The Advanced Course in Personal Magnetism Theron Q. Dumont, 2005-11-01 An attractive manner is assured if we will avoid the following: Sarcasm, impertinence, ridicule, hot temper, profanity, roughness, brutality, vulgarity, a loud voice, and grouchiness.-from Chapter III, The Development of Your Magnetic Power The New Thought movement of the turn of the twentieth century combined Christian spirituality with the paranormal in order to give practical expression to the forces of the universe. Or so its proponents believed. One of the most influential thinkers of this early New Age philosophy promises here, in this 1914 book, to share in a condensed, non-mystical style all I have been able to learn of this wonderful power of personal magnetism. Mysteries revealed include: .the secrets of being naturally magnetic.the development of your magnetic power.how to use your personality to win the affection of the opposite sex.how to cultivate success.how to protect yourself against injurious thought attraction.how to make yourself a great power in the world.a formula for creating happiness Today's hunger for self-help, personal empowerment, and pop spirituality has its origins in a craving for self-improvement that's a century old, as this captivating little book demonstrates. Also available from Cosimo Classics: *The Art and Science of Personal Magnetism: The Secrets of Mental Fascination*, by Theron Q. Dumont. American writer WILLIAM WALKER ATKINSON (1862-1932)-aka Theron Q. Dumont-was born in Baltimore and had built up a successful law practice in Pennsylvania before professional burnout led him to the religious New Thought movement. He served as editor of the popular magazine *New Thought* from 1901 to 1905, and as editor of the journal *Advanced Thought* from 1916 to 1919.

The Art And Science Of Personal Magnetism Theron Q. Dumont, 2012 It is a strange and almost amusing fact that there should be at the same time, on the part of the general public, such a general acceptance of the existence of personal magnetism, on the one hand, and such an ignorance of the nature of this wonderful force, on the other hand. In short, while everyone believes in the existence of personal magnetism, scarcely anyone possesses knowledge of the real nature of the same, much less a working knowledge of its principles of application. This book gives you the key to the secret of personal magnetism, but it will still remain up to you to determine just what degree of success you will attain. The best tools and instructions as to how to use them are provided - but you will have to do the rest yourself. Success must and will be yours if you will follow the instructions carefully, persistently and perseveringly.

The Art And Science of Personal Magnetism Theron Q. Dumont, 2005 Introduction to *The Art and Science of Personal Magnetism*: I take pleasure in presenting to many American students who will acquire possession of copies of this book, these practical lessons on the art and science of Personal Magnetism. These chapters contain the gist of the lessons taught by me, in classes, and to individuals, in my courses of personal instruction conducted by me, here in Paris, for the past eighteen years. In my personal class work, of course, I adapt the instruction to the special requirements of my individual students, which I cannot do in the case of general lessons in printed form.

But, notwithstanding this, I feel that I have condensed into these pages the essence of my methods, and principles of practice, so that any student of average intelligence may readily grasp, assimilate, and apply the same with success, at least, I feel that if the student does not accomplish this, it will be his or her own fault, not that of myself. In introducing this book, I wish to express my obligations to Mr. L. N. D., an American student of mine, here in Paris, who has kindly transformed my rather stilted guidebook English into the plain, simple form desirable for a book designed for the general public. I feel particularly indebted to him for supplying the idiomatic, American man on the street terms, thus reproducing the conversational style which I use in all my lessons in French, but which my book English rendered impossible in this case without the kindly assistance of this worthy gentleman. With hand on heart, I send to my new American audience the sincere regards, and most earnest wishes for success, of their solicitous teacher, Theron Q. Dumont-Paris, France, August 26, 1913.

The Psychology of Personal Magnetism Theron Q. Dumont,2010-01-01 One of many books on mind powers and the supernatural that Theron Q. Dumont wrote, *The Psychology of Personal Magnetism* is an explanation and guide for using your mind to influence and affect others, in a positive way. Dumont (aka Atkinson) instructs readers not to be selfish with their powers of persuasion, but to develop them for good. Within, he covers how to develop mental and physical power, how to develop magnetism and its affects, how to avoid unwanted or hurtful attraction, and how to use personal magnetism to approach and encourage love and marriage. THERON Q. DUMONT is an alias and pen name of American writer WILLIAM WALKER ATKINSON (1862-1932), editor of the popular magazine *New Thought* from 1901 to 1905, and editor of the journal *Advanced Thought* from 1916 to 1919. He authored dozens of *New Thought* books under numerous pseudonyms, including Yogi, some of which are likely still unknown today.

How to Develop Personal Magnetism and Healing Powers Anonymous,2002-10 We have all met a person in the past who has what is called a magnetic personality. They seem to attract attention and good fortune wherever they go. What do they have that we don't? This book answers this question and proceeds to instruct us on how to cultivate this force and harness magnetic energies. Personal magnetism attracts interest, confidence, friendship and the love of others. Part Two of the book shows how we can use these same energies as a benefit toward others, through magnetic healing.

The Art and Science of Personal Magnetism Theron Q Dumont, 2017-09-26 Excerpted Text: The fact is that every person generates and throws off a certain degree (varying among different individuals) of personal magnetism, which affects the minds of other persons coming within the field of its influence. Not only does each person emanate and project a certain amount or degree of personal magnetism, additionally, each person is also constantly surrounded by a field of personal magnetic influence - a personal atmosphere, so to speak. This personal atmosphere affects to a greater or lesser degree other persons coming within its field of influence. This personal atmosphere varies greatly in degree of strength, extent and general character, among different individuals. The average person has but a weak personal atmosphere, which extends but a short distance on all sides of him, while the strong characters of the race are surrounded by a widely spread personal atmosphere of great, power, especially when they are aroused by any strong emotion, feeling or desire. The personal atmosphere of those strong individuals, who are generally recognized as leaders of the race, usually extends great distances from the person, and is fairly saturated with strong dynamic magnetism, which impresses itself strongly upon those coming within their field of influence. Some may raise the question that if, as I have said, each and every person is possessed of personal magnetism, then why should any one bother any more about the matter, or study the subject of personal magnetism at all. Such a question (and it is frequently raised, for that matter) causes a smile to manifest on the features of those who have knowledge of the subject; so childish does it seem to them. While it is true that each and every person is possessed of personal magnetism to some degree, it is equally true that the majority of persons have but a weak magnetic force, and that often of a negative or undesirable character. And, it is a fact positively known to those who have mastered the subject, that even the weakest and most negative person may so develop his or her personal magnetism as to gradually acquire the same degree and character of magnetism as that possessed by many individuals originally far in advance of them in magnetic influence. One may completely change the character of his personal magnetism, from negative to positive, from undesirable to desirable, by careful study and practice along the lines, which I shall lay down in this book. Moreover, it is possible for any person possessing sufficient will, perseverance and determination to develop from a puny state of magnetism into a condition of giant magnetic powers. But this latter requires determination, constant practice until a certain stage is reached, and an indomitable will. While any one may easily increase his or her degree of power of personal magnetism, and still more easily change the character of one's personal atmosphere, the higher prizes are reserved for those who will persevere to the end, and continue faithful in the exercises. This, of course, is true not only of personal magnetism, but also of every other thing worth having. There is no royal road to anything worth having. We must work for what we get. The prizes are not for the weaklings and triflers, but for the persistent, earnest individuals who will hang on until they succeed.
