

Personal Development Gurus

Mark Singleton, Ellen Goldberg

Judgment Detox Gabrielle Bernstein, 2018-01-02

"Gabrielle is the real thing. I respect her work immensely." –Dr. Wayne Dyer "A new role model." –The New York Times "I came to one of Bernstein's monthly lectures and got my first look at the woman I'd one day unabashedly refer to as 'my guru.'" –Elle From #1 New York Times bestselling author Gabrielle Bernstein comes a clear, proactive, step-by-step process to release the beliefs that hold you back from living a better life. This six-step practice offers many promises. Petty resentments will disappear, compassion will replace attack, the energy of resistance will transform into freedom and you'll feel more peace and happiness than you've ever known. I can testify to these results because I've lived them. I've never felt more freedom and joy than I have when writing and practicing these steps. My commitment to healing my own relationship to judgment has changed my life in profound ways. My awareness of my judgment has helped me become a more mindful and conscious person. My willingness to heal these perceptions has set me free. I have been able to let go of resentments and jealousies, I can face pain with curiosity and love, and I forgive others and myself much more easily. Best of all, I have a healthy relationship to judgment so that I can witness when it shows up and I can use these steps to quickly return to love. The Judgment Detox is an interactive six-step process that calls on spiritual principles from the text A Course in Miracles, Kundalini yoga, the Emotional Freedom Technique (aka Tapping), meditation,

prayer and metaphysical teachings. I've demystified these principles to make them easy to commit to and apply in your daily life. Each lesson builds upon the next to support true healing. When you commit to following the process and become willing to let go, judgment, pain and suffering will begin to dissolve. And the miracles will keep coming. Once you begin to feel better you start to release your resistance to love. The more you practice these steps, the more love enters into your consciousness and into your energetic vibration. When you're in harmony with love, you receive more of what you want. Your energy attracts its likeness. So when you shift your energy from defensive judgment to free-flowing love your life gets awesome. You'll attract exactly what you need, your relationships will heal, your health will improve and you'll feel safer and more secure. One loving thought at a time creates a miracle. Follow these steps to clear all blocks, spread more love and live a miraculous life.

is to an entire organization as well. These intangible resources can foster and encourage the success of a person or a company as it develops each individual to the best that they can be. Sham Steve Salerno, 2006-09-26 Self-help: To millions of Americans it seems like a godsend. To many others it seems like a joke. But as investigative reporter Steve Salerno reveals in this groundbreaking book, it's neither—in fact it's much worse than a joke. Going deep inside the Self-Help and Actualization Movement (fittingly, the words form the acronym SHAM), Salerno offers the first serious exposé of this multibillion-dollar industry and the real damage it is doing—not just to its paying customers, but to all of American society. Based on the author's extensive reporting—and the inside look at the industry he got while working at a leading “lifestyle” publisher—SHAM shows how thinly credentialed “experts” now dispense advice on everything from mental health to relationships to diet to personal finance to business strategy. Americans spend upward of \$8 billion every year on self-help programs and products. And those staggering financial costs are actually the least of our worries. SHAM demonstrates how the self-help movement's core philosophies have infected virtually every aspect of American life—the home, the workplace, the schools, and more. And Salerno exposes the downside of being uplifted, showing how the “empowering” message that dominates self-

help today proves just as damaging as the blame-shifting rhetoric of self-help's "Recovery" movement. SHAM also reveals:

- How self-help gurus conduct extensive market research to reach the same customers over and over—without ever helping them
- The inside story on the most notorious gurus—from Dr. Phil to Dr. Laura, from Tony Robbins to John Gray
- How your company might be wasting money on motivational speakers, "executive coaches," and other quick fixes that often hurt quality, productivity, and morale
- How the Recovery movement has eradicated notions of personal responsibility by labeling just about anything—from drug abuse to "sex addiction" to shoplifting—a dysfunction or disease
- How Americans blindly accept that twelve-step programs offer the only hope of treating addiction, when in fact these programs can do more harm than good
- How the self-help movement inspired the disastrous emphasis on self-esteem in our schools
- How self-help rhetoric has pushed people away from proven medical treatments by persuading them that they can cure themselves through sheer application of will

As Salerno shows, to describe self-help as a waste of time and money vastly understates its collateral damage. And with SHAM, the self-help industry has finally been called to account for the damage it has done. Also available as an eBook

