Balancing Wealth and Health Rochelle Dreyfuss, 2014 The research strategy, concepts, and methodologies developed in this book repay careful consideration not only for fruitful deployment to examine dynamics of health and intellectual property in other regions, but also for generating innovative insights in other fields of global regulatory governance--Foreword.

Argentina's Economic Growth and Recovery Michael Cohen, 2012-05-15 This book examines the causes of the economic and political crisis in Argentina in 2001 and the process of strong economic recovery. It poses the question of how a country which defaulted on its external loans and was widely criticized by international observers could have succeeded in its growth and development despite this decision in 2002. It examines this process in terms of the impact of neo-liberal policies on the economy and the role of development strategy and the state in recovering from the crisis

Health Management Krzysztof Smigorski, 2011-12-14 The development in our understanding of health management ensures unprecedented possibilities in terms of explaining the causes of diseases and effective treatment. However, increased capabilities create new issues. Both, researchers and clinicians, as well as managers of healthcare units face new challenges: increasing validity and reliability of clinical trials, effectively distributing medical products, managing hospitals and clinics flexibly, and managing treatment processes efficiently. The aim of this book is to present issues relating to health management in a way that would be satisfying for academicians and practitioners. It is designed to be a forum for the experts in the thematic area to exchange viewpoints, and to present health management's state-of-art as a scientific and professional domain.

Contesting the Iron Fist Claudio Fuentes, 2005-01-01 This work analyzes the interactions and international connections of the civil rights and pro-order coalitions of state and societal

actors in the two countries. The author demonstrates that in democratizing contexts, protecting citizens from police abuse and becomes part of a debate about how to deal with issues of public safety and social control and of perceived trade-offs between liberty and security.

Making Journalists Hugo de Burgh, 2006-03-13 At a time when the media's relation to power is at the forefront of political discussion, this book considers how journalists can affect public discourse on politics, economy and society at large. From well-known and respected authors providing all new material, *Making Journalists* considers journalism education, training, practice and professionalism across a wide range of countries, including Saudi Arabia, Africa, India, USA and the UK. The book offers insights into: what journalism is how education makes the journalist and, therefore, the news models of journalism taught and practised across the globe the ethical implications of the process. When news reporting can lead to decisions on whether or not to go to war, everything can be affected by journalists and their mediation of the world. This text brings these present issues together in one invaluable resource for all students of journalism, politics and media studies.

Political Violence and Trauma in Argentina Antonius C. G. M. Robben, 2010-11-24 For decades, Argentina's population was subject to human rights violations ranging from the merely disruptive to the abominable. Violence pervaded Argentine social and cultural life in the repression of protest crowds, a ruthless counterinsurgency campaign, massive numbers of abductions, instances of torture, and innumerable assassinations. Despite continued repression, thousands of parents searched for their disappeared children, staging street protests that eventually marshaled international support. Challenging the notion that violence simply breeds more violence, Antonius C. G. M. Robben's provocative study argues that in Argentina violence led to trauma, and that trauma bred more violence. In this work of superior

scholarship, Robben analyzes the historical dynamic through which Argentina became entangled in a web of violence spun out of repeated traumatization of political adversaries. This violence-trauma-violence cycle culminated in a cultural war that disappeared more than ten thousand people and caused millions to live in fear. *Political Violence and Trauma in Argentina* demonstrates through a groundbreaking multilevel analysis the process by which different historical strands of violence coalesced during the 1970s into an all-out military assault on Argentine society and culture. Combining history and anthropology, this compelling book rests on thorough archival research; participant observation of mass demonstrations, exhumations, and reburials; gripping interviews with military officers, guerrilla commanders, human rights leaders, and former disappeared captives. Robben's penetrating analysis of the trauma of Argentine society is of great importance for our understanding of other societies undergoing similar crimes against humanity.

Media and Crime in Argentina Cynthia Fernandez

Roich, 2017-08-10 This book analyses the punitive crime discourse in the Argentinean press during the 1990s. Fernandez Roich focusses on several features of media discourse during this time, such as: the notion that petty criminals 'deserve to die' in reference to police brutality and killings, the phenomenon of 'vindicators' or how common citizens turned into 'evil' modern heroes in the press, and the parallelism between the military discourse under the military regime and the punitive discourse under democracy. In addition, the book also investigates the alleged natural propensity towards breaking the law ingrained within Argentinean culture, the so-called 'viveza criolla' and the well-ingrained idea that to get ahead you have to participate in corrupt practices. Despite the significant scholarly interest in the United States and Europe in the last Argentinean dictatorship (1976-1983), little attention has been paid to the role of Argentinean newspapers in supporting the military coup d'état.

