**Animal Hospital** Stephen Sawicki, 1997 An account of a year inside the world-renowned Angell Memorial Animal Hospital in Boston, with stories based on first-hand observation and interviews, and including research on the history of the facility and the Massachusetts Society for the Prevention of Cruelty to Animals.

Angell at 100 Karen Campbell, 2015 Angell at 100: A Century of Compassionate Care for Animals

and Their Families at Angell Animal Medical Center chronicles the achievements of one of the foremost clinical veterinary institutions in the world. Angell Animal Medical Center is the first and largest animal hospital in New England. This book is a celebration of one hundred years of groundbreaking innovation and heartfelt compassion. Founded in 1868 by George Angell, the MSPCA is the second oldest humane organization in America. Its flagship hospital, Angell Animal Medical Center, was founded in 1915, and was the first animal hospital in New England. The MSPCA-Angell has expanded from advocacy and protection to healing and advancing the practice of veterinary medicine. Over the past century the organization has seen vast changes in society, the environment, and the attitude to the animals in our lives. It has helped make laws and set standards that have fundamentally shaped our sense of kindness and care for animals--and for one another. In the 21st century, MSPCA-Angell continues to rescue, shelter, protect, heal, and advocate for animals, giving special care to tens of thousands of animals each year. It also provides emergency assistance and strategic planning help for animal protection groups across the United States and around the globe. This book is a portrait of Angell Animal Medical Center from its founding in 1915 to the present day, and tells the stories of the dedicated doctors, the creative medical innovations, and of course the tales of the diverse patients and their families. Today the hospital has specialties ranging from acupuncture to ophthalmology, from behavioral services to nutrition, from dentistry to neurology and neurosurgery, as well as general medicine. Although the majority of the patients are dogs and cats, birds and rabbits are not uncommon, and there is sometimes even the occasional tortoise. It's been an extraordinary one hundred years, and here's to one hundred more.

Too often dog owners wait until a pet is struck with an illness to seek out veterinary advice. The importance of implementing a program that prevents illness from occurring is key to a happy and healthy pet. Topics covered include: Dentistry, grooming, and nutrition Emergencies, surgery, first aid, and vaccinations Training and behavior Caring for middle-aged and advanced-aged dogs Angell's unique preventive care handouts and brochure pages (offered for the first time to the general public) are also included. **They Have Feelings Too** Howard R Glaesner DVM,Howard Glaesner,2007-04 They Have Feelings Too is a memorable journey into the world of veterinary practice. As a young man fresh out of the United States Navy, Howard Hansen has a decision to make. What is he going to do with the rest of his life? Howard takes you through the hallowed university halls and into the Cal Davis's Veterinary stables to give you a glimpse of real life veterinary medicine. What happens when a staff of veterinary student are unknowingly exposed to rabies? Go into the surgery lab for large animals and follow the doctors as they prepare a highly strung black stallion for orthopedic surgery. Learn about the massive hydraulic operating tables and be in attendance as the chief surgeon operates on the stallion to stabilize a knee fracture. The new graduate with Doctor Of Veterinary Medicine behind his name chooses the specialty of small animal medicine. He finds employment as a staff veterinarian in a busy two man practice in Los Gatos, California. Hansen is exposed to office politics for the first time and encounters the diverse personalities of the boss's domineering wife and the tottering aged

father who acts a primary assistant. Howard decides to broaden his experience and moves to a large eight man practice in San Francisco. Diverse personalities abound as do conflicts. Day to day animal maladies are seen and treated. The occasional pet with an odd or truly strange injury as the two headed kitten and the convulsing falcon makes their way through the clinic's front door. Mistakes are made by veterinarians, and sometimes with hilarious results. The final episode of his career was his own one-man private practice. Howard moves his family to San Diego California where he purchases and successfully operates a veterinary hospital for 23 years. During his years of practice, Howard Hansen meets and introduces you to a wide spectrum of four legged, two legged and even a three legged amputee pets. He reminds us that not only the pets, but the owners too come in all sizes and shapes and personalities that run the gambit from normal to scary bikers with their attack dogs. This book exposes the reader to what really happen behind the doors of a veterinary clinic. If you ever wondered what was happening to your pet during treatment and wanted to be taken step by step through orthopedic surgery, learn how dangerous junk yard dogs are handled, and how rattlesnake bitten dogs saved, then this is a must read.