Lifestyle Gurus Stephanie A. Baker,Chris Rojek,2020-01-16 The rise of blogs and social media provide a public platform for people to share information online. This trend has facilitated an industry of self-appointed 'lifestyle gurus' who have become instrumental in the management of intimacy and social relations. Advice on health, wealth creation, relationships and well-being is rising to challenge the authority of experts and professionals. Pitched as 'authentic', 'accessible' and 'outside of the

system', this information has produced an unprecedented sense of empowerment and sharing. However, new problems have arisen in its wake. In *Lifestyle Gurus*, Baker and Rojek explore how authority and influence are achieved online. They trace the rise of lifestyle influencers in the digital age, relating this development to the erosion of trust in the expert-professional power bloc. The moral contradictions of lifestyle websites are richly explored, demonstrating how these technologies encourage a preoccupation with the very commercial and corporate hierarchies they seek to challenge. A timely account of how lifestyle issues are being packaged and transacted in a wired-up world, this book is important reading for students and scholars of media, communication, sociology and related disciplines.

Self-Empowerment Lcsw Ken Howard, 2013-03-01 If you read only one self-help book this year, make *Self-Empowerment: Have the Life You Want!* it. It's the portable therapist to help you close the gap between how life is, and how you would like it to be, in important areas of your life, such as your Mental Health, Health, Career, Relationships, Finances, Family, Community, and Spirituality, based on over 20 years of counseling, psychotherapy, and coaching by Ken Howard, LCSW.

The Seeking Self Richard Lind, 2000-01-01 Whether seeking recognition, spirituality, or some other kind of self improvement, we are endlessly striving to become something 'better'. But even if we obtain what we are looking for, we cannot refrain from creating another quest. Always driven to distraction in pursuit of our goals, we have

never been able to enjoy-or even live-the life that was ours. In *The Seeking Self*, the author suggests that self-transformation can only occur if we are able to stop interfering with the experience of who we naturally are.

The Power of Now Eckhart Tolle,2010-10-06 It's no wonder that *The Power of Now* has sold over 16 million copies worldwide and has been translated into over 30 foreign languages. Much more than simple principles and platitudes, the book takes readers on an inspiring spiritual journey to find their true and deepest self and reach the ultimate in personal growth and spirituality: the discovery of truth and light. In the first chapter, Tolle introduces readers to enlightenment and its natural enemy, the mind. He awakens readers to their role as a creator of pain and shows them how to have a pain-free identity by living fully in the present. The journey is thrilling, and along the way, the author shows how to connect to the indestructible essence of our Being, the eternal, ever-present One Life beyond the myriad forms of life that are subject to birth and death. Featuring a new preface by the author, this paperback shows that only after regaining awareness of Being, liberated from Mind and intensely in the Now, is there Enlightenment.

Gurus of Modern Yoga Mark Singleton, Ellen Goldberg,2014 *Gurus of Modern Yoga* explores the contributions that individual gurus have made to the formation of the practices and discourses of yoga in today's world.

Creating Personal Presence Dianna

Stand Firm Svend Brinkmann, 2017-02-27 The pace of modern life is accelerating. To keep up, we must keep on moving and adapting – constantly striving for greater happiness and success. Or so we are told. But the demands of life in the fast lane come at a price: stress, fatigue and depression are at an all-time high, while our social interactions have become increasingly self-serving and opportunistic. How can we resist today's obsession with introspection and self-improvement? In this witty and bestselling book, Danish philosopher and psychologist Svend

Brinkmann argues that we must not be afraid to reject the self-help mantra and 'stand firm'. The secret to a happier life lies not in finding your inner self but in coming to terms with yourself in order to coexist peacefully with others. By encouraging us to stand firm and get a foothold in life, this vibrant anti-self-help guide offers a compelling alternative to life coaching, positive thinking and the need always to say 'yes!'

What You Can Change... and What You Can't Martin Seligman, 2011-02-22 If you believe that dieting down to your ideal weight will prolong your life; that reliving childhood trauma can undo adult personality problems; that alcoholics have addictive personalities, or that psychoanalysis helps cure anxiety, then get ready for a shock. In the climate of self-improvement that has reigned for the last twenty years, misinformation about treatments for everything from alcohol abuse to sexual dysfunction has flourished. Those of us trying to change these conditions are often frustrated by failure, mixed success, or success followed by a relapse. But have you ever asked yourself: can my condition really be changed? And if so, am I going about it in the most effective way? Grounding his conclusions in the most recent and most authoritative scientific studies, Seligman pinpoints the techniques and therapies that work best for each condition, explains why they work, and discusses how you can use them to change your life. Inside, you'll discover: the four natural healing factors for recovering from alcoholism; the vital difference between overeating and being overweight, and why dieters

always gain back the pounds they lost; the four therapies that work for depression, and how you can dispute your way to optimistic thinking; the pros and cons of anger, and the steps to take to understand it and much more!
