Auto Accident Personal Injury Insurance Claim Dan Baldyga, 2002-04-01 Auto Accident Personal Injury Insurance Claim reveals the inside secrets of claim negotiating and shows you how to settle your case for top dollar. This book will guide you through the insurance claim wilderness and provide you with the answer to that critical question: How much is my pain and suffering worth? The mystery of how to place a value on your pain and suffering has been solved with the introduction of BASE: The Baldyga Auto Accident Settlement Evaluation Formula. It will help you to prove your losses, and to know how to present them during your negotiations. You'll learn the all-important 4 Values that BASE provides for you: The PREMIUM Value, The MEAN Value, The CORE Value and The LOW Value. The BASE Formula is a simple, yet revolutionary evaluation tool. Knowing how to guide an accident claim to a victorious payoff is not an exclusive ability, possessed by a select few. Don't be seduced into thinking you can't do it yourself. That simply isn't true! This book will show you how. If you've been in an accident and you're uninformed, you have little or no concept of the ultimate value of your possible recovery. Because of this, you're less able to make appropriate demands. As the claims negotiation process moves towards a close, you're settlement demands are very often too low or too high. You're ignorant of the accepted principles, which justify your demands. When you attempt to negotiate a settlement with these handicaps, you run a strong chance of being victimized. The amount of compensation you should be paid isn't found in a crystal ball. Rather, a number of simple factors such as the type of accident, related injuries, out-ofpocket expenses, medical costs and lost wages all go into determining how much a claim is worth. What amount an insurance company is willing to pay actually falls into a fairly narrow spectrum. To read this book is to become informed on bodily injury claim settlement facts and details. You'll discover how to implement BASE so you can determine the monetary value of the pain and suffering you've endured because of your injury. You'll know what to ask for and how to negotiate it. You'll learn how to supply the adjuster with all the documentation and proof needed to establish your claim. You'll gain the knowledge needed to accomplish this when you read Auto Accident Personal Injury Insurance Claim. And you'll walk away from the negotiation table with a smile on your face.

Soft Tissue Injuries and Hard Ball Tactics B. J. Kelley,2013-04-03 Insurance companies make billions of dollars by minimizing soft tissue injury claims. They are highly skilled at using strong tactics to accomplish this goal. Many individuals who suffer from injuries related to automobile, semi trucks, or motorcycle accidents often realize this far too late. Now, seasoned personal injury attorney B.J. Kelley draws from decades of experience to provide anyone suffering from an accident with an effective plan of action to manage the claim process. Soft Tissue Injuries and Hard Ball Tactics: Dealing With Soft Tissue Injuries and Insurance Companies is a straightforward, step-by-step "how to" manual to help anyone overcome

the daunting hurdles that insurance companies put forth to minimize personal injury claims. The average person is typically not equipped to deal with the carriers on their own. In fact, many of those who incur accident-related injuries simply believe they are just "a little sore" and expect to improve within a few days. However, there is often a delay in the onset of soft tissue pain so that the pain doesn't present until well after a person has foregone an attorney's counsel and made statements that indicated that all was well. Regrettably, this all-too-common course of events may work to your disadvantage when ultimately filing a soft tissue claim. To avoid pitfalls of this nature, Kelley clearly maps out every aspect of this all-important scenario. The book first details the motivations of the insurance companies. It then lays out the carriers' standard procedures and discusses why your own company won't necessarily help you after an accident. The author then itemizes the do's and don'ts you should consider after you've been in a wreck, from calling the police to hiring an attorney. He then defines a soft tissue injury, and the reasons the injury may not be immediately evident after a collision. The book also discusses medical treatment, the challenges of soft tissue injury cases, and what to expect from your attorney during the course of your case. When it comes to soft tissue injuries, information will give you the crucial power you need to handle your claim, and get the treatment to which you are entitled for as long as you may require it. Clear, concise, and indispensable, Soft Tissue Injuries and Hard Ball Tactics: Dealing With Soft Tissue Injuries and Insurance Companies can help ensure that the pain of an accident can be minimized in every way. Read it—and reap the coverage you have coming.

Wrecked Stan Greyson, 2020-05-12 My name is Stan Greyson and, while I'm not a lawyer, I'm an advocate for consumer rights. Several years ago a friend of mine suffered an injury from an automobile accident and I watched how difficult it was for her to get both the medical and legal help she deserved. Since then I've listened to scores of stories from accident victims who didn't get the medical or legal help they needed so I decided to write this book. More often than not personal injury victims fail to get the medical treatment they need, much less fair compensation for their pain and suffering. The truth is that most accident victims aren't immediately aware of their injuries. Most of us go to the doctor each year for an annual checkup but very few get a checkup after being involved in an accident. It is vital that you see a doctor following every accident. If you don't think you can afford to see a doctor there are lawyers who are willing to cover your medical bills. This book is designed to give accident victims the information they need in order to maximize the value of their personal injury claims while getting the medical care they need to protect the quality of their lives. The law allows that if you are injured by someone else's negligence you have a legal right to demand they put you back into the same place and condition you were in before the accident happened. The only lawful way for this to occur is for the other party to compensate you with cash. Determining how much money you are owed is a very complicated process and can be very adversarial as well. It is important to realize that insurance companies are focused on minimizing their payments to accident victims. They will thoroughly investigate you and your case in an effort to diminish the value of your claim as much as possible. Depending on the size of your claim and their financial exposure, they may employ various investigators to research your past social media activity, interview your family, friends, and coworkers. They may even attempt to trick you into engaging in activities that might tend to undermine your claim. Most personal injury victims don't realize that they must take personal responsibility for their medical care and legal case. Even with the best doctors and lawyers, the medical and financial outcome is your responsibility. You've got to do your part by keeping your doctors and lawyers informed and up-to-date on your condition and circumstances. They will have many patients and clients, and no one will understand your treatment process and legal case better than you. Finally, keep yourself apprised of the various statute of limitations and deadlines related to your case and enter them in your calendar. Don't be afraid to remind your lawyer of them well in advance.

Did you incur any costs today that were accident related? Other notes/things to do related to the accident.
