Dot: For Pet's Sake Candlewick Press,2020-09-08 Could Dot's new pet-sitting service be too popular? With a comically unruly menagerie under her wing, a frazzled Dot finds that even her trusty app has a limit. Dot has volunteered to take care of a friend's cat for the weekend, and word is spreading quickly that she's begun a pet-sitting service. Before she knows it, Dot has a cat, a dog, a bird, a goldfish, and a tarantula to look after! But with Hal there to help, and a handy Pet Pal app tracking each pet's needs, Dot is certain she can keep everything under control. And for a while, it seems like she can . . . until the bird flies out of its cage, the tarantula escapes its terrarium, and the cat runs out the back door. It's pet pandemonium! With this many animals, can Dot and Hal ever restore order and make sure each pet gets the attention it needs? Animal lovers, tech aficionados, and Dot. fans alike will relate to this funny foray into biting off more than you can chew—and the power of saying no.

Android Programming Concepts Trish Cornez,Cornez,2015-10 Using a hands-on, student-friendly approach, Android Programming Concepts provides a comprehensive foundation for the development of mobile applications for devices and tablets powered by Android. This text explores Android Java and the Android SDK, the implementation of interactivity using touchscreen gesture detection and sensors, and current concepts and techniques for constructing mobile apps that take advantage of the latest Android features. Each chapter features a collection of well-designed and classroom tested labs that provide clear guidance of Android concepts. Each lab is geared toward one or two specific Android concepts, which eliminated distractions and gives the reader better focus on the concepts at hand.

Pet Party Hal Graham,2018-09-19 NOT your average book about pets, but a *magical* learning book! Cute pets in this book will come alive in breathtaking 3D animation to charm and teach your child about goldfish, bunnies, dalmatians, and more! These animals may look just normal on the physical book, but they leap out of the page when you scan them with the free Holo Popups app (see directions below). Knowledge has never been more fun! It may be the stunning visual and the cool technology that first hook the kids, but the best part about Pet Party is that it fosters real learning -- which is our biggest intent behind this book series. We added vivid voiceovers, subtitles, and sound effects so that the children are motivated and empowered to learn vocabulary and spelling on their own. Holo Popups are the modern pop-up books: they aim to inspire curiosity, imagination, and creativity, and to instill in your child a love for reading and learning. Don't be surprised if your child starts to school you on pet facts: Did you know that goldfish can recognize words? Any art fans? The artwork in this book series is inspired by Mary Blair, a children's art pioneer who was a concept artist for early Disney movies. The artwork features popping colors and enchanting characters that your kids will adore. The cuties in this book include: goldfish, bulldog puppy, cat, bunny, tomcat, yellow tang, dalmatian, and golden retriever! We made the book to be versatile: you can sit back and enjoy the AR experience with your child, or turn off the voiceover and read to them. Feel the satisfaction of holding a beautiful physical book in your hands and the magic of watching it come to life right in front of you and your child. Directions for Enjoying Our AR Children's Book: 1. Download the Holo Popups app on your device (available on the App Store or Google Play). 2. Open the app and turn on your sound. 3. Open the book and point the spinning cursor over the illustration. 4. A cute pet lands on your page and puts on a magic show!
