**The Personality Brokers** Merve Emre, 2019-09-10 An unprecedented history of the

personality test conceived a century ago by a mother and her daughter—fiction writers with no formal training in psychology—and how it insinuated itself into our boardrooms, classrooms, and beyond. The basis for the HBO Max documentary, *Persona The Myers-Briggs Type Indicator* is the most popular personality test in the world. It is used regularly by Fortune 500 companies, universities, hospitals, churches, and the military. Its language of personality types—extraversion and introversion, sensing and intuiting, thinking and feeling, judging and perceiving—has inspired television shows, online dating platforms, and BuzzFeed quizzes. Yet despite the test's widespread adoption, experts in the field of psychometric testing, a \$2 billion industry, have struggled to validate its results—no less account for its success. How did Myers-Briggs, a homegrown multiple choice questionnaire, infiltrate our workplaces, our relationships, our Internet, our lives? First conceived in the 1920s by the mother-daughter team of Katherine Briggs and Isabel Briggs Myers, a pair of devoted homemakers, novelists, and amateur psychoanalysts, Myers-Briggs was designed to bring the gospel of Carl Jung to the masses. But it would take on a life entirely its own, reaching from the smoke-filled boardrooms of mid-century New York to Berkeley, California, where it was administered to some of the twentieth century's greatest creative minds. It would travel across the world to London, Zurich, Cape Town, Melbourne, and Tokyo, until it could be found just as easily in elementary schools, nunneries, and wellness retreats as in shadowy political consultancies and on social networks. Drawing from original reporting and never-before-published documents, *The Personality Brokers* takes a critical look at the personality indicator that became a cultural icon. Along the way it examines nothing less than the definition of the self—our attempts to grasp, categorize, and quantify our personalities. Surprising and absorbing, the book, like the test at its heart, considers the timeless question: What makes you, you?

In *Who Are You, Really?* Dr. Brian Little presents a distinctive view of how personality shapes our lives--and why this matters. The Type B Manager Victor Lipman, 2015-08-04 In The Type B Manager, Victor Lipman offers a unique lens through which to view the challenging problems of management. While management has long been considered the realm of Type A individuals—hard-driving, competitive high achievers—all too often these high-intensity traits aren't effective when it comes to motivating your employees. Many characteristics of Type B individuals—being more relaxed, less competitive, more reflective, slower to

anger—can be considered “people skills” that better influence motivation and productivity. And successful management after all is the practice of accomplishing work through other people. In a business landscape where 70 percent of employees are disengaged and not working at full productive capacity, Lipman focuses on practical tactical aspects of management viewed through a Type B lens, including: · Motivating and developing employees · Handling conflict, and · Engendering trust and respect He examines specific skills, behaviors, and situations where a Type B mindset is advantageous and suggests ways that self-described Type A managers can boost their effectiveness by adopting Type B approaches—and vice versa.
