian, offering new insight into particular constructions in this language which are also fruitful for the general theory of linguistics. Crucially, all authors raise important questions, opening up the path for further investigations.

Iranian Culture Nasrin Rahimieh, 2015-08-27 Throughout modern Iranian history, culture has served as a means of imposing unity and cohesion onto society. The Pahlavi monarchs used it to project an image of Iran as an ancient civilisation, re-emerging as an equal to Western nations, while the revolutionaries deployed it to remake the country into an Islamic nation. Just as Iranian culture has been continually re-interpreted, the representations and avocations of Iranian identity vary amongst Iranians across the world. *Iranian Culture: Representation and Identity* demonstrates these fissures and the incompatibilities that refuse to be written out of national culture, analysing works of literature, popular music, graphic art and film, as well as oral narratives. Using works produced before and after the 1979 revolution, created both inside and outside of Iran, this study reveals neglected complexities and contradictions in the field of Iranian cultural production. It considers how contested claims to culture, whether they originated in Iran or the Iranian diaspora, shape our understanding of this culture and what spaces they create for new articulations of it, and in doing so offers an important re-examination of our collective concept of culture. This book would be an excellent resource for students and scholars of Middle East Studies and Iranian Studies, specifically Iranian culture including film and contemporary literature and the Iranian diaspora.

Dirty Money Jessica Clare, 2017-01-17 Southern Texas heats up when the first of four roughneck billionaire brothers sets his sights on love in this novel from New York Times bestselling author Jessica Clare. Boone Price and his brothers know oil; at least, the dirty, backbreaking side of working an oil rig. But when their scrubby, worthless hunting land turns out to be sitting on top of one of the biggest oil wells in North America, they go from the rig to the boardroom and end up billionaires practically overnight. Now with enough money to do whatever he wants, Boone is developing a taste for fine things. And the finest thing he's ever seen is Ivy Smithfield, local realtor. Boone's determined to win her affection and show the world that he's more than just a dirty fool with a bit of money. Ivy's classy and beautiful—she'll make the perfect trophy wife. The fact that she's sexy and funny is just a bonus. There's one tiny problem—Ivy's as dirt poor as Boone was. Her carefully crafted veneer of luxury? All an act to promote her business. What's Boone going to do when he finds out the woman he's falling for is, well, in his league?

The Short Stories Langston Hughes, 2002 For the first time in many years, Langston Hughes's published collections of stories are now available in a single book. Included in this volume are: *Ways of White Folks*, originally published in 1934; *Laughing to Keep from Crying*, originally published in 1952; and additional stories from *Something in Common* and *Other Stories*, originally published in 1963; as well as previously uncollected stories. These fictions, carefully crafted in the language Hughes loved, manifest the many themes for which he is best known. We meet and come to know many characters—black and white, young and old, men and women—all as believable as our own families, friends, and acquaintances. Hughes's stories portray people as they actually are: a mixture of good, bad, and much in-between. In these short stories, as in the *Simple* stories, the reader enjoys Hughes's humor and irony. The stories show us his inclination to mock himself and his beloved people, as much as he ridicules the flaws of those who belittle his race. His genuine characters interact and realistically bring to life this era of America's past. By maintaining the form and format of the original story collections, this volume presents Hughes's stories as he wanted them to be read. This volume will be an invaluable addition to the library of anyone interested in African American literature generally and the fiction of Langston Hughes specifically.
