War and Democratic Constraint Matthew A. Baum,Philip B. K. Potter,2015-04-27 Why do some democracies reflect their citizens' foreign policy preferences better than others? What roles do the media, political parties, and the electoral system play in a democracy's decision to join or avoid a war? War and Democratic Constraint shows that the key to how a government determines foreign policy rests on the transmission and availability of information. Citizens successfully hold their democratic governments accountable and a distinctive foreign policy emerges when two vital institutions—a diverse and independent political opposition and a robust media—are present to make timely information accessible. Matthew Baum and Philip Potter demonstrate that there must first be a politically potent opposition that can blow the whistle when a leader missteps. This counteracts leaders' incentives to obscure and misrepresent. Second, healthy media institutions must be in place and widely accessible in order to relay information from whistle-blowers to the public. Baum and Potter explore this communication mechanism during three different phases of international conflicts: when states initiate wars, when they respond to challenges from other states, or when they join preexisting groups of actors engaged in conflicts. Examining recent wars, including those in Afghanistan and Iraq, War and Democratic Constraint links domestic politics and mass media to international relations in a brand-new way.

Young Fred Dickinson's 1904 account of tenting and cottaging is a spirited first-hand sketch of a long-neglected part of our heritage. A Cyclopædia of Canadian Biography Various,2021-08-30 A Cyclopædia of Canadian Biography is a collection of brief biographies of persons distinguished in the Professional, Military and Political Life, and the commerce and industry of Canada, in the Twentieth Century. The author explains, Generally speaking, in comparing the biographies of the Canadians of to-day with those of 1886 and 1888, the reader gains a sense of this

country's continuous expansion. The present century has witnessed a marvellous development in the Canadian West, so that in these pages we find numerous records showing not merely the commercial, but the intellectual, progress of the Provinces West of the Great Lakes—stories of brilliant careers built up by men who were mere children in the East when the first volume was published. The reader will also note in the biographies of business men which abound in these pages, the ever-increasing scale on which Canadian commerce and enterprise everywhere is conducted, so that what seemed large in 1886 is relatively small to-day. Though some of the men whose names figure in the index are of less importance than others, all play their part in our complex and vigorous social life, and the story of their progress and fortunes cannot be really tedious to any sympathetic student of humanity...

Placing Memory and Remembering Place in Canada James Opp, John C. Walsh, 2010-11-01 Places are imagined, made, claimed, fought for and defended, and always in a state of becoming. This important book explores the historical and theoretical relationships among place, community, and public memory across differing chronologies and geographies within twentieth-century Canada. It is a collaborative work that shifts the focus from nation and empire to local places sitting at the intersection of public memory making and identity formation ♦ main streets, city squares and village museums, internment camps, industrial wastelands, and the landscape itself. With a focus on the materiality of image, text, and artefact, the essays gathered here argue that every act of memory making is simultaneously an act of forgetting; every place memorialized is accompanied by places forgotten.