The analysis of this media discourse is critical to understanding the support enjoyed by the armed forces in power: the vast majority of the population was not informed about the disappearances or the concentration camps until well into the 1980s. This project provides an in-depth qualitative content analysis of front pages, chronicles, editorials and photographs of Argentinean newspapers before and after the military intervention that will aid scholars of criminal justice and Latin American political regimes understand the impact of the support given to the military government.

Revolutionizing Motherhood Marguerite Guzman Bouvard, 2002-01-01 Revolutionizing Motherhood examines one of the most astonishing human rights movements of recent years. During the Argentine junta's Dirty War against subversives, as tens of thousands were abducted, tortured, and disappeared, a group of women forged the Mothers of the Plaza de Mayo and changed Argentine politics forever. The Mothers began in the 1970s as an informal group of working-class housewives making the rounds of prisons and military barracks in search of their disappeared children. As they realized that both state and church officials were conspiring to withhold information, they started to protest, claiming the administrative center of Argentina the Plaza de Mayo for their center stage. In this volume, Marguerite G. Bouvard traces the history of the Mothers and examines how they have transformed maternity from a passive, domestic role to one of public strength. Bouvard also gives a detailed history of contemporary Argentina, including the military's debacle in the Falklands, the fall of the junta, and the efforts of subsequent governments to reach an accord with the Mothers. Finally, she examines their current agenda and their continuing struggle to bring the murderers of their children to justice.

Workers' Self-Management in Argentina Marcelo Vieta, 2020-01-07 In Workers' Self-Management in Argentina, Marcelo Vieta homes in on the history, consolidation, and socio-

political dimensions of Argentina's empresas recuperadas por sus trabajadores (worker-recuperated enterprises), a worker-led company occupation movement that has surged since the turn-of-the-millennium and the country's neo-liberal crisis.

Transnational Latin American Television Nahuel Ribke, 2020-12-28 This book examines the process of transnationalization of Latin American television industries. Drawing upon six representative case studies spanning the subcontinent's vast and diverse geo-political and cultural landscape, the book offers a unique exploration of the ongoing formation of interrelated cultural, technological, and political landscapes, from the mid-1980s to the present. The chapters analyse the international circulation of the genres and formats of entertainment television across the subcontinent to explore the main driving forces propelling the production and consumption of television contents in the region, and what we can learn about the cultural and social identities of Latin American audiences following the journey of genres, formats, and media personalities beyond their own national borders. Taking a contemporary interdisciplinary approach to the study of transnational television industries, this book will be of significant interest to scholars and students of television and film studies, communication studies, Latin American studies, global media studies, and media and cultural industries.

The New Latin American Left Jeffery R. Webber, Barry Carr, 2012-09-20 This provocative, multidisciplinary work explores the dramatic resurgence of the Left in Latin America since the late 1990s. Offering a comprehensive account of the complexities and nuances of the shifting political tides in the region, the book provides both a theoretical framework for assessing the state of the Left and a set of country case studies highlighting key movements, successes, and failures. Working from a range of critical perspectives, the contributors consider the Left's hopes, aims, and prospects, as well as its contradictions and fissures. As

the first book to systematically consider the contemporary relevance of the Left, it will be central to any understanding of Latin American politics and society today.

Globalization and Transformations of Social Inequality

Ulrike Schuerkens, 2010-06-10 Offers analytical and comparative insights from case studies of social inequality in eleven countries within the major regions of the world.

Deliberative Democracy and Human Rights Harold Hongju Koh, 1999-01-01 In this important collection of writings, leading legal and political thinkers address a wide array of issues that confront societies undergoing a transition to democratic rule. Bridging the gap between theory and practice in international human rights law and policy, the contributors continue discussions that were begun with the late Argentine philosopher-lawyer Carlos Santiago Nino, then extend those conversations in new directions inspired by their own and Nino's work. The book focuses on some of the key questions that confront the international human rights movement today. What is the moral justification for the concept and content of universal human rights? What is the relationship among nation-building, constitutionalism, and democracy? What are the political implications for a conception of universal human rights? What is the relationship between moral principles and political practice? How should a society confront what Kant called radical evil? And how does a successor regime justly and practically hold a prior regime accountable for gross violations of human rights?

