You and Your Money Riggs, 2013-03 This book addresses the very many considerations persons face in handling their income, savings, investing, borrowing, protecting against risks, and tax planning. Somewhat surprisingly our educational system, at the high school level and beyond, rarely addresses this myriad of issues both problems and opportunities -- that can be categorized as personal finances. Our schools lecture) ceaselessly about the challenges of drugs, sex, alcohol, smoking, social media and wellness -- and appropriately so, since young people are exposed to endless opportunities to make poor and harmful decisions regarding each of those matters. But so also are adults at all ages teenagers to senior citizens confronted by a host of challenges and opportunities as to how to manage their personal finances -- from before they receive their first paychecks and continuing on through retirement and death. As we proceed through high school, college, and even graduate school, we may take courses in accounting, finance, economics, and taxation, all of which offer tidbits of advice on handling our personal finances, but none are comprehensive in addressing personal finance. This book seeks to fill that void.

The Truth Shall Set Your Wallet Free Nicholas W. Stuller, 2018-11-13 The Truth Shall Set Your Wallet Free is aimed at debunking the myths that prevent people from achieving their wealth goals. And the first myth that needs to be bashed is that financial advisors are only for the very rich. In fact, there are more financial advisors who cater to modest-income Americans than those

who cater to the rich. Myths propagated by the media, regulators, and even the financial industry itself harm every American, from those at the poverty level to billionaires and everyone in between. This is the first time a holistic view of the entire advice market has been written by a non-advisor industry insider, without bias from any of the financial services sectors.

The Greatest Enemy Is You ! Tim Chang, 2010-03-01 I'm here to highlight the financial challenges facing most North Americans, who are struggling in one of the richest continents in the world. But the reality is 5% of the world population owns 90% of the wealth, leaving the remaining 95% with only 10%. This is not by accident, social engineering through government design, or the Almighty God. The biggest thing holding you back is you.
