Olive, Mabel & Me: Life and Adventures with Two Very Good Dogs Andrew Cotter, 2020-12-01 The story of Olive and Mabel, Labrador retrievers who rose to internet fame as the subjects of Andrew Cotter's BBC sports parodies. When sporting events were put on hold in March 2020, commentator Andrew Cotter shifted to working from home. The one-on-one competitors? His two Labrador retrievers, Olive and Mabel. In the hilarious videos that ensued, the dogs engage in various contests, from bone-snatching and breakfast-eating to crushing it on the dog walk, while Cotter narrates to hilarious effect. The scene of Mabel, simply standing still in a fetid pond was one of the most popular. Why?

Because this is how dogs live, and Cotter captured it with humor and joy. It's why the series has been viewed more than 50 million times, entertaining dog owners, sports fans and celebrities around the world. Olive and Mabel are more than online celebrities, however, as revealed in this charming narrative. Filled with stories about how Cotter fell in love with his dogs, his passion for hiking with them through the glens and over the peaks of his native Scotland, and the ongoing relationship between Olive and Mabel (particularly the "competitive fire" lit during these days of quarantine), the memoir is by turns side-splittingly funny and thoughtfully tender. It's sure to resonate with all dog lovers.

In addition, WID pulls together 55 organization charts for federal agencies, congressional resources related to each chapter topic, hotline and contact information for various specific areas of interest (from Food Safety Resources to internships in Washington), and an extensive list of active congressional caucuses and contact details. #WeRateDogs Matt Nelson, 2017-10-03 2018 Shorty Award winner for best Creative & Media animal content ***Named one of the Best Comedy Books of 2017 by Splitsider***
“Over-the-top and hilarious.” —Barkpost Based on the Twitter and Instagram sensation, #WeRateDogs features the most heroic, over-the-top adorable, wildly successful, all-around entertaining dogs the world has ever seen! It combines extraordinary photos with ridiculous captions to expand the knowledge and overall lives of its readers. It is not only an exceptionally reliable source for dog greatness, it is also a one stop shop for happiness. This book takes readers on a journey through the strict science of dog rating and the unwavering rules associated with it. Questioning the accuracy of these ratings is ill-advised. They are certainly not arbitrary and this book is absolutely not just about how cute dogs are. It truly is all about precision and ethics in dog rating. The #WeRateDogs book will produce an audible reaction with every flip of the page—whether a groan from a terrible pupper pun or an “aww” of seeing a super floofer. If #WeRateDogs takes you away from

reality and pushes you into this conglomerate of absurdity for even a second, then it has fulfilled its purpose.

"I'm Home!" a Cat's Never Ending Love Story Brent Atwater,2011-11-06

Washington Information Directory 2022-2023 CQ Press,2022-08-23 The Washington

Information Directory (WID) is a directory, with a unique profile - it is topically organized, and within the taxonomic structure the relevant organizations are listed not only with contact information but with a brief paragraph describing what the organization (whether government or non-governmental) does related to that topic. It focuses on Washington - in order to be listed, an organization must have an office in the Washington metropolitan area. These descriptions are not boilerplate advertising material from the organizations; rather, they are hand-crafted by a talented freelance research team. In addition, WID pulls together 55 organization charts for federal agencies, congressional resources related to each chapter topic, hotline and contact information for various specific areas of interest, and an extensive list of active congressional caucuses and contact details. WID has two appendices, one with thorough information on congresspersons and committees, and the second with governors and embassies.

You Can't Be Serious Kal Penn, 2021-11-02 The star of the Harold and Kumar franchise, House, and Designated Survivor recounts why he rejected the advice of his aunties and guidance counselors and, instead of becoming a doctor or “something practical,” embarked on a surprising journey that has included confronting racism in Hollywood, meeting his future husband, and working in the Obama administration, in this “incredibly joyful and insightful” (Kiefer Sutherland) memoir. You Can't Be Serious is a series of funny, consequential, awkward, and ridiculous stories from Kal Penn's idiosyncratic life. It's about being the grandson of Gandhian freedom fighters, and the son of immigrant parents: people who came to this country with very little and went very far—and whose vision of the American dream probably never included their son sliding off an oiled-up naked woman in

the raunchy Ryan Reynolds movie *Van Wilder*...or getting a phone call from Air Force One as Kal flew with the country's first Black president. "By turns hilarious, poignant, and inspiring" (David Axelrod, New York Times bestselling author), Kal reflects on the most exasperating and rewarding moments from his journey so far. He pulls back the curtain on the nuances of opportunity and racism in the entertainment industry and recounts how he built allies, found encouragement, and dealt with early reminders that he might never fit in. He describes his initially unpromising first date with his now-fiancé Josh, involving an 18-pack of Coors Light and an afternoon of watching NASCAR. And of course, he reveals how, after a decade and a half of fighting for and enjoying successes in Hollywood, he made the terrifying but rewarding decision to take a sabbatical from a fulfilling acting career for an opportunity to serve his country as an Obama White House aide. Above all, *You Can't Be Serious* shows that everyone can have more than one life story. The book "is insightful, funny, and instructive for anyone who's ever grappled with how they fit into the American dream" (Ronan Farrow, New York Times bestselling author), and demonstrates that no matter who you are and where you come from, you have many more choices than those presented to you. And okay, yes, it's also about how Kal accidentally (and very stupidly) accepted an invitation to take the entire White House Office of Public Engagement to a strip club—because, let's be honest, that's the kind of stuff you really want to hear about.

Pop Culture in Europe Juliana Tzvetkova, 2017-10-12 A fascinating survey of popular culture in Europe, from Celtic punk and British TV shows to Spanish fashion and Italian sports. From One Direction and Adele to Penelope Cruz and Alexander Skarsgard, many Europeans are becoming household names in the United States. This ready-reference guide

covers international pop culture spanning music, literature, movies, television and radio, the Internet, sports, video games, and fashion, from the mid-20th century through the present day. The organization of the book—with entries arranged alphabetically within thematic chapters—allows readers to quickly find the topic they are seeking. Additionally, indexing allows for cross-cultural comparisons to be made between pop culture in Europe to that of the United States. An extensive chronology and lengthy introduction provide important contextual information, such as the United States' influence on movies, music, and the Internet; the effect of censorship on Internet and social media use; and the history of pop culture over the years. Topics feature key musicians, songs, books, actors and actresses, movies and television shows, popular websites, top athletes, games, clothing fads and designers, and much more.

The Internet of Animals Deborah Lupton, 2023-03-07 'The internet is made of cats' is a half-jokingly made claim. Today, animals of all shapes and sizes inhabit our digital spaces, including companion animals, wildlife, feral animals and livestock. In this book, Deborah Lupton explores how digital technologies and datafication are changing our relationships with other animals. Playfully building on the concept of 'The Internet of Things', she discusses the complex feelings that have developed between people and animals through the use of digital devices, from social media to employing animal-like robots as companions and carers. The book brings together a range of perspectives, including those of sociology, cultural geography, environmental humanities, critical animal studies and internet studies, to consider how these new digital technologies are contributing to major changes in human-animal relationships at both the micropolitical and macropolitical levels. As Lupton

shows, while digital devices and media have strengthened people's relationships to other creatures, these technologies can also objectify animals as things for human entertainment, therapy or economic exploitation. This original and engaging book will be of interest to scholars and students across the social sciences and humanities.