Moonlight Sonata (Sonata No. 14 in C-Sharp Minor, Op. 27, No. 2) Ludwig van Beethoven, Artur Schnabel, 1995-01-31 Artur Schnabel was one of the world's greatest interpreters of Beethoven. Schnabel collated every Beethoven manuscript and first edition he could find and then went to work to supply a guide to interpretation that is a monumental achievement. This newly engraved edition is based on that scrupulous scholarship and attention to detail. Included are Schnabel's footnotes in English,

Spanish, Italian, German, and French. This edition will prove indispensable for study and concert or recital preparation.

Makers of Jewish Modernity Jacques Picard, Jacques M. Revel, Michael P. Steinberg, Idith Zertal, 2016-08-09 A unique reference to leading Jewish figures who helped shape the modern world This superb collection presents more than forty incisive portraits of leading Jewish thinkers, artists, scientists, and other public figures of the last hundred years who, in their own unique ways, engaged with and helped shape the modern world. *Makers of Jewish Modernity* features entries on political figures such as Walther Rathenau, Rosa Luxemburg, and David Ben-Gurion; philosophers and critics such as Walter Benjamin, Hannah Arendt, Isaiah Berlin, Jacques Derrida, and Judith Butler; and artists such as Mark Rothko. The book provides fresh insights into the lives and careers of novelists like Franz Kafka, Saul Bellow, and Philip Roth; the filmmakers Joel and Ethan Coen; social scientists such as Sigmund Freud; religious leaders and thinkers such as Avraham Kook and Martin Buber; and many others. Written by a diverse group of leading contemporary scholars from around the world, these vibrant and frequently surprising portraits offer a global perspective that highlights the multiplicity of Jewish experience and thought. A reference book like no other, *Makers of Jewish Modernity* includes an informative general introduction that situates its subjects within the broader context of Jewish modernity as well as a rich selection of photos.

Neoliberalism from Below Verónica Gago, 2017-10-19 In *Neoliberalism from Below*—first published in Argentina in 2014—Verónica Gago examines how Latin American neoliberalism is propelled not just from above by international finance, corporations, and government, but also by the activities of migrant workers, vendors, sweatshop workers, and other

marginalized groups. Using the massive illegal market La Salada in Buenos Aires as a point of departure, Gago shows how alternative economic practices, such as the sale of counterfeit goods produced in illegal textile factories, resist neoliberalism while simultaneously succumbing to its models of exploitative labor and production. Gago demonstrates how La Salada's economic dynamics mirror those found throughout urban Latin America. In so doing, she provides a new theory of neoliberalism and a nuanced view of the tense mix of calculation and freedom, obedience and resistance, individualism and community, and legality and illegality that fuels the increasingly powerful popular economies of the global South's large cities.

Game Without End Jaime E. Malamud Goti, 1996 This book is the first written by an insider about the tragic outcome of Argentina's human-rights trials. Jaime Malamud-Goti was one of two advisers asked by President Raul R. Alfonsín to organize the trials. This was not an assignment without risk: Malamud-Goti received constant threats. But did the trials further the cause of democracy - as the prosecutors so fervently had hoped? Even though he was an architect of the proceedings, Malamud-Goti argues that they did not. In fact, he says, they may have contributed to the new mode of authoritarianism and bigotry now rising in Argentina. What most profoundly interests Malamud-Goti is that his nation persists in turning logic on its head: multitudes of Argentines respond to authoritarianism by playing political and judicial hardball - inciting a response in kind. They are playing a game without end. *Game Without End* is an honest attempt to express deeply assimilated experience - the effort of a scholar who, while serving as secretary of state, encouraged his compatriots to turn over a new leaf but who, by his own assessment, failed. Returning to Argentina later as a Guggenheim scholar and a MacArthur peace scholar, Malamud-Goti researched much of this book in Buenos Aires, where he interviewed former opponents, a few of them in military prisons.

He hopes that other nations, struggling to make the transition from authoritarianism to democracy, can learn from Argentina's experience. In a passionate foreword his late wife, Libbet, draws particular attention to former Yugoslavia.

Migration in Contemporary Hispanic Cinema Thomas G. Deveny,2012 In *Migration in Contemporary Hispanic Cinema*, Thomas Deveny takes the unique approach of looking at film and immigration with a global perspective, examining emigration and immigration films from Spain, Mexico, Argentina, Central America, and the Hispanic Caribbean. Deveny approaches each movie with a close textual analysis, keeping in mind the sociological theories regarding migration, as well as incorporating criticism on the film. Films such as *Flowers from Another World*, *Return to Hansala*, *El Camino*, *14 Kilometers*, *María Full of Grace*, and others are studied throughout.
